Resolved, That a Joint Special Committee, to consist of five members from each Chamber, including the Presidents thereof, be appointed, whose duty it shall be to make inquiry upon the following subjects, to wit:

FIRST—Whether it is expedient to reduce the Police Force of the City, and if so, to what extent?

SECOND—To ascertain the number of Clerks employed in the several Departments, and their salaries, and what reductions or modifications are necessary.

THIRD—To make examination of the duties and labors of the various Departments, and report as to the propriety of consolidating or reducing their number.

FOURTH—To inquire and report a plan whereby the Printing of Councils and Departments may be regulated.

FIFTH—To ascertain the Revenues of the City from all sources whatsoever arising, and all expenses and disbursements of monies whatever, and make report of a plan to equalize the Assessments, and also a plan for the general retrenchment of the expenses of the City.

SIXTH—To inquire into the duties and salaries of heads of the Departments respectively, and the number and duties of all persons employed by them, and make report as to the expediency of diminishing the number and salaries of the same, or either of them, and report by Bill prior to any new appointments being made.

The Clerk of the Mayor

Being introduced, presented the following message, in writing:

To the Select and Common Councils
of the City of Philadelphia:

GENTLEMEN:

By the seventh section of an Act of the General Assembly of Pennsylvania, entitled "A further supplement to an Act, entitled, 'An Act to Incorporate the City of Philadel-

phia," passed February 2d, 1854, it is declared to be the duty of the Mayor, to communicate to Councils "a general statement of the condition of the City, in relation to its government, finances, and improvements; to recommend the adoption of all such measures as he may deem expedient for the security, health, cleanliness, improvement, and welfare of the City."

In obedience to the provisions of this law, I have the honor to invite your serious attention, to subjects under the above enumerated designations, which, in my judgment, require your action.

Having so recently undertaken the discharge of the duties of this Department, sufficient opportunity has not been afforded me to give a general statement of the condition of the City, as contemplated by the words and spirit of the Act referred to.

At a proper time this will receive the consideration its importance demands. Those subjects which are presented now to the attention of the Legislative Department of the City, force their way by the exigency of a necessity, which seems to admit of no delay.

I. The condition of the finances; the exact amount of the floating debt; the amount of outstanding warrants; the items of which the same are composed, and the several Departments from which they originated; the various Ordinances which govern the disbursement of public money; the appropriations now made for the public service, and the manner in which the payments are made; the mode heretofore adopted of testing the accuracy of charges against the several items of expenditure; require to be examined with a critical exactness. In regard to them, a system should be adopted as early as practicable, to secure honesty and order on these vitally important subjects. System is absolutely necessary; it is the best security against waste, fraud, and negligence. To ascertain the present actual condition of the finances of the City, is a duty which addresses itself to every reflecting mind. Justice to the present administration, which is now charged with the responsible and arduous task of introducing a reform in Municipal affairs, demands the fullest and most searching investigation into the fiscal condition of the City. In order to be relieved from censure, which ought not to attach to

the present, a full, impartial, and clear examination and exposition of the past, is not only proper, but just.

The public health is a subject of such paramount importance to every citizen, that I feel it my duty, thus early, to invite your consideration of the controlling means at your command, that may be employed to protect and preserve it. Whatever instrumentalities can effect, should be promptly organized for so desirable an object. Cleanliness is one of the most prominent and effective. I would respectfully urge upon you, the immediate consideration and the adoption of such measures as will ensure that condition of cleanliness which is not only necessary, but which is within the most reasonable expectations of our fellow-citizens. It appears proper to remark, that the means now adopted for this end are radically defective. Dividing the City into districts, and contracting for their cleaning by one or more persons, at a specific sum for a definite period, is not, perhaps, the most suitable plan that might be adopted. The scope of such a contract, is, in its nature, too general. It gives to a contractor facilities, if not excuses, to neglect his duties. If each Ward was made a separate district, and a suitable person selected to attend to it, then, a direct supervision could be maintained over the work, by those who have no other interest than a faithful performance of the labor.

Independently of this suggestion, there is another which is entitled to serious consideration in this connection:—the cost of the contract system of cleaning is liable to animadversion. A contractor is sure to secure payment, when it is doubtful if all the labor is performed. In this, as in all Departments charged with Executive duties, the safest and best system, is that which fixes the responsibility, and enforces accountability, by direct supervision. A divided duty is never to be encouraged or required. Lavish expenditure and unsatisfactory returns, are the certain concomitants of Executive functions by Legislative enactments, without control, direct and effectual.

The Highways are for the use and enjoyment of the public; they should at all times be kept in proper repair, and no obstructions should be permitted, longer than is absolutely necessary, to interfere with their legitimate purpose. It is not to be denied, that this Department of the public

service requires a full investigation, and thorough revision, in its details and management. The cost of this branch of the City Government, is, beyond doubt, enormous, and it may be, most unnecessary. Very grave doubt exists as to the policy heretofore pursued, in regard to the disbursements for opening and grading streets, and indeed, to the entire conduct of the Highway Department. Without now expressing any opinion, I feel it my duty, to invoke your early and careful attention to this subject.

The Ordinance passed by Councils, and approved on the 17th inst., entitled "An Ordinance to forbid that any work shall be done without authority from Councils," is so wise, and was so necessary, that I refer to it, only for the purpose of expressing my conviction of the benefits which will follow its enforcement.

Permit me to suggest to your consideration, the propriety of dispensing with some of the Departments of the public service now in existence—they are entirely useless. The duties attaching to them can be readily performed by a consolidation of the labor under a congenial classification. This will require attention and care, but it will result advantageously. The expenses will be diminished by reducing the number of officers, and more efficiency will be obtained. While the exercise of economy is a duty too imperative to be disregarded, yet let it be understood that it is a wise, intelligent and practical economy, which will best secure substantial reform. Theoretic propositions, ill-digested plans, immatured measures to effect a saving of the people's money may, when tried, and found to be unsatisfactory, or illusory, augment rather than lessen the expenditure. You are no doubt fully impressed with these views. Let us guard against one evil while we are endeavoring to correct another.

Security and public order are essential to the happiness, welfare and prosperity of every people. In a republican government, all true men are bound by the highest dictates of patriotism to maintain their own laws, and insist on their being obeyed. I feel it my duty to do all in the power of the Executive to secure these results. The Police Department requires a re-organization. It is not in as effective a condition as is desirable. I will give to this subject imme-

diate and earnest attention, with the hope that results may be obtained such as a practical acquaintance with the subject will not only justify but sanction.

A further supplement to an Act Consolidating the City of Philadelphia, was approved by the Executive of the Commonwealth of Pennsylvania, May 13, 1856. I take occasion to call your attention to its provisions, as action by the municipal legislature will no doubt be required. I transmit herewith a certified copy of the law, for your information.

Permit me to express to you the assurance of my earnest desire to unite with you in all reasonable measures to secure as far as practicable such reforms and improvements as your judgment may suggest and the public interest demand.

RICHARD VAUX,

Mayor of Philadelphia.

Mayor's Office, Philada., May 22, 1856.

CITY SOLICITOR'S OFFICE,
Philadelphia, May 28, 1856.

To the Common Council of Philadelphia:

GENTLEMEN:—In the published proceedings of Councils at their last meeting, I observed that when the case of George M. Hill was under discussion, a resolution was passed by your body directing the attention of the Solicitor to the delinquent Tax Collectors. Immediately after reading these proceedings I had an interview with Mr. Hill, in regard to the claim against him, and I have more recently had another and final interview with him. He now exhibits to me the receipt of the City Treasurer, for balance in full of the amount due by him, according to the statement and certificate of the City Controller. I have also examined the copy of the receipt preserved by the City Treasurer, and the account settled by the Controller, and so far as I am now informed the case seems to have been brought to a close, without loss to the City.

This is the only instance of a claim of this kind to which my attention has been called since entering on the duties of the office. I shall be happy to attend as speedily as possible to any other cases that may exist.

Very Respectfully,

WM. A. PORTER,
City Solicitor.

Also,

A communication from the City Solicitor, in reference to the Act of Assembly, regulating the Tolls of the City Rail Road. (Appendix No. 9.)

Referred to the Committee on Law.

Also,

A memorial from E. C. Dale, and A. J. Pleasanton, Surviving Trustees, under the will of Joseph Dugan, dec'd.

Read and referred to the Committee on Claims.

Also,

A communication from owners of property on the north side of Arch street, asking to purchase and extinguish ground rents on their several lots.

Referred to the Committee on Finance.

Also,

A communication from the Board of Health, asking for an appropriation for the erection of a New Hospital, to be located in the Twenty-first Ward.

Referred to the Committee on Finance.

Also,

A communication from S. A. Harrison, enclosing bills for Work and Materials, furnished the City in 1855.

Referred to the Committee on Claims.

Also,

A communication from Peter Armbruster, Receiver of Taxes, elect, transmitting the names of his securities.

Referred to the Committee on Finance.

Also,

A communication from Robert McCrory, asking to be appointed the Superintendent of City Rail Road.

Laid on the table.

Also,

The Eighteenth Annual Report of the Trustees of the City Ice Boat.

Referred to the Committee on Finance.

Also,

A communication from William Rice, Publisher of the Pennsylvanian, transmitting his bill for Advertising Extra Assessments, &c.

Mr. Henry

Presented the following Communication :

Philadelphia, June 10th, 1856.

To the Select and Common Councils :

GENTLEMEN :—I am reluctantly compelled to call your attention to the condition of the Hunting Park.

It was received as a gift by the City, under the express agreement, that, within one year, it should be enclosed,

laid out with avenues, and planted. Nearly two years have elapsed, and no improvement to the grounds has been attempted.

The last Councils made an appropriation for this purpose, but upon the Superintendent being urged to plant it, last spring, he stated he could not do so, until a resolution was passed, authorizing him to appropriate the money.

At the last meeting of those Councils, the resolution passed one body but did not reach the other.

The parties who presented this property to the City, having purchased it for forty-five thousand dollars, believed that the Councils would appreciate the value of the gift, and promptly comply with the conditions upon which they accepted it.

They have been sadly disappointed. Two years of valuable time have been lost, and without some speedy action, another will be. I respectfully submit, that it is due to those who made the gift, to promptly improve the property or return it to them.

Your Obedient Servant,

C. H. FISHER,

Chairman of the Committee of the Donors.

Mr. Butler

The President

Presented the following Communication :

DISTRICT ATTORNEY'S OFFICE,
Philadelphia, June 13th, 1856.

To the Select and Common Councils of Philadelphia :

GENTLEMEN:—I beg to call your attention to a matter of public interest connected with the prosecution of criminals in this City. After returns are made to my offices of cases heard before Committing Magistrates, it very often happens, especially in Cases of Homicide, that certain police and other expenses become absolutely necessary. If they are not incurred without delay, the ends of justice are entirely frustrated. They do not amount to a large sum in the aggregate, and there is now no appropriation out of which they can be paid.

On the 20th March, 1855, Councils passed an Ordinance, to which I desire to refer you, appropriating five hundred dollars to this object, to be paid on Warrants drawn by the Mayor, and to be approved by a Judge of the Court of Oyer and Terminer. Of this sum, during the year, but three hundred and forty-six dollars and ninety cents was expended, leaving a balance uncalled for at the time the appropriation expired, of one hundred and forty-three dollars and ten cents.

The object of this letter is to ask of Councils a renewal of the appropriation, and to the subject I respectfully invite your favorable attention.

WILLIAM B. REED.

Referred to the Committee on Finance.

Also,

A Communication from G. W. Ash, Counsel for T. N. & G. V. Town, requesting the payment of bills for printing Tax Duplicates.

Referred to the Committee on Claims.

Also,

Resolved, By the Select and Common Councils of the City of Philadelphia, That the owners of property on Bedford street, from Eighteenth to Twentieth streets ; also on Shippen street, from Eighteenth to Twentieth streets ; also on Nineteenth street, from South to Fitzwater streets ; be authorised to pave the same, under the supervision of the Department of Highways. Provided, That this City shall be at no expense for the said paving, except for the grading of the said streets and for the paving of the inter-sections. And provided also, That the water pipes be first laid therein.

Referred to the Committee on Highways.

Also,

That they had passed the following preamble and resolutions :

Whereas, About one-sixth of the term of the present Councils has elapsed, and some of the great interests committed to them have received but little or no attention,

because the two Chambers differ as to whether their Committees shall be joint or separate ;

And whereas, there were, on the 31st of May last, Warrants amounting to six hundred and twelve thousand, four hundred and nineteen dollars and twenty-nine cents, unpaid and unprovided for, and the amount is daily increasing, which proves that the supineness of the Councils is the cause of a greivous wrong, both to the creditors of the City and to the City's credit ;

And whereas, it is evident from the Act of the Legislature of February 2d, 1854, (see Section 10,) which requires the City Treasurer "to verify his cash account, at least once every week, to the satisfaction of a Standing Committee of Councils," that the Committee of Finance, which has the supervision of the Treasurer's Department, was designed by that Act (the Consolidation Act) to be a Joint Standing Committee of both Chambers ; therefore,

Resolved, That the Select Council hereby respectfully solicits the consideration by Common Council, of the grave responsibility resting on the Chambers, because of the delay in complying with the law for the supervision of the Department of the Treasury, and also, in making the provision necessary for the full satisfaction of all the debts due by the City of Philadelphia, and urgently requests, that the Common Council will unite with the Select Council in the appointment of a Joint Committee of Finance, that the important duties usually entrusted to that Committee may no longer continue to be neglected.

Referred to the Special Committee on Rules.

Mr. Mascher

Offered the following,

Whereas, the present altitude of the reservoirs at Fairmount is inadequate to produce a sufficient head, and consequent supply of water in elevated localities of our City, there being, in certain parts of the day insufficient force to cause the water to flow from hydrants in some of the upper stories of our houses, while in the upper portions of other of our buildings it will not, for the same reason, flow at any time ;

And whereas, for the same reason, the head or force of water issuing from the fire plugs is insufficient to throw it to a requisite height to extinguish fires without the intervention of steam and other fire engines ;

And whereas, it is an established fact in Hydraulics that if the altitude of the reservoirs was sufficient the before mentioned defects would be removed ;

And whereas, it appears from the report of the Chief Engineer of the Water Works, for 1853, that the entire cost of all the reservoirs at Fairmount has been \$ 133,822, and inasmuch as it is believed that the before contemplated enlargement of the reservoirs can cost but a small additional amount, in no case exceeding the above named sum, and as it appears that it would be subserving true economy to raise or enlarge the reservoirs to such an extent as to dispense entirely with Fire Engines in the extinguishment of Fires, therefore,

Resolved, That the Chief Engineer of the Water Department be requested to examine into the feasibility and probable expense of elevating the reservoirs at Fairmount, to a sufficient height to enable water to be thrown upon the highest buildings in the City, in case of fire, by the force alone which it has acquired by reason of the hydrostatic pressure, resulting from the altitude of the reservoirs. Also, into the practicability and cost of elevating only one of the four reservoirs to the before mentioned altitude, so that the same may be used in case of fire alone.

Resolved, That the Chief Engineer be requested to enquire into the feasibility of constructing fire plugs in future, in such a manner as to enable two or more attachments to be made to the same, or in such a manner as to make the number of attachments in each fire plug to correspond to the area and cubical contents of the main pipe to which it may be attached, and report the same to Councils.

Referred to the Committee on Water Works.

Mr. Reed

Offered the following :

Resolved, That the Chief Engineer be requested to report to this Chamber a plan to avoid the present crossing at grade of the Columbia Rail Road or Bridge street, Twenty-fourth Ward.

Referred to the Committee on Highways.

The Mayor's Clerk

Was introduced, and presented the following communication :

MAYORS OFFICE,
Philadelphia, July 17, 1856

To the President and Members of the Common
Council of the City of Philadelphia :

GENTLEMEN :—It appears proper to invite your attention to the present mode by which the Lighting of the City is managed; under existing Ordinances, the duty of lighting and cleaning the public Lamps is vested in the Trustees of the Gas Works; this is not I conceive the proper authority to charge with this supervision: Light is an element in the preservation of public peace and security; it therefore most appropriately belongs to the Department of Police; inspections of the lights can be accurately made by the officers of the Police District; and it should be directly connected with their official duty; if reports are made to the Executive Department of neglect by those over which it has no control, the remedy may exist, but the power to enforce it is not found where the responsibility is thus sought to be fixed; a divided authority is most detrimental to the public interest. So long as it is a question where the rightful and full exercise of the authoritative control is placed by legislation, confusion and neglect, are created which are with difficulty remedied.

I desire to invite your attention to the subject of Public Lights, at this time, in order to avoid, if possible, special legislation, in regard to it; the mode to regulate it is by a carefully digested system, to meet all its requirements and promptly afford remedies for defects and neglects in its operations; you will permit me therefore most respectfully to suggest the propriety of referreing this subject to the proper Committee, for the purpose of a full investigation, and the report of such an Ordinance for your official action, as will place this branch of municipal affairs on a basis of systematic organization; it is of no importance to me under

what Department the public lighting is placed; I beg to say most respectfully however, that it is not to be expected that I should be held responsible before the public for the proper management of those municipal regulations, over which I have no effective control, to apply remedies daily invoked by our Citizens.

This occasion is taken to transmit extracts from the daily reports to this Department, of the condition of the public lights in some portions of the City.

Respectfully,

RICHARD VAUX,

Mayor of Philadelphia.

HON. RICHARD VAUX :

Dear Sir:—Yourself and a Committee of the Councils of Philadelphia are invited, as you will observe by the accompanying resolution, to attend the opening of the Sunbury and Erie Rail Road, in the city of Erie, on the 2d day of August proximo.

The happening of an event so auspicious to the prosperity both of Philadelphia and Erie, should, as I have no doubt it will, awaken a lively interest in your city, as it has here, in as much as the ultimate construction of this great work will inevitably result in the increase of the wealth, enhancement of the property, and promotion of the general advantages of the two great points it is intended to connect.

We trust that the interest which the people of your city must necessarily feel in the accomplishment of this long deferred enterprise, will induce a large attendance of the authorities of your beautiful city and its inhabitants on that occasion.

Be pleased to communicate to the Councils of the city of Philadelphia this invitation, and accept for yourself and them assurances of respect and esteem.

Yours, Most Respectfully,

WILSON LAIRD,
Mayor of Erie.

The following Resolution was unanimously passed by both branches of the Erie City Councils, July 21st, 1856.

Resolved, By the Select and Common Councils, that the Mayor be and he is hereby requested to extend to His Honor the Mayor, and a Committee of the Select and Common Councils of the City of Philadelphia, an invitation to visit Erie, on the commencing of the work on the Western Division of the Sunbury and Erie Rail Road.

State of Pennsylvania, }
Erie City, ss. }

I Certify the above Resolution to be a Correct Copy, from the records of Councils.

Yeas 33. Nays 9.

Upon the call of the name of Mr. Miller, he proposed before the recording of his vote that the following should be entered upon the Journal, to wit:

The undersigned offers and asks leave to enter upon the Journal, the following reasons for his vote against the resolution accepting the invitation of the authorities of the City of Erie, to be present at the Breaking Ground, at the commencement of the Sunbury and Erie Rail Road:

First.—He looks upon it as a scheme of the Sunbury and Erie Rail Road Co., to promote the passage of the Resolution now before Councils, to anticipate the time of payment of the remaining instalments of the subscription by the City, to the stock of that Company.

Second.—He does not intend to vote for the payment of the said instalments, and does not desire to appear in the position of having partaken of the hospitalities of the Company, and afterwards voting against a measure favoring their interests.

ANDREW MILLER.

July 28, 1856.

The President

Presented the following communications from His Honor the Mayor.

Laid on the table.

MAYOR'S OFFICE,
Philadelphia, July 24th, 1856.

To the President and Members of the Common
Council of the City of Philadelphia :

GENTLEMEN :—The 20th and 21st Sections of the Act of the General Assembly of Pennsylvania, Approved 21st of April 1855, entitled “A supplement to the Act Consolidating the City of Philadelphia,” (See Digest of Laws Page 55,) declare as follows

“SECTION 20. That no contract for the construction of any new Buildings, School House, Bridge, Culvert, new Paving of streets, Redemption of the Tolls of any Turnpike, or Plank Road, to be paid for by the City, shall become binding thereon without an ordinance therefor duly enacted. No contract shall be made by the head of any Department for work or Materials for the City, unless for objects authorized by Councils, and if for new work, the contract and sureties be approved by the City Solicitor and Councils, and the supervision of Councils shall extend to adjudge the character of all work and materials done and furnished for the City, and to the scrutiny of the accounts and vouchers therefor; but such supervision and scrutiny shall in no wise relieve the Controller from the performance of the like duty in respect to such accounts and vouchers.

“SECTION 21. That no appropriation shall be made of the moneys of the said City without an ordinance therefor, expressing the objects thereof, and the amount appropriated for each object. It shall be the duty of the Mayor to keep a register of the amount and objects of all appropriations, and to withhold his signature for all new

Constructions and Redemption of Tolls as aforesaid, until all the interest accruing on the loans of the City, and the principal of those becoming due, and the ordinary and necessary expenses of the City and the administration of justice in the County shall be adequately provided for; and without his signature any ordinance therefor shall not go into effect. It shall be a misdemeanor in office for the Controller of the City to pass, or the Treasurer of the City to pay any bill or order for any object not authorized by Law."

The language and intent of these sections are plain enough to forbid a "new construction" &c., at the public expense until certain prerequisites therein described are complied with. It does not appear, that these antecedent provisions have been so satisfactorily arranged as to permit such ordinances as are thus prohibited to the City Legislature to enact, to have the validity of Laws. The ordinance now under consideration directs that the cost of Constructing this Culvert is to be charged against the Property on either side, at a certain sum per foot. If prompt payment is made by the property holders so charged; by the ordinance of May 3d, 1855, to regulate the manner of Paving Streets, (See Digest of Laws, Pages 443-44.) a deduction of five per centum is to be given therefor by the City. If prompt payment is not made, liens are to be entered against the Property in accordance with the Laws regulating the collection of claims. The mode of payment thus prescribed resolves itself into one of two kinds; either the City pays cash for the work and materials, which sum is raised by general taxation, and if the holders of the local property pay cash, or within a specified time, to the City for the outlay of the public money, the City Treasury loses, and some private individuals gain five per centum on the original cost; or if the owners of property do not pay, the cost and expense as well as the loss of the money from meritorious public creditors, falls on the Public Treasury. In either view a disbursement of public money is contemplated by this ordinance. This disbursement is for a new construction. However anxious I may be to see public improvements encouraged, and carried on, to successful completion, I cannot believe that the plain intention of the

Legislature of the State is to be disregarded. The 21st Section above referred to, enjoins on the Mayor as a duty "to withhold his signature from all new Constructions," and although the object of the present ordinance is small in itself, yet the principle on which it rests is large enough, if sanctioned in one case, to deplete the Public Treasury. The people of Philadelphia expect, that a jealous eye will be kept on the public funds, and that no expenditure will be made, which is not justified by the most powerful necessity, and the clearest and the most unquestionable legal rights.—Much as I regret to differ in opinion with the Councils of the City, I cannot reconcile it to my sense of duty, to give approval to the ordinance, entitled "an ordinance for the construction of a certain Culvert."—It is therefore returned without my signature.

Respectfully,

RICHARD VAUX,

Mayor of Philadelphia.

MAYOR'S OFFICE,

Also,

The following communications from the Mayor.

OFFICE OF THE MAYOR OF THE CITY OF PHILADELPHIA,
Philadelphia, October 27th, 1856.

To the President and Members of the Common
Council of the City of Philadelphia :

GENTLEMEN :—

Joint Resolutions, without being entitled, but which authorize the Commissioner of Market Houses to raise and put in tenantable condition Dock street Wharf; also, to have a fence placed on lot fronting on Coates street and Delaware Avenue; also, to have Dock, foot of Catharine street, cleansed; also, to have Pine street Dock, on the Delaware, cleansed, under the supervision of the Commissioner of Market Houses; have been presented for executive approval.

No appropriation is made for the payment of the cost of this work, nor any estimate therefor authorized or required.

In a communication, to which I respectfully call your attention, transmitted to the Select Council under date of August 28th, 1856, I suggested that public work, authorized to be done by Councils, either by Joint Resolution or Ordinance, without an appropriation made for the payment thereof, was not in conformity with the law governing and regulating the powers of those bodies. The 21st Section of the Act of April 21, 1855, expressly forbids such legislation. These Joint Resolutions are manifestly within this prohibition. The communication referred to, (see Journal Select Council, August 28th, 1856,) is applicable, in some of its reasoning, to the action of Councils now receiving attention. It was concurred in by the Select Council.

Consistency compels the opinion thus expressed, to control my action in the Joint Resolutions now under consideration. These Joint Resolutions authorize work to be done, involving great expense, which should be carefully examined, that no waste of public money be permitted. To authorize it to be done without a limit to the cost, or an appropriation for its payment, is giving a license to expenditure of money which I cannot sanction.

From a careful reading of these Resolutions they appear defective in language, if not in their provisions. They

provide that the Commissioner of Market Houses shall cause certain work to be performed under his own supervision.

I do not see that the officer having charge of that Department, should escape from a control which Councils exercise over the Commissioner of City Property and the Commissioners of Highways, and the City Commissioners. The cleansing of Docks, though in itself a labor easily understood, involves more than the ordinary knowledge necessary to its performance.

It appears to me that the Port Wardens, whose familiarity with the subject would enable them to render valuable suggestions, should be required either to overlook the work, or at least approve of any plan, by which it is to be accomplished.

This view is the more reasonable, as the proviso to the 12th Section of the Act of May 13, 1856, provides, "that no Dock shall be cleansed to a greater depth than the natural bed of the river." As this restriction is imperative, and applies to all Docks, the official information of the Port Wardens or Master Warden on the subject, should be sought at least at the inception of the work, if their supervision is not required during its progress.

The Joint Resolutions are returned without my approval.

Respectfully,

RICHARD VAUX,

Mayor of Philadelphia.

OFFICE OF THE MAYOR OF THE CITY OF PHILADELPHIA,

October 30th, 1856.

To the President and Members of the Common
Council of the City of Philadelphia :

GENTLEMEN :—

The following Ordinances and Joint Resolutions have been approved and signed, viz :

On the 25th inst. an Ordinance entitled "An Ordinance to authorize the construction of a certain culvert in Eighth street, from Poplar street to Girard Avenue."

On the 27th inst. a Resolution instructing the Chief Engineer of the Water Department, to have an additional amount of \$ 12,000 insured upon the Spring Garden Water Works.

On the 27th inst. a Resolution authorizing the Chief Engineer of the Water Works, to cause water pipe to be laid in certain streets therein named.

Respectfully,

RICHARD VAUX,

Mayor of Philadelphia.

Which were laid on the table.

OFFICE OF THE MAYOR OF THE CITY OF PHILADELPHIA,
October 30th, 1856.

To the President and Members of the Common
Council of the City of Philadelphia :

GENTLEMEN :—

Permit me to call your attention to the necessity of some legislation regulating the conduct of drivers of vehicles used for hire in the City of Philadelphia. I ask, respectfully, that this subject may claim your early attention. The constant complaints made by citizens, of the danger which occurs to life and limb, from careless driving through the public streets ; the utter disregard which those persons, so employed, often manifest for foot passengers across the intersections, aged persons and young children, and the want of some more prompt legal redress for these grievances, require action by the City Councils in the premises. The unlawful and exorbitant charges made by drivers of "Hackney Coaches," is a complaint frequently made, but as strangers are most generally imposed upon, their sojourn in the City is often too short for the tedious forms now required to enforce or inflict the penalty.

The Omnibusses which crowd the principal highways, the want of care which characterizes their management thereon, the disregard evinced for less substantial vehicles, and indeed for persons crossing the streets, which intersect

their routes, are among the complaints that almost daily are made by sufferers from, or witnesses of these evils.

The number of Vehicles let for hire—Hacks, Drays, Carts, Omnibusses, Wagons, and the like, are rapidly increasing. The owners of a large number of them are most anxious to aid the public authorities in a control of the thoughtless, and sometimes wicked disregard by drivers, of the rights of the Citizens; but no system has yet been established by law, which will command a success, in this particular and constantly increasing grievance. There is in this connection another subject of a kindred character which requires legislation by Councils. I refer to the outrageous abuses incident to the manner of hauling Cars on the Rail Roads on our public streets. This is a nuisance now almost unbearable. Long trains of cars, with a longer train of mules or horses, are driven along the Railroads, without the least regard for the rights of others which are daily and hourly invaded or disregarded by these drivers, or conductor or managers. This comparatively new mode of burthen transportation through the most populous and business sections of a large City, requires to be regulated on a most efficient plan.

The inhuman treatment of the beasts of burden, the stopping off of intersecting streets, the great inconvenience which the unreasonable length of the trains of cars occasions, and the entire monopoly they exercise on the streets through which they pass, demands some speedy and prompt correction.

I earnestly hope Councils will consider these subjects as eminently within the scope of the power of City legislation, and which public convenience and protection to the rights of Citizens, especially require.

There is another subject connected with the use of the public thoroughfares to which it is proper I should direct your attention. Permits to use the streets for building purposes are granted under the regulations of existing Ordinances.

How far these permits should be given for streets densely crowded with vehicles, is a question of serious importance. Though the space granted is limited, yet no care is taken to confine the use of the street to the Ordinance regulation. If as in many cases one half the street is

taken up, the whole travel is impeded, and too often entirely prevented. Scenes of confusion and disturbance of the public order necessarily follow a stoppage of large numbers of carts, drays and omnibusses, each anxious to proceed, and passing in different directions. To require the building materials to be removed is impossible in a short time. They have been collecting for days. To ascertain if the permit is in force, the limits granted by it, or the period for which it was given, requires a copy from the permit or license book. Time is necessary to obtain this information, and when obtained, longer time is essential to effect by their removal, the remedy. Those who transgress the provisions of the permit, use this period to carry on their work, and hence the steps directed to be taken to cure the evil, afford opportunity to continue it. The legislation of a former period, in the history of our City, on these various matters of public concernment, is almost useless to control the present condition of our advancement and rapid increase in population and business. The exigencies growing out of existing present wants, the complications incident to causes which spring up with our growth, the difficulties which are augmented by our municipal progress thus submitted to your notice, require, in my opinion, early and careful attention.

Laws, which are obsolete from a change in the condition of affairs which demanded their enactment, should have instituted for them, such as the requirements of the present public welfare indicates as needful to its existence.

No one who is conversant or familiar with the present state of the business and population of our City can deny, that a manifest necessity is apparent for a revision of the City Ordinances, on the subject referred to, as well as to others, now, for the first time in our history, claiming notice.

I would most respectfully suggest that such a revision be considered by Councils, in order that State Legislation if deemed necessary, may be asked from the Legislature of the Commonwealth, at its next Session.

But few Ordinances of the City, as at present constituted, have been passed which relate to that Municipal economy to which I have alluded.

Those of the former districts are in force, and we have a system of police regulations under one head, but different in those sections formerly separate incorporations. The power to regulate the new City is in Councils, by the "Consolidation Act," and its Supplements, and no obstacle exists to pass such laws as Councils shall deem necessary.

Respectfully,
RICHARD VAUX,
Mayor of Philadelphia.

Mr. O'Neill

APPENDIX No. 2.

COMMUNICATION FROM SOLICITOR IN REFERENCE TO GIRARD
BEQUESTS.

CITY SOLICITOR'S OFFICE, }
Philadelphia, May 20, 1856. }

*To the Hon. the Select and Common Councils of the City
of Philadelphia.*

GENTLEMEN :—Certain documents have recently been received at this Department, which show that various persons claiming to be the heirs of Stephen Girard, have presented their Petition in the Second District Court of New Orleans, alleging that the Trusts in Mr. Girard's will are invalid, that the cities of New Orleans and Philadelphia have no legal capacity to hold property under that will, and praying the Court to decree the petitioners to be the owners of certain lands lying in the Parish of Ouachita, in the State of Louisiana. On the presentation of the petition, the Court appointed H. T. Hays, Esq., *curator ad hoc*, to represent the City of Philadelphia, and to protect her interests until she could be heard from. The first letter to this department on the subject is from Mr. Hays to Mr. Olmstead, under date of April 17, 1856, stating his appointment, and expressing his views in regard to the nature and object of the suit. From this letter it appears that these are the same lands for which the Cities of Philadelphia and New Orleans brought suit against the United States, and the title to which was discussed by the Supreme Court, in 11 Howard's Reports, 609. Mr. Hays mentions that the Court at New Orleans had granted to him a reasonable time to write and to obtain a reply, and intimates that his appointment by the Court does not preclude the City of Philadelphia from selecting other counsel.

The next letter is from J. Livingston, Esq., the Attorney of the City of New Orleans, and bears date 24th April, 1856. Mr. L. discusses the mode of conducting the case, and states that if no other counsel has been selected, he will be happy to act for the City of Philadelphia.

On the best judgment which I am able to form from the papers before me, I think it highly desirable, and perhaps indispensable, that counsel in New Orleans should be appointed to take charge of the interests of the City of Philadelphia which are involved in this suit; and as I know of no power in this department to designate such counsel, and no appropriation whatever from which to compensate him for his services, I have deemed it proper to bring the subject to the notice of Councils, and to solicit their action upon it.

Very respectfully,

W. A. PORTER,

City Solicitor.

APPENDIX No. 3.

COMMUNICATION FROM SOLICITOR IN REFERENCE TO FINANCES OF HIS DEPARTMENT.

To the Hon. the Select and Common Councils of the City of Philadelphia.

The undersigned, City Solicitor, in answer to two certain resolutions, passed by Select Council on the 15th of May 1856, requiring him to communicate the balance to the credit of his department out of the appropriation made by Councils for the year 1856; the amount of warrants issued by said department remaining unpaid on the 12th day of May, 1856, and in whose favor and for what purpose said unpaid warrants were drawn, respectfully reports :

That having but recently assumed control of his office, he cannot answer, from his personal knowledge; but upon examination of the books and papers in his possession, and from other sources of information to which he could procure access, the results seem to be as follows :

The balance at this time to the credit of this department, out of the appropriations for 1856, appears to be \$11,275 01.

The amount of warrants issued by this department, unpaid to the 12th day of May, exclusive, appears to be \$6,660 75.

The outstanding warrants unpaid to May 12th, 1856, exclusive, referred to above, appear to be as follows :

APPENDIX No. 5.

COMMUNICATION FROM THE PRESIDENT OF THE SUNBURY
AND ERIE RAILROAD COMPANY.

OFFICE OF THE SUNBURY & ERIE RAILROAD Co. }
Philadelphia, May 22d, 1856. }

To the Select and Common Council of the City of Philadelphia,

GENTLEMEN:—By an Ordinance of the City of Philadelphia, provision has been made for the payment of the remaining instalments, on the stock of this Company held by the City, but the delivery of the Certificates of the City Loan has been fixed at such remote periods as seriously to embarrass the finances of the Company, and require heavy payments of extra interest on temporary loans. As a large proportion of this heavy interest is paid either directly or indirectly by the City, it seems to me that both sound policy and economy would be subserved by an immediate payment of these instalments, rather than they should be withheld at such a sacrifice.

The late Finance Committee of Councils agreed unanimously to introduce a resolution authorizing an early delivery of the certificates, and I respectfully ask that the subject may now have the early attention of Councils.

I also deem it desirable that the City authorities should be made perfectly familiar with the present position and future prospects of the Company, and the great work which it was established to construct; and, to that end, I would further request, that a Committee be appointed to confer with our Board, the members of which will be pleased to communicate to such Committee all the facts which an intelligent and proper action and the protection of the City interests may require.

Very Respectfully,

S. V. MERRICK,

President of the Sunbury & Erie R. R. Co.

APPENDIX No. 8.

REPORT OF SPECIAL COMMITTEE ON STREETS.

To the Common Council of the City of Philadelphia.

The Committee to whom was referred the resolution offered at the meeting on Thursday, May 15, 1856, upon the subject of cleaning the streets of the Second District, with instructions to report as to the best mode of cleansing the streets of the City; report:—

That upon application to Mr. Birch, Chief Commissioner of Highways, he very promptly furnished them with the following statement of the cost of cleaning the streets within the First and Third Districts, for eleven months, commencing 1st of November, 1854, and ending 1st of October, 1855, during which time the work was done by the Supervisors hiring men and

carts. The cost in the First District, composed of the first four Wards, was as follows;

First Ward,	-	-	-	-	-	-	\$2,594 55
Second “	-	-	-	-	-	-	4,896 99
Third “	-	-	-	-	-	-	3,987 93
Fourth “	-	-	-	-	-	-	6,125 71
Total Eleven months,							<u>\$17,605 18</u>

This would make the average cost
for one year, \$19,205 65

The contract for cleaning this District for one year, from October 1st, 1855, is held by John Schaffer, for the sum of \$12,000.

And the cost of the Third District, composed of the Thirteenth, Fourteenth, Fifteenth and Twentieth Wards, for eleven months, were as follows:

Thirteenth Ward,	-	-	-	-	-	\$3,977 05
Fourteenth “	-	-	-	-	-	4,604 37
Fifteenth “	-	-	-	-	-	3,235 05
Twentieth “	-	-	-	-	-	3,016 80
						<hr/>
Total,						\$14,833 27

Making the average cost in a year, \$16,181 75

This District is under contract with Betchel & Sowers, for one year from October 1, 1855, at eleven thousand dollars.

It will thus be seen that the cost of cleansing the streets by the Supervisors, employing men and carts, is about fifty per cent greater than the sum paid for cleaning them by contract, although it appears to be generally conceded that the streets were kept cleaner by the former mode than by the latter.

Your Committee would observe that there is a good deal of complaint about the streets not being properly cleaned, some of which is no doubt well founded. Piles of kitchen offal and of vegetable and other mat-

ter, are allowed to accumulate at the ends of courts and alleys, and filth is permitted to choke up the gutters, especially at the street crossings, which, laying day after day in the sun, become extremely offensive to the eye as well as to the olfactories. And if the contractors would give especial attention to those places where the filth most rapidly accumulates, they might omit the very frequent sweepings of the more cleanly localities, without complaint on the part of citizens.

The Committee would also observe that it is impossible to keep the streets entirely clean of dust. It is asserted that there is an Ordinance of the old City, that forbids the sweeping of the earth from the instertices between the pebble stones. During the summer season, a thunder shower will create mud, and the transition from mud to dust is effected in about twelve hours of sunshine. Mud and dust would therefore seem to be incidents to the climate of Philadelphia, and the people must make up their minds to bear to some extent the evil arising from them. It should also be remembered that the travel over our streets by horses and vehicles, is about ten-fold greater than it was twenty or thirty years ago, which necessarily causes more dust than formerly.

Your Committee are of the opinion that by proper attention and energy on the part of the officers of the City, the contractors can be required to perform their duties, at least up to the spirit, if not to the letter of their contracts.

By the provisions of the Consolidation Law, it is made the duty of the Mayor, "to be vigilant and active in causing the laws and ordinances of the City to be duly executed." And he may, by means of the police, have all delinquencies on the part of the contractor immediately reported to the proper department, and the contractor summarily dealt with according to the terms of his contract.

By one of the sections to the Supplement to the Consolidation Law, passed at the late Session of the Legislature, it is provided that all work to be done by the City, shall be done by contract, and although it

might be doubted whether this would be considered to apply to the subject of cleaning the streets, yet your Committee are of the opinion that it is most expedient for Councils to yield a compliance to the spirit of the law, and to continue to cleanse the streets by the mode that has been hitherto generally adopted.

The Committee would suggest that the contracts should be made so that they will expire on the first day of October. Mr. Birkley's contract for the Second District, composed of the old City, expired on the 20th of March of the present year. At that time a large quantity of filth and coal ashes, that could not be removed during the winter, had accumulated; and if a new contractor had then commenced, he would have been obliged to remove a large quantity of dirt that ought to have been taken away by his predecessor. On the first of October the streets are generally more clean than at any other period, and it is in all respects the most favorable season for a change of contractors.

The Committee would also suggest that the Second District, comprising the whole of the old City, be divided into two parts, to be separated by the north line of Chesnut street. This will make two sections of convenient size, and will enable contractors of more moderate means to undertake the work of cleaning them, and will probably secure a more complete prosecution of the work. The Committee therefore recommend the adoption of the following resolution:

Resolved. That the Chief Commissioner of Highways be directed to advertise for proposals for cleaning the Second District, comprising the 5th, 6th, 7th, 8th, 9th and 10th Wards of the City; said District to be parted into two divisions—the lower division to consist of all of the said Wards south of the north line of Chesnut street; and the upper division to consist of all of the said Wards north of the north line of Chesnut street. Said proposals or bids to be made upon the basis of specifications issued from the Department of Highways, bearing date the 3d of March, 1856, with such modifications therein, if any, that the Com-

mittee on Highways or the Chief Commissioner may suggest.

Each bidder to bid for but one of the divisions, and for the period of time commencing with the day of the execution of the contract, and ending with the 1st of October, 1857, and said bidders may also propose for the said work for the period ending with the 1st of October, 1859.

Said advertisements to state the day and time up to which the proposals will be received. The proposals to be opened by the Chief Commissioner, in the presence of the Committee of Highways, at a meeting to be called for that purpose, and the said Committee shall report to Councils at the next stated meeting, the names of the said bidders, and the amount bid by each respectively.

Respectfully submitted by

ANDREW MILLER,
ANDREW J. HOLMAN,
RICHARD PARKER.

APPENDIX No. 9.

COMMUNICATION FROM CITY SOLICITOR ON CITY RAILROAD TOLLS.

CITY SOLICITOR'S OFFICE, }
Philadelphia, May 28, 1856. }

To the Select and Common Councils of the City of Philadelphia:

GENTLEMEN:—I deem it my duty to call your attention to an Act of Assembly which has been recently passed in regard to the City Railroad, and which in my judgment materially affects the value of that improvement. It is entitled “An Act to provide for the ordinary expenses of government,” &c. and it received

the executive sanction on the 13th inst. The 41st section contains in substance, a proviso that from and after the 1st day of May, it shall not be lawful for the City of Philadelphia to charge and collect tolls on the City Railroad for any greater distance than that actually used, including the Bridge over the Schuylkill river at Market street. You are doubtless aware that by the Acts of Assembly of 2d of August, 1842, and 10th of April, 1849, and the Ordinance of 24th of November, 1842, in charging the tolls on this road, all distances under half a mile are directed to be computed as half a mile, and all distances over half a mile and under one mile to be computed as one mile, and the Bridge over the Schuylkill, owing to its greater cost, is by the same Acts considered as one mile of road. The effect of this new provision, if it can be enforced, will certainly be to diminish vastly the revenue of the road. Thus, for example, the Pennsylvania Railroad Company, from their depot at Market and Juniper streets, have heretofore paid toll on their freight for two miles, and their bill for the month of April last, was \$1,024 65. Under the new law they would pay on but one mile, which would diminish their bill for that period to \$512,32½. The same Company, in conjunction with Messrs. Bingham & Dock, have heretofore paid toll for their passengers on 2½ miles, and their bill for the month of April last, was \$267 37. Under the operation of the new law it would be \$138 69. So of other companies and firms. About half the revenue which the City has heretofore derived from the road will thus be destroyed at a blow. The amount of tolls received in 1855, was \$15,889 74, and the expenditures for iron, tools, spikes, wages of laborers, and superintendents' and watchmen's salaries, was \$7,310 41. If the half of the gross receipts should thus be cut off, the remaining half would scarcely pay the expenses of maintaining the road, not to mention the interest on the cost.

Under these circumstances it seems not a little surprising that so important a provision should have been thrust into the corner of an appropriation bill, and

that no notice of its intended passage should have been given to my predecessor in office, or so far as I know, to any other officer of the City government. Owing to the peculiar phraseology of this portion of the Act, there is a doubt when it should go into effect, and there is a question how far the Commonwealth can thus regulate the highways of a municipal corporation, and a still further question, how far the former can diminish or destroy the resources of a road previously constructed by her own authority. On these questions, I shall be pleased to express to Councils such views as I entertain, whenever they are ready to hear them. For the present, I have deemed it the duty of the Law Department simply to give this notice of a change in the law, to suggest its probable effects, and the propriety of such action on the subject as shall cause the Act of Assembly and the Ordinances to harmonize, or as shall bring the validity of the law to a proper test.

Very respectfully,

W. A. PORTER,
City Solicitor

A SUPPLEMENT

To the Common Council of the City of Philadelphia.

The Committee on City Property to whom was referred the Resolution from Select Council, "requiring the sale of certain real estate, which is directed to be made under an Ordinance, approved May 7, 1856, to take place under the supervision of the Committee on City Property, at such time and in such portions as they may direct," report the following bill, entitled "A supplement to an Ordinance to provide for the sale of certain Real Estate vested in the City of Philadelphia."

CONTROLLER'S OFFICE, }
Philadelphia, April 25, 1856, }

Having audited the accounts of George W. McMahan, Register of Water for the City of Philadelphia, I find by the returns filed in this department, that he has paid into the City Treasury, from January 1, 1855, to December 31, 1855, inclusive, \$381,410 17, while the registers and duplicates of water rents exhibits a total of receipts for the same period of \$381,259 60, thus showing an over payment by him of \$150 57, which amount is due him by the City of Philadelphia.

JOHN N. HENDERSON,
City Controller.

AN ORDINANCE

To provide for the payment of one hundred and fifty dollars and fifty-seven cents, to George W. McMahan, Register of Water for the City of Philadelphia.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain. That the sum of one hundred and fifty dollars and fifty-seven cents be, and the same is hereby appropriated to pay George W. McMahan, Register of Water for the City of Philadelphia, that amount having been overpaid by him into the Treasury of the City of Philadelphia on the Water Duplicate of 1855, as appears by the certificate of the City Controller.

SEC. 2. A warrant for the payment of the said appropriation shall be drawn by the City Treasurer in favor of the said George W. McMahan.

REPORT OF COMMITTEE ON SURVEYS AND REGULATIONS.

COMMITTEE ROOM, June 5th, 1856.

To the President and Members of the Common Council of the City of Philadelphia.

GENTLEMEN:—The Petition and Remonstrance of B. L. Langstroth, of the 22nd Ward, referred to the Committee on Surveys and Regulations, has received attention. The Committee beg leave to report:

That the revised plan of Green street has been reported to the Court, according to the provisions of the Supplement of the Consolidation Act, (Section 4,) approved April 21, 1855, and is out of the control of Councils in relation to the subject matter of this Petition.

GEORGE NORTHROP, *Chairman*.

APPENDIX No. 15.

REPORT OF COMMITTEE ON SURVEYS.

OFFICE OF CHIEF ENGINEER AND SURVEYOR. }
Philadelphia, February 28, 1856. }

SPENCER ROBERTS, Esq., *Chairman of Committee on Surveys.*

DEAR SIR:—The Board of Surveyors have passed a resolution recommending the construction of a 3 feet

culvert, connecting with the Reed street sewer at Third street, and extending up Third street to Washington, and up Washington street to Fourth—a distance of about 1670 feet—and ask that your Committee take the Ordinance in charge.

Very truly,

STRICKLAND KNEASS,
Chief Engineer and Surveyor.

To the Select and Common Councils of the City of Philadelphia.

GENTLEMEN:—Your Committee on Surveys and Regulations beg leave to offer the following Ordinance, entitled an “Ordinance for the construction of a certain Culvert,” and ask its adoption.

GEORGE NORTHROP, *Chairman.*
SAMUEL P. DUTTON,
CHARLES B. ROBERTS,
JOSEPH GEISS.

AN ORDINANCE

For the construction of a certain Culvert.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain. That the Department of Highways are hereby authorised and directed to construct a culvert in the Second Survey District, commencing at the corner of Washington street and Fourth, thence extending down Washington to Third street, down Third street to Reed, there connecting with the Reed street culvert, the said culvert to be constructed in accordance with levels and plans furnished by the Department of Surveys, and not to exceed an area of seven square feet.

APPENDIX No. 16.

REPORT OF CHIEF ENGINEER OF THE FIRE DEPARTMENT.

OFFICE OF THE CHIEF ENGINEER
OF THE FIRE DEPARTMENT. }

To the Select and Common Councils of the City of Philadelphia:

GENTLEMEN:—In presenting my third and fourth quarterly reports of the number of fires occurring, with the loss sustained, for the quarters ending on the thirty-first days of December and March, and the condition of the department, it will be seen that it exhibits a decrease in the number of fires and false alarms, and an increase in the losses sustained. The number of fires that have occurred in the two quarters is 115, the estimate loss on which is \$186,775, and the insurance \$76,768, leaving an uninsured loss of \$110,807. The decrease of fires as compared with the preceding quarters, is 3. The increase in total loss, \$135,859, and the increase in uninsured loss, \$88,979. Since my former report there have been added to the Department, the Good Intent, Mechanic, Southwark, Good Will, Weccacoe, Hibernia, and Assistance Engine Companies; and the South Penn, William Penn, United States, Niagara, Western, Good Will, Ringgold, Washington, and Union Hose Companies; an addition of a very efficient character. The department now consists of 38 Engine, 30 Hose, and 5 Hook and Ladder Companies, possessing 39 Engines, 60 Hose carriages, 6 Trucks, 53,880 feet of hose, and 828 feet of ladders. A house is now being erected for the Steam Fire Engine, Young America, at the North-east corner of Front and Noble streets, under the supervision of the Committee on Trusts and Fire Department; and when finished, the engine and tender will be removed from the tobacco warehouse and placed therein.

I again recommend that it be made the duty of the night police to give the alarm, and arouse all firemen who shall so request them, whenever an alarm of fire

shall occur during the night. I desire to again call attention to the 13th section of the Ordinance re-organizing the Fire Department, which provides that a large bell shall be erected in each Fire District; this has not been done in many of the Districts, and the firemen located in those vicinities are therefore without any proper means of alarm. I recommend Councils to have the bell which is in the steeple of the Spring Garden Hall rung for all fires, as a large number of firemen depend entirely on that bell to give them the alarm in time of fire.

The 24th section of the ordinance entitled An Ordinance Re-organizing the Fire Department, approved January 25th, 1855, made it the duty of the Secretary of each Fire Company in the city of Philadelphia, to furnish under oath to my Secretary, annually, in the month of January, a list of all the members, stating active, honorary, and contributing, with their age, residence and occupation, and in accordance with this section, I had a printed form sent to each company, with the request to furnish the list. This section appeared to be very objectionable to the Companies, and but few returns were made.

I recommended to Councils the repeal of this section, and petitions were sent from the firemen, asking for the same. With the expectation that the section would be repealed, and that the companies would send in their lists, so as to enable me to make a full report, I delayed my report from time to time. On March 5th, 1856, a Supplement to the Fire Ordinance was adopted, the 8th section of which repealed the objectionable part. I then again notified the Companies to report the list, as required by my Secretary, a large number of whom promptly replied, but a large number did not send in their report as required, although they were aware that I was delaying my report for that purpose; and now, after waiting for more than three months, I am compelled to report as follows. I have received a correct list from the following Companies as required by the Fire Ordinance:

Columbia, Columbia of Germantown, Diligent, Del-

aware, Decatur, Fairmount, Friendship, Franklin of Germantown, Franklin of Frankford, Good Intent of Roxborough, Liberty, Manayunk, Reliance, United States, Western, Washington of Frankford, Northern Liberty, Mechanic, Vigilant, and Humane, Engine Companies.

America, Fairmount, Germantown, Marion, Neptune, Pennsylvania, Perseverance, Robert Morris, Southwark, Schuylkill, Shiffler Vigilant, Warren, Phoenix, and United, Hose Companies. Empire, Mantua, Protection, and Rescue, Hook and Ladder Companies.

The following Companies have not sent in the lists as required by the Fire Ordinances :

America, Franklin, Fellowship, Globe, Hope, Hand-in-Hand, Independence, Monroe, Philadelphia, Washington of Germantown, Wissahickon of Germantown, and Spring Garden, Engine Companies.

Franklin, Nicetown, Philadelphia, Taylor, Humane, and Tivoli Hose Companies; and Excelsior Hook and Ladder Company.

I am, very respectfully yours,

B. A. SHOEMAKER,

Chief Engineer.

APPENDIX No. 17.

REPORT OF COMMITTEE ON TRUSTS AND FIRE DEPARTMENT.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Trusts and Fire Department report, That they have had under consideration an Ordinance supplementary to an Ordinance entitled “An Ordinance providing for the care and management of the Steam Fire Engine, Young America,” approved May 8th, 1856, passed by Select Council on the 5th of June, and ask its adoption by this Chamber.

They have also had under consideration an application from the Hibernia Hose Company, asking to be admitted into the Fire Department, and report adverse to the application.

Also petitions from several Fire Companies, asking that Fire Alarm Signal Boxes be placed in their houses, which the Committee, in view of the financial condition of the City, do not feel justified in recommending, although they are of the opinion that they would add greatly to the usefulness of the Fire Department; they would offer the following Resolution, and ask its adoption.

Resolved, That the Chief Engineer of the Fire Department be directed to have the State House and District bells rang in case of fire, so as to designate the signal box from which the alarm is received.

The Committee have also considered the Communication of the Chief Engineer of the Fire Department, reporting several Fire Companies for a violation of the Ordinance regulating the Department, by allowing their apparatus to be taken out of the Districts prescribed in said Ordinance, and as this is the first case of a violation that has been reported, and your Committee are led to believe that in several instances the apparatus have been taken out in opposition to the rules of the Companies; they would therefore offer the following Resolution, and ask its adoption, with the understanding that any Company who may here-

after be found guilty of a similar violation, will be either suspended or disbanded.

Resolved, That the America, Western, Good Will, and Reliance Engine Companies, and the Fairmount, Ringgold, Philadelphia, and Humane Hose Companies, receive the censure of Councils for going out of their respective Districts, in violation of the Ordinance for the regulation of the Fire Department.

The Committee have had referred to them a Communication from the Southwark Hose Company, located in the market at Second and South streets, asking that their house be repaired, which should have been referred to the Committee on Markets, and which is returned for that purpose.

Very respectfully,

W. S. WINSHIP, *Chairman*.

AN ORDINANCE

Supplementary to an Ordinance entitled "An Ordinance providing for the care and management of the Steam Fire Engine, Young America," approved May 5th, 1856.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That there shall be one Engineer appointed by the Chief Engineer of the Fire Department, whose duty it shall be to keep the Steam Engine, "Young America," in proper working order, and shall have the care and management of the said Steam Engine (under the direction of the Chief Engineer) in time of fire. He shall receive an annual salary of six hundred dollars.

SEC. 2. That so much of the Ordinance to which this is a Supplement, as authorizes the appointment of an Assistant Engineer be, and the same is hereby repealed.

APPENDIX No 18.

REPORT OF THE COMMITTEE ON SCHOOLS.

COMMITTEE ROOM, }
June 11th, 1856. }

To the Select and Common Councils of the City of Philadelphia:

The Committee on Schools to whom was referred the Communication from the Board of Controllors of Public Schools, asking for an appropriation of \$15,987, to make up the sum requisite to pay the salaries of the Teachers for the present year, respectfully report, that they think Councils ought to make the appropriation.

Admitting that a reduction in the salaries of the Teachers would be a politic measure, it could not be done for the year already commenced, and as the estimates of the Board of Controllors are based upon the contracts already made with Teachers, and the sum asked for being only the sum of these contracts, to withhold the appropriation; under these circumstances, could secure no reduction in the amount, and would result in embarrassing the Board in its disbursements.

The Committee therefore submit the accompanying Ordinance, and ask for its adoption.

THOMAS POTTER, *Chairman*.
JOSHUA T. OWEN,
M. C. BROWN,
JOHN ALEXANDER,
EDWIN BOOTH,
HENRY T. KING.

AN ORDINANCE

To make an appropriation to the Controllors of Public Schools of the first School District of Pennsylvania, for the purpose of paying the Salaries of the Teachers of the Public Schools of said District, for the year 1856.

SECTION 1. The Select and Common Councils of

the City of Philadelphia do ordain, That the sum of fifteen thousand nine hundred and eighty-seven dollars be, and the same is hereby appropriated to the Controllors of Public Schools of the First School District of Pennsylvania, for the purpose of paying the salaries of the Teachers of the Public Schools of said District for the year 1856, (said sum to be in addition to any sum that may have been appropriated for the purpose aforesaid,) and the sum so appropriated to be applied in payment of obligations incurred, and to be incurred for the said purpose, and no other.

SEC. 2. Warrants for the payment of said appropriation shall be drawn in the manner and form, and with the requisites set forth in the Second and Third Sections of an Ordinance approved September 20th, 1851, entitled "An Ordinance to make an appropriation to the Controllors of Public Schools, of the First School District of Pennsylvania."

APPENDIX No. 19.

REPORT OF COMMITTEE ON SURVEYS AND REGULATIONS.

To the Common Council of the City of Philadelphia.

The Committee on Surveys and Regulations respectfully report, That they have considered "An Ordinance to provide for the Re-Surveying and Regulating part of the Twenty-first Ward," referred to them and hereto annexed, and report the following Resolution, and ask its adoption.

RESOLUTION.

Resolved, That the Department of Surveys be hereby authorized and directed to prepare a revised plan of the regulation and grades of so much of the Twenty-first Ward as is embraced in the late Borough of

Manayunk, extending the same north-eastward to the Ridge Road or Avenue, and secure the proper lines of the streets by permanent landmarks.

APPENDIX No. 20.

REPORT OF COMMITTEE ON SURVEYS AND REGULATIONS.

To the Common Council of the City of Philadelphia.

The Committee on Surveys and Regulations respectfully report, That they have considered the annexed petition, asking for a general survey of parts of the Twenty-second Ward, and present the following Resolution.

RESOLUTION.

Resolved, That the Department of Surveys be hereby authorized and directed to prepare sectional plans of such parts of the Twenty-second Ward as are not included in Resolutions or Ordinances now in force, and that proper landmarks be permanently fixed, and that such grade regulations be established therein as the necessities of the City shall require.

GEO. NORTHROP, *Chairman*.
CHARLES B. ROBERTS,
SAMUEL P. DUTTON.
SPENCER ROBERTS.

PETITION.

To the President and Members of Common Councils of the City of Philadelphia.

The subscribers, citizens of the Twenty-second Ward, do earnestly pray that your Honorable Body

may authorize a general survey to be made of the upper part of the said Ward, the streets to be located and named, and the grade to be fixed by law.

They do not ask that the streets be opened, but simply that they may be laid out, and a plan of the same be recorded, so as to restrain parties from opening such streets and alleys as interfere with public convenience and the rights of property. As at present managed, much future trouble and expense must ensue.

And they will ever pray, &c.,

REPORT OF THE COMMITTEE ON RE-ORGANIZATION OF THE DEPARTMENTS.

To the Common Council of the City of Philadelphia.

The Committee on Re-Organization of the Departments, respectfully report, That in pursuance of their duties they have had under consideration the Re-Organization of the Water Department, and being of opinion that the number of officers therein may be

safely diminished, they offer the accompanying Ordinance, making a reduction, and ask its adoption.

A SUPPLEMENT

To an Ordinance "Organizing the Department for supplying the City with Water," approved October 4th, 1854.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That in lieu of the Registers, Clerks and Inspectors, provided for by the Ordinance to which this is a Supplement, there shall be hereafter but one General Clerk, and one Permit Clerk.

SEC. 2. The General Clerk shall perform all such duties as in said Ordinance are directed to be performed by the Register and General Clerk, except the receiving of water rents; he shall receive all fees for the issuing of Permits, and shall make return in writing, under oath or affirmation, to the Controller, of the amount collected, and pay the same to the Receiver of Taxes, weekly. He shall prepare duplicates of the water rents for each Ward, and shall have them completed and placed in the hands of the Receiver of Taxes, on or before the first day of January of each year. He shall give bonds, with two or more securities, in the sum of two thousand dollars, for the faithful performance of his duties, said security to be approved by Councils.

SEC. 3. The Receiver of Taxes shall take charge of the duplicates of water rent, and attend to the collection of the same in conformity with existing Ordinances at the same time and in the same manner as the taxes are collected; he shall daily render an account thereof to the Controller, and daily pay over the amount collected to the City Treasurer, in manner

as provided for in relation to all taxes received by him.

SEC. 4. The Permit Clerk shall attend at the office, issue all Permits, under the supervision of the General Clerk, and perform such other duties as may be directed by the Chief Engineer or General Clerk.

SEC. 5. All the duties in said Ordinance required to be performed by the Inspectors, shall hereafter be performed by the Purveyors.

SEC. 6. That so much of any Ordinance or Ordinances as is hereby altered or supplied by the provisions of this Ordinance, be and the same is hereby repealed.

APPENDIX No. 22.

AN ORDINANCE

Repealing so much of an Ordinance, approved March 1st, 1856, as relates to the running at large of Cows and Sheep in the 24th Ward.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That so much of the Ordinance approved March 1st, 1856, relating to horses, cows, sheep, goats, and other animals running at large, be and the same is hereby repealed, so far as it relates to cows and sheep in the Twenty-Fourth Ward.

To the Common Council of the City of Philadelphia.

The Committee on Highways to whom the above Ordinance was referred, have had the same under

consideration, and respectfully report it back with a negative recommendation.

REPORT OF THE COMMITTEE ON MARKETS.

To the Common Council of the City of Philadelphia.

The Committee on Markets to whom was referred a Supplement to an Ordinance establishing the Department of Market Houses, approved October 19th, 1854, report back the same as committed, with the following Resolution.

Resolved, That Common Council be recommended to pass the Ordinance as above reported.

NICHOLAS BROUS, *Chairman*.
CHARLES VANHORN,
JOHN F. MASCHER,
DOMINICK MURPHY.

A SUPPLEMENT

To an Ordinance establishing the Department of Market Houses, approved October 19th, 1854.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That from and after the first day of July next, the duties now performed by the Clerk of Wharton and Washington Markets, shall cease and determine, and the Clerk of the Second Street Market, in the Fifth Ward, shall perform all the

duties required by the said Clerk of Wharton and Washington Markets. The duties now performed by the Clerk of the Callowhill Street Market shall cease and determine as aforesaid, and the duties required to be performed by said Clerk shall be performed by the Clerk of Spring Garden Market. The duties now performed by the Clerk of Girard Avenue Market shall, in like manner, cease and determine, and the duties required to be performed by said Clerk, shall be performed by the Clerk of Franklin Avenue Market, Sixteenth and Seventeenth Wards.

SEC. 2. That so much of any Ordinance or Ordinances as is inconsistent herewith, be and the same is hereby repealed.

APPENDIX No. 24.

REPORT OF THE COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance to whom was referred the claims of certain persons for Road Damages, beg leave to submit the following accompanying Ordinance, and ask its adoption.

CHARLES V. HAGNER, *Chairman*.
THOMAS CRAVEN,
JOSHUA T. OWEN,
ABM. BAKER,

June 19, 1856.

AN ORDINANCE

To make an appropriation to the Department of Highways, &c. to pay certain Road Damages, in Certificates of City Debt.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the sum of

two thousand dollars be, and the same is hereby appropriated to the Department of Highways, Bridges, Sewers, and Cleansing the City, for the purpose of paying in manner hereinafter mentioned, the amount assessed as damages for injury sustained by the following named persons, by the opening of streets, that is to say;—

To Ferdinand J. Dreer, one thousand dollars.

To Matthew Newkirk, one thousand dollars; the said amounts being assessed for damages by the opening of Girard Avenue, east of the Schuylkill river.

SEC. 2. Warrants for the payment of the said appropriation shall be drawn by the Chief Commissioner of Highways; and the same shall be paid in certificates of City debt; *Provided*, no Warrant shall issue until the usual certificate shall be produced from the Court of Quarter Sessions, that the damages aforesaid have been assessed by a jury, and their report been confirmed absolutely, nor until the City Solicitor certifies that there are no liens against the property for injury to which the said damages have been awarded.

SEC. 3. Upon the delivery of any such Warrants, countersigned by the Controller, to the City Treasurer, the said Treasurer shall deliver to the person in whose favor the same is drawn, or to his order, Certificates of City debt to the amount expressed in such Warrant, which Certificates shall be such as are provided for and described in an Ordinance approved August 23d, 1855, entitled “An Ordinance to provide for the issue of Certificates of debt in payment of Road damages, and to pay the contract price of the Fire Alarm and Police Telegraph,” and the said Certificates shall be a portion of those thereby authorized to be issued.

APPENDIX No. 25.

REPORT OF THE COMMITTEE ON HIGHWAYS.

Bodine; fifty dollars to the said Conrad Fries; seventy-two dollars and seventy-two cents to the said David Ellis; fifty-one dollars and twenty-eight cents to the said George H. Hart; fifty dollars to the said William C. Evans; fifty dollars to the said Clement M. Husbands; fifty dollars to the said Richard Wistar, and the balance of the said appropriation in certificates of city debt; and the warrants to be drawn as aforesaid, shall express how much of the amount for which they are drawn are payable in money and how much in said certificates: *Provided*, no warrant shall issue until the usual certificate shall be produced from the Court of Quarter Sessions, that the damages aforesaid have been assessed by a jury, and their report confirmed absolutely, nor until the City Solicitor shall certify that there are no liens against the property for injury to which the said damages have been awarded.

SEC. 3. When the delivery of any such warrants, countersigned by the Controller, to the City Treasurer, as specifies that the payment of the amount therein mentioned is to be made in certificates of City debt, the said Treasurer shall deliver to the person in whose favor the same is drawn, or to his order, certificates of City debt to the amount expressed in such warrant, which certificates shall be such as are provided for and

described in an Ordinance, approved August 23. 1855, entitled "An Ordinance to provide for the issue of certificates of debt in payment of road damages, and to pay the contract price of the Fire Alarm and Police Telegraph," and the said certificates shall be a portion of those authorized to be issued by the said Ordinance.

APPENDIX No. 26.

COMMUNICATION FROM CITY SOLICITOR.

CITY SOLICITOR'S OFFICE,
Philadelphia, June 18, 1856. }

To the Select and Common Councils of the City of Philadelphia:

GENTLEMEN :—A decision has recently been made by the Supreme Court at Harrisburg, in the case of the Commonwealth against the City of Philadelphia, which requires the attention of Councils. The case arose thus: By the Act of 29th of April, 1844, all the public loans and stocks, except those created by the Commonwealth, were made liable to the payment of a State tax of three mills on every dollar of the value thereof, and it was rendered the duty of the Treasurer of each county, city, district, and borough, on the payment of any dividend or interest on the said loans, to deduct the tax and pay it to the Treasurer of the Commonwealth. From 1845 to 1854, the Treasurer of the Guardians of the Poor of Philadelphia deducted the tax from the interest paid on the loans created by that corporation, and the corporation declined to pay it over to the State Treasurer, under a doubt which existed in regard to the construction of the Act of 1844.

The whole amount retained by the Treasurer of the Guardians, was \$18,286 38, and by the Act of Con-

solidation, all the estate and property of the Guardians (including this sum or the balances thereof,) was vested in the City of Philadelphia. On the 26th of February, 1856, the Court of Nisi Prius gave judgment against the City, for the sum in question, and this judgment has been affirmed by the Court in Banc. The case was conducted by my predecessor, and I gather these facts from the records. I bring the subject to the notice of Councils, because the Attorney General of the Commonwealth has notified me in writing, that payment of the amount is required to be made, and that some action on the part of Councils is therefore necessary.

WM. A. PORTER,
City Solicitor.

COMMUNICATION FROM CITY SOLICITOR.

CITY SOLICITOR'S OFFICE, }
Philadelphia, June 17th, 1856. }

To the Select and Common Councils of the City of Philadelphia:

GENTLEMEN:—On procuring a copy of the Resolution adopted at your last meeting, requesting me to communicate to your Body, “by what authority, if any, the City Commissioners can release property from taxation, without authority from Councils,” I made an examination of the several Acts of Assembly on the subject, from the Act of April 15th, 1834, to that of May 13th, 1856, including the Acts of 1843 and 1854, and I am of opinion that it was the intention of the Legislature, that the Board of Revision, created by the 13th Section of the Act of February 2d, 1854, and composed of the Receiver of Taxes, the City Treasurer and the City Commissioner, should

take the place of the City Commissioners in all proceedings relating to the abatement or release of taxes, and consequently that the City Commissioners alone have no authority to release property from taxation.

Very respectfully,

W. A. PORTER,
City Solicitor.

APPENDIX No. 28.

REPORT OF THE COMMITTEE ON FINANCE AUTHORIZING THE SALE OF CERTAIN YEARLY GROUND RENTS.

To the Select and Common Councils of the City of Philadelphia :

The Committee on Finance to whom was referred the petition of Anthony P. Morris, Oliver Evans, and others, asking for the extinguishment of certain ground rents, report the following Ordinance, and recommend its adoption.

CHARLES V. HAGNER, *Chairman.*
THOMAS CRAVEN,
JOHN K. FINDLAY,
ABM. BAKER,

June 19, 1856.

AN ORDINANCE

To authorize the sale of two certain yearly ground rent charges.

Whereas, The City of Philadelphia now holds in trust, two certain yearly rent charges, to wit: one of them being a yearly rent charge of one pound ten shillings, payable out of a lot of ground situate on the north side of Arch street, east of Fifteenth street, in the said city, and the other of them being a yearly rent charge of two pounds fifteen shillings, payable

out of a lot of ground on the north side of Carter's Alley, in the rear of No. 62 South Second street, in said city: and whereas, said rent charges are small and difficult to collect, and the said city has been offered for them a price which will yield to the said city a larger nett interest or income than said rent charges produce.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the City Solicitor be, and he hereby is authorized to take such measures as he may deem necessary, either by application to Court, or by procuring the passage of an Act of Assembly, to enable the said city to sell and convey, or release and extinguish the said two rent charges. *Provided*, That the proceeds of said sale or extinguishment shall be invested and applied by the City Treasurer to the same uses, intents and purposes for which the said rent charges are now held. And provided further, that the parties purchasing the same shall respectively and proportionally, pay all costs and expenses of said application to Court, or of said Act of Assembly, and also the cost of publishing this Ordinance.

SEC. 2. Warrants for the payment of said appropriation shall be drawn by the City Treasurer.

APPENDIX No. 31.

REPORT OF COMMITTEE ON HIGHWAYS.

The Committee on Highways have had under consideration the petition from owners of property on Thirty-Fifth street, in the 24th Ward, asking that the same may be paved, and submit the following Resolution, and recommend its adoption.

ANDREW MILLER, *Chairman*.

JOHN M. FORD,

ALFRED CREASE,

J. G. SORVER,

THOMAS S. ROBERTS.

THOMAS POTTER.

June 23d, 1856.

Resolved, That the owners of property on Thirty-Fifth street, from Lancaster Avenue to Bridge street, in the Twenty-Fourth Ward, be and they are hereby authorized to grade and pave the same. *Provided*, the same be done under the supervision of the Department of Highways, and that the city shall be at no expense for either grading or paving, except for the paving of the intersections of streets.

APPENDIX No. 32.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways have had under consideration the petition of owners of property in Nineteenth street between South and Shippen streets, First Ward, asking that the same may be paved, and report the annexed Resolution, and ask that the same may be adopted.

ANDREW MILLER, *Chairman.*
 JOHN M. FORD,
 THOMAS POTTER,
 J. G. SORVER,
 ALFRED CREASE,
 THOMAS J. ROBERTS.

Resolved, That the owners of property on Nineteenth street between South and Shippen, in the First Ward, be authorized to pave the same, under the supervision of the Department of Highways; *Provided,* That the City shall be at no expense for the said paving, except for the intersections; and provided that the water pipe be first laid therein; and provided further that the property owners obligate themselves to keep the said paved street in repair for the period of one year from the completion of the work.

APPENDIX No 33.

REPORT OF COMMITTEE ON PRISONS.

To the Common Council of the City of Philadelphia.

The Committee to whom was referred the memorial and certain bills for salaries, board, fuel, &c. from Mr. Wm. Saffin, Keeper of the Debtors' apartment of the County Prison, beg leave to make the following re-

port, with an ordinance annexed, and ask its adoption :

First. They find that the Ordinance approved March 11, 1856, making an appropriation to the Inspectors of the Prison for the current year, makes no provision whatever for the expenses of the Debtors' apartment; the item for this department in the appropriation bill, as reported by the Finance Committee, having been stricken out by the Select Council. (See pp. 298, 313 and Appendix No. 95, vol. iv. Journal of Common Council, and p. 178, Journal of Select Council.) The expenses in the meantime continuing, it is not to be wondered at that bills to the amount of \$784 33 should be due at this time.

Second. They find, from personal observation, that the building of this department is, for the want of small but timely repairs, in a deplorably dilapidated condition; and they deem it economy to appropriate the small amount asked for repairs, as it will preserve from entire destruction a very valuable public building. And they likewise deem it economy to introduce the gas, as asked for in the memorial. The latter is already introduced into the prison proper, and considering the proximity of the one department to the other, it is difficult to perceive why it was not simultaneously introduced into both departments.

Respectfully submitted,

JOHN F. MASCHER, *Chairman.*
SAMUEL LINDSAY,
JOHN G. SNYDER,
JOHN BROMLEY,
WM. BRADFORD,
JACOB C. RIDGWAY.

AN ORDINANCE

To make an appropriation for the use of the Debtors' Apartment of the County Prison.

SECTION 1 The Select and Common Councils of the City of Philadelphia do ordain, That the sum of two thousand dollars be, and the same is hereby appropri-

ated to the keeper of the debtors' apartment of the County Prison, for the payment of expenses incurred and to be incurred by him for the following purposes, during the year 1856.

Salary of Keeper of Debtors' apartment,	-	\$700 00
Fuel	- - - - -	300 00
Supplies for subsistence of prisoners,	- -	500 00
Repairs to the building,	- - - -	300 00
Introducing gas,	- - - - -	100 00
Incidental expenses,	- - - - -	100 00

SEC. 2. Warrants for the payment of said appropriations, shall be drawn by the Keeper of the Debtors' apartment, and approved and countersigned by the City Controller.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Select and Common Councils of the City of Philadelphia :

The Committee on Highways, &c. have had under consideration the annexed Ordinance, to pay to Thomas Gogerty the balance due to him for building the

Thompson street culvert, and have approved the same and recommend its adoption.

ANDREW MILLER, *Chairman*,
 THOMAS POTTER,
 THOMAS J. ROBERTS,
 J. G. SORVER,
 WILLIAM ELLIOTT.

AN ORDINANCE

To provide for the payment of the balance due for the building of a Culvert in Thompson street.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the Department of Highways, Bridges, Sewers, and Cleansing the City, be authorized and directed to pay to Thomas Gogerty, the sum of three thousand and eighty-two dollars and sixty-nine cents, in full, for balance due to him on his contract for building a culvert in Thompson street from Sixth to Broad street.

SEC. 2. That said sum shall be paid out of the appropriation made to said department for "Repairs to Culverts and Inlets," by Ordinance, approved March 28th, 1856, entitled "An Ordinance to make an appropriation to the Department of Highways, Bridges, Sewers and cleansing the City, for the service of the year 1856, and to pay certain claims against the department, originating in the year 1855, and previous."

APPENDIX No. 39.

REPORT OF COMMITTEE ON WATER.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Watering Committee to whom was referred the communication of H. Cowperthwait,

asking to have refunded to him \$267 20, in consequence of the destruction by fire of the Artisan Buildings, owned by him, respectfully report, That after a careful examination, they find that claims of this description have been uniformly rejected by Councils. The loss by fire is one of those contingencies to which owners of property are liable, and the supply of hydrant water is a convenience which it is presumed they are willing to take with that risk, and if, because of the accident, they do not need the full supply for the remainder of the year, a deduction were allowed, the conclusion would be irresistible in favor of claims frequently made, as to manufactories which have ceased to operate, or dwellings which have become tenantless. The propriety of refunding being conceded, Councils would be called upon to reconsider claims heretofore disposed of, and grant allowances, amidst doubts and difficulties interminable, as to evidence in relation to them.

Your Committee, after mature deliberation, deem it inexpedient to depart in this case from the rules and practice by which they have been governed in similar cases, and they therefore offer the following Resolution,

Resolved, That the Committee be discharged from the further consideration of the subject.

D. S. HASSINGER, *Chairman*,
 JOS. P. FITLER,
 WM. HORROCKS,
 B. F. WRIGHT,
 ANDREW J. HOLMAN,
 CHARLES E. LEX,

July 3, 1856.

To the Select and Common Councils of the City of Philadelphia:

The undersigned respectfully asks to have refunded a proportionate amount of water rent paid by him, in advance, on his property known as the "Artisan Buildings," situate on the square between Market and

Chesnut, and Fifth and Sixth streets, which were totally destroyed by fire on the night of the 10th and morning of the 11th of April last.

The amount of rent paid for water, for the			
year 1856, in advance, was	-	-	\$370 00
Of which $3\frac{1}{3}$ months had expired, -	-	-	102 78

Balance,	-	-	-	-	-	\$267 22
----------	---	---	---	---	---	----------

No use of the steam engine (also destroyed,) or of the premises, will be made during the remainder of the year, and consequently this amount is overpaid for water not used, and should be refunded, which Councils are respectfully requested to have done.

H. COWPERTHWAIT.

May 26, 1856.

APPENDIX No. 40.

REPORT OF THE COMMITTEE ON WATER.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Water to whom was referred the following Resolution, viz:—

Resolved, That the Police officers be directed to open, or cause to be opened the fire plugs, in the paved portion of the City every day, (Sundays excepted,) between the hours of $6\frac{1}{2}$ and $7\frac{1}{2}$ o'clock, during the months of June, July, August and September, for the purpose of cleansing the streets and gutters, respectfully beg leave to report adverse to the passage of the same, for the following reasons:—

Firstly. They do not consider the police officers the proper persons to be entrusted with the duty of cleansing the streets, which duty they cannot believe it policy to put in the charge of any other than individuals specially appointed as street cleaners, who should be provided with brooms, scrapers, and hose.

the latter being the only means by which streets and alleys, (not accessible by other means to the water from the plugs,) can be properly cleaned.

Secondly, The resolution contemplates the opening of all the plugs throughout the City, at one hour of the day, which would, if carried out, result in depriving our citizens, almost entirely of water in their dwellings at that time, producing serious inconvenience and danger.

Thirdly. Because it would be impossible to supply water for such indiscriminate use of the plugs, by any of the water works now used for supplying the City. Therefore the convenience of our citizens and the safety of their property would be put in jeopardy by a practice which your Committee believe would effect nothing useful, unless manual labor be used with the flow of water, and the plugs opened only by persons specially appointed as street cleaners, who should be required to adhere to a fixed system, in order that only a limited number of plugs should be opened at the same time. Your Committee strongly urge the necessity of economy in the use of the water.

All of which is respectfully submitted by

D. S. HASSINGER, *Chairman*.

REPORT OF COMMITTEE ON LAW.

To the Select and Common Councils of the City of Philadelphia.

The Committee on Law respectfully report, that amongst the unfinished items remaining in charge of

their predecessors, was the claim of Henry Grout, Esq. for certain professional services rendered by him to the late District of Penn, as also the claim of Frederick W. Brightly, Esq. for professional services rendered to the District of the Northern Liberties and Spring Garden, relative to the opening of Girard Avenue. These claims have been examined by the Committee, who are satisfied of their correctness; the claim of Mr. Grout having also been examined and approved by the Law Committee of 1855-56, as also the former City Solicitor, and its correctness certified by nearly all the Board of Commissioners of the District of Penn. They therefore report an Ordinance providing for the payment of \$650 to Henry T. Grout, Esq. and of \$100 to Frederick C. Brightly, for the services rendered.

June 3, 1856.

AN ORDINANCE

To provide for the payment of the claims of Frederick C. Brightly and Henry T. Grout.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the sum of seven hundred and fifty dollars be appropriated to pay the following claims, to wit:—To Frederick C. Brightly, for professional services rendered to the late Districts of Spring Garden and the Northern Liberties, to enable said Districts to increase the supply of water, the sum of one hundred dollars. To Henry T. Grout, for professional services rendered by him to the late District of Penn, in various cases in the Supreme Court, District Court for the City and County of Philadelphia, and Court of Common Pleas, of said City and County, and for extra services rendered before the Committees of said District, to inquire into the purchase of oil and curb stone, the sum of six hundred and fifty dollars.

SEC. 2. Warrants for the payment of the above appropriation shall be drawn by the City Treasurer.

APPENDIX No. 43.

REPORT OF COMMITTEE OF PORT WARDENS, &c.

To the Common Council of the City of Philadelphia.

The Committee of Port Wardens, Public Wharves and Landings, submit the accompanying Ordinance, entitled an Ordinance to fix the Wharf line on the Delaware front of the City, and ask its adoption.

WM. M. BAIRD, *Chairman.*

ALEX. MARTIN,

JOHN M'MACKIN,

WILLIAM C. KELLY.

AN ORDINANCE

To fix the lines on the Delaware river, between Pike street on the North, and the Point-House wharf on the South, beyond which no wharf nor pier shall be constructed.

Whereas. By the Act of Legislature, passed January 31st, 1854, entitled a further supplement to an Act entitled an Act to incorporate the City of Philadelphia, it is made the duty of the Councils of Philadelphia to fix the lines beyond which no wharf or pier shall be constructed, &c. &c. ; now therefore,

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the easternmost line to which wharves may hereafter be constructed into the Delaware river, fronting the said City, between the north line of Lennig's wharf, extended at Frankford Creek, and the north side of the Point-House wharf, shall be, and the same is hereby fixed and determined according to the description hereinafter set forth, and the plans deposited among the archives of the City, in the Department of Surveys, made under the authority of the Select and Common Councils of said City, and under the direction of the

Head of the Department of Surveys, which are made a part of this Ordinance, one copy of which plans shall be made out and deposited in the Office of the Board of Port Wardens, and the said wharf line shall henceforth conform in all respects to the figures on said plan and the following description, to wit:

Beginning at the north-east corner of Lennig's wharf, at mouth of Frankford Creek, thence to the north side of Locust street nine hundred feet from the east side of Garden street; thence to the south line of the third main street above Juniatta street nine hundred and twenty feet east of the west side of Carbon street; thence to the north side of the first main street above Juniatta street sixteen hundred and eighty-five feet east of the west side of Carbon street; thence to the north side of Juniatta street, nineteen hundred and seventy-five feet east of the west side of Carbon street; thence to the north side of a street three hundred and thirty feet north of Luzerne street, two thousand and fifty feet east of the west side of Carbon street; thence to the north line of Pike street six hundred and seventy feet east of the west side of Delaware avenue; thence to the north side of Erie Avenue seven hundred and eighty feet east of the west side of Delaware Avenue; thence to the north side of Tioga street eight hundred and thirty feet east of the west side of Delaware Avenue; thence to north side of Westmoreland street seven hundred and eighty feet east of west side of Delaware Avenue; thence to the north side of Ann street ten hundred and thirty feet east of the west side of Delaware Avenue; thence to the south side of Cumberland street four hundred and fifteen feet east of the west side of Delaware Avenue; thence to the south side of Shackamaxon street three hundred and sixty feet east of the west side of Delaware Avenue; thence to the north side of Coates street five hundred and seventy feet east of the west side of Delaware Avenue; thence to the south side of Vine street three hundred and five feet east of the west side of Delaware Avenue; thence to the north side of Arch street two hundred and forty-five

feet east of the west side of Delaware Avenue; thence to the north side of Chesnut street two hundred and twenty feet east of the west side of Delaware Avenue; thence to the north side of Walnut street two hundred and ten feet east of the west side of Delaware Avenue; thence to the north side of Spruce street two hundred and sixty-five feet east of the west side of Delaware Avenue; thence to a point one hundred and eighteen feet north of the north line of Lombard street, two hundred and eighty-two feet east of the west side of Delaware Avenue, in line with the south side of Burton's wharf; thence to the north side of Prime street five hundred and ten feet east of the west side of Wharf street; thence to the north side of Moore street five hundred and ninety-six feet east of the east side of Wharf street; thence to the north side of Porter street twenty-five hundred and sixty feet east of east side of East street; thence to the south side of Pollock street thirty-two hundred and seventy-four feet east of the east side of East street; thence to the north side of Point-House wharf, in line with north side, ninety feet east of the north-east corner of wharf, as the same is set forth on said plans.

SEC. 2. That if any person or persons, after the publication of this Ordinance shall erect or extend any wharf or building in the nature of a wharf, into the tideway of the river Delaware, contrary to the provisions of this Ordinance, he, she or they, so offending, shall upon conviction thereof, before the Court of Quarter Sessions of the City of Philadelphia, forfeit and pay the sum of four thousand dollars, to the use of the City of Philadelphia, to be recovered in the same manner as other fines and forfeitures are recoverable by law, and the Board of Wardens may, upon the conviction of the offender as aforesaid, cause the said wharf or other building in the nature of a wharf, to be removed or abated, and if the expense of said removal or abatement exceed the fine and forfeiture affixed by the Court, the excess shall be recovered in a civil suit against the offender before the District Court of the City of Philadelphia.

SEC. 3. It shall not be lawful to extend any wharf now built, or construct any new wharf, except in accordance with the following provisions, viz :

Each and every wharf shall, when extended to or near to the wharf line hereby established, consist of a solid pier not less than forty feet in length towards shore, the residue to head of dock, or to within such distance of low water mark, as shall command ten feet of water at low tide, to be supported on piles extending to the elevation of low water, upon which shall rest the crib of the wharf; said piles to be driven not less than four feet from centre to centre, and in line at right angles with the line of side of wharf, said piles to be not less than twelve inches diameter at head, and to be made of white oak, *Provided*, The character of the bottom shall not preclude the safe use of piles, to be determined by the Board of Port Wardens, in which case, a sluice or sluice-ways shall be left in such position or positions and bridged over at the elevation of two feet above low water, as the Board of Port Wardens shall direct; and further *Provided*, That all wharves constructed between Vine and South street shall conform to the provisions as set forth in the Will of Stephen Girard.

SEC. 4. Prior to the commencement of any wharf, the correct lines shall be furnished by the District Surveyor, who shall be entitled to a fee, in advance, of two dollars for each and every ten feet width of wharf, and who shall prepare a minute and detailed plan of the location of said wharf, for the owner thereof, and shall deposit a duplicate thereof in the Department of Surveys, and on application to the Board of Port Wardens for a permit for the construction or extension of a wharf, a minute and detailed plan of survey of said wharf shall be furnished the said Board, to be filed in their Office, and no new wharf shall be erected on the Delaware front that shall not have clear dock room on each side appertaining to such particular wharf, of forty feet in width.

REPORT OF COMMITTEE ON PORT WARDENS.

To the Common Council of the City of Philadelphia.

The Committee on Port Wardens, Public Wharves and Landings, respectfully submit the accompanying Ordinance, entitled "An Ordinance to provide for the cleaning of the docks on the Delaware and Schuylkill fronts of the City," and ask its adoption.

ALEX. MARTIN,

AN ORDINANCE

To provide for the cleaning of the docks on the Delaware and Schuylkill fronts of the City of Philadelphia.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That whenever any dock on the Delaware or Schuylkill front of the City of Philadelphia requires cleaning, it shall be the duty of the Superintendent of Wharves and Landings, to require the owners of wharves and piers, which may surround such dock, to cleanse the same to a depth of not less than four feet of the water in the head of dock, and after thirty days default from the service of notice on them to perform said duty, it shall be lawful for the said Superintendent of Wharves and Landings, or the proper officer having supervision of the same, to do said work, and the expenses thereof shall be apportioned among the said owners of said adjoining wharves and piers having the privilege or use of said dock, and if not paid by said owners, the same shall be collected by filing lien therefore, and process thereupon, as in case of claim for paving. *Provided*, That no dock shall be cleaned to a greater depth than the natural bed of the river.

APPENDIX No. 45.

REPORT OF JOINT SPECIAL COMMITTEE ON APPLICATION OF
THE FRANKLIN INSTITUTE FOR USE OF SQUARE.

To the Select and Common Councils of the City of Philadelphia:

GENTLEMEN:—The undersigned Joint Special Committee to whom was referred the application of the Franklin Institute Committee, praying the use of a certain portion of the Franklin Square, for the purpose of holding their annual exhibition, respectfully report, That they have given the subject a full and careful consideration, and having visited the ground, and having examined as to the proposed plan of the temporary structure designed to be erected, together with the possibility of the same being placed in the centre of the Square as asked for, are of the opinion that the same can be done, under proper supervision, without injury to the surrounding trees, grass plots or improvements of any part of the Square; and inasmuch as the wide spread renown of the mechanical, artistical and manufacturing skill of the producers of Philadelphia, may in a great measure be attributed to the benevolent exertions and fostering care of the Franklin Institute, of Pennsylvania, it is as small a favor as the Councils of Philadelphia can do to grant their request.

Your Committee therefore offer the following Preamble and Resolutions, and respectfully ask that they may be adopted.

T. J. ROBERTS, *Chairman*,
R. McCay,
JOHN F. MASCHER,
T. M. CUYLER.

June 30, 1856.

Whereas, The Franklin Institute, of Pennsylvania, through their Committee, having applied for the temporary use of the centre portion of Franklin Square; and whereas the said Committee, on behalf of

the Institute have agreed to the following restrictions, viz:—

The grounds shall be surrendered and restored at the close of the Exhibition in perfect order, and free of any expense to the City. The centre portion, including the iron railing around the basin, shall be enclosed and planked over, at least four feet ten inches in height, with strong and substantial material. The grass shall be protected from injury by railings and board foot-ways, and no injury shall be done in the slightest degree to any of the trees or improvements, and the more fully to prevent and guard against accident, all such trees, &c. as the Committee of Councils may recommend, shall be enclosed with strong board cases. All goods and heavy articles shall be taken into and brought from the Square under such restrictions and in such manner as the Committee may from time to time direct; therefore,

Resolved, That the use of the centre portion of Franklin Square, included within the gravel walk and space occupied by the fountain, be granted to the Franklin Institute, of Pennsylvania, for the purpose of holding their Annual Exhibition, from the fifteenth of October to the twenty-fifth day of November, 1856, inclusive. Provided, That the Commissioner of City Property, if the Committee of Councils deem it advisable, shall demand satisfactory security for all damage or accident to the improvements in the Square.

Resolved, That the members of the Committees on City Property of the two branches of Councils, in conjunction with the Commissioner of City Property, shall take charge of and carry into effect the above Preamble and Resolutions, and such other regulations as they may deem necessary.

To the Select and Common Councils of the City of Philadelphia:

GENTLEMEN:—The Franklin Institute, of the State of Pennsylvania, for the promotion of the Mechanic

Arts, were obliged last year to forego their usual exhibition of American manufactures, for the reason that no suitable building could be obtained for the purpose ; the same obstacle exists this year, and the members of the Institute are convinced that the omission to hold an exhibition this fall must result in great injury to the interests of the mechanics and manufacturers of our City and State ; and indirectly affect, in a degree, the welfare of our City.

After diligent search, the Institute find it impossible to procure a suitable building of sufficiently large size, or a central location, on which to erect temporary conveniences ; they, therefore, in the name of the producing interest of our City, ask of Councils that they will grant to the Institute, for a part of the months of October and November next, the use of a portion of the centre of Franklin Square, on which they may erect such temporary accommodations as will suit the wants of an exhibition of the skill of our mechanics.

We assure you that not the least injury shall be done to any tree or improvement in the Square, and that in every respect the grounds shall be left in the same good order and condition as they now are ; and for the more fully securing that result, the Institute request that you will appoint a joint Committee from your body, under whose supervision their action in the matter may be controlled. They also further ask that you will allow the Committee on Exhibitions of the Institute to meet any Committee to whom this petition may be referred, to make further explanations of our wishes.

Very respectfully

Your ob't servant,

JOHN E. ADDICKS, *Chairman.*

Philadelphia, June 19th, 1856.

AN ORDINANCE.

Regulating the election of Officers and Agents, by the Select and Common Councils.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That from and after the passage of this Ordinance, all elections for officers and agents by the Select and Common Councils of the City of Philadelphia, separately or jointly, shall be *viva voce*; and that so much of any Ordinance as is inconsistent herewith be, and the same is hereby repealed.

APPENDIX No 49.

AN ORDINANCE

To make an appropriation to pay William M. Evans, Road Damages in
Certificates of City Debt.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the sum of seven thousand five hundred dollars be, and the same is hereby appropriated to the Department of Highways, for the purpos of paying William M. Evans the amount assessed, as damages for injury sustained by him in the opening of Thirty-second street, in the Twenty-fourth Ward.

SEC. 2. Warrants for the payment of said appropriation shall be drawn by the Chief Commissioner of Highways, whenever a certificate shall be produced from the Court of Quarter Sessions that the damages aforesaid have been assessed by a jury, and their report been confirmed absolutely; nor until the City Solicitor certifies that there are no liens against the property for injury to which the said damages have been awarded.

SEC. 3. Upon the delivery of said warrants, countersigned by the Controller, to the City Treasurer, the said Treasurer shall deliver to the person in whose favor the same is drawn, or to his order, certificates of City debt to the amount expressed in such warrant, which certificates shall be such as are provided for and described in an Ordinance approved August 23d, 1855, entitled "An Ordinance to provide for the issue of certificates of City debt in payment of Road Damages, and to pay the contract price of the Fire Alarm and Police Telegraph," and the said certificates shall be a portion of those thereby authorized to be issued.

REPORT OF COMMITTEE ON TRUSTS AND FIRE DEPARTMENT.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Trusts and Fire Department present the accompanying Ordinance, making the annual appropriations to the Companies comprising the Fire Department. In doing so they are compelled to ask an additional appropriation of six thousand and thirty-three dollars and thirty-three cents. At the time the general appropriations were made the department contained about fifty companies, since which time about thirty have been admitted, and it is to meet the expenses incurred by this increase that the additional sum is asked.

Respectfully submitted,

W. S. WINSHIP, *Chairman.*
CHARLES M. SLOCUM,
ANDREW J. BAKER,
JOHN WELSH,
ROBERT KERSHAW.

RESOLUTION.

Resolved. By the Select and Common Councils, that the owners of property, or a majority thereof, on Prichett street, from Thirteenth street, west to a thirty feet wide street in First Ward; Apple street, from Diamond street northward to Susquehanna Avenue, in the Nineteenth Ward, be and they are hereby authorized to have the said streets paved, *Provided*, That the

same shall be done under the supervision of the Department of Highways, and the parties contracting to do the same shall enter into an agreement to keep the said streets in good repair for at least twelve months from the time they were opened for public use; and provided further, that the water pipe shall be first laid in the said streets, and the City shall be at no expense for the said paving except for the intersections.

APPENDIX No. 54.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Select and Common Councils of the City of Philadelphia.

The Committee on Highways, &c., to whom was referred the annexed communication from Lane Schofield, asking for a settlement of his claim for constructing a culvert in the late District of Penn, respectfully report, That the legitimate and ordinary business of the Committee on Highways requires the performance of a great deal of labor, and renders it morally impossible for the Committee to give that attention to the investigation of this claim which its magnitude and importance requires. They therefore respectfully suggest that it be referred to the Committee on Claims, or a special Committee.

ANDREW MILLER, *Chairman.*

THOMAS POTTER,

J. G. SORVER,

ALFRED CREASE.

To the President and Members of the Common Council of the City of Philadelphia:

GENTLEMEN:—In the Spring of 1853, I entered into a contract with the District of Penn, for the construction of Culverts. By the terms of that contract, I was to receive the bonds of the District in payment

from time to time, as the work progressed, according to the certificate of the Surveyor. Failing to receive the Bonds as agreed upon, I was compelled to abandon the work, at a sacrifice of time and money. When the Councils under the Consolidation Act were organized, I presented a communication in relation to a settlement of my claim, which was referred to the Committee on Highways, who, after a careful consideration of all the facts in the case, unanimously reported in my favor, awarding me \$3,009 17. The matter was not settled in that Council owing to the sickness and absence of the Chairman of the Committee from the City. Upon the organization of the last Council, I called their attention to its settlement, who referred it to the same Committee. The award was made in my favor. When the report was made, at the request of one of the Committee, it was referred to a Special Committee, who, after repeated examinations reported in my favor. At a special meeting of your body, it was passed by a decided majority, and on being presented in the Select Chamber it received nearly every vote. The Mayor vetoed the ordinance making the appropriation, and on being brought before your Chamber for final action, it failed to pass by a two-third vote, though a majority voted to sustain their previous course. Trusting that you will render me that justice which I am justly entitled to,

I remain very respectfully yours, &c.,

LANE SCHIOFIELD.

APPENDIX No. 55.

REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

OFFICE OF THE CHIEF ENGINEER }
OF THE FIRE DEPARTMENT. }

To the Select and Common Councils of the City of Philadelphia:

GENTLEMEN:—In presenting my fifth Quarterly Re-

port of the number of fires occurring, with the loss sustained for the quarter ending the thirtieth day of June, and condition of the apparatus, it will be seen that it exhibits an increase in the number of fires and in the losses sustained.

The number of fires that have occurred in the quarter is 70; the estimate loss on which is \$985,110, and the insurance \$696,925, leaving an uninsured loss of \$288,185. The increase of fires as compared with the preceding quarter is twelve, the increase in total loss, \$864,843, and the increase in uninsured loss, \$223,185.

The Department consists of 39 Engine, 29 Hose and 5 Hook and Ladder Companies; possessing 43 Engines, 61 Hose Carriages, 6 Trucks, 54,523 feet of hose and 835 feet of ladders.

Honorary members, 2265; active members, 2075; contributing members, 2211. Total number of members, 6551.

Since my last report the house of the Steam Fire Engine Young America, located at the north-east corner of Front and Noble Streets, has, under the supervision of the Committee on Trusts and Fire Department, been completed, and the Engine removed from the tobacco warehouse, and placed therein. The Engine, from that time, has been in working order and ready to be taken to any fire of sufficient size to need its services, but the present mode of conveyance cause much delay, and I would respectfully recommend that horses be bought and kept in readiness to convey it to the fire on an alarm being given, which could be given from any part of the City by having a Telegraph signal-box placed in the Engine House.

The Department is now in most excellent working order, and I can with safety assert that no department is better able to accomplish its important work.

I would recommend the formation of a Hook and Ladder Company in the neighborhood of Broad and Spruce Streets. I am under the impression that a Company of this kind would prove very useful in the south-western part of the City.

I would respectfully call attention to that part of my

last report which recommends that it be the duty of the night Police to call the firemen on their respective beats when there is an alarm of fire during the night, and also that portion referring to the erection of large bells in each Fire District. Also to have the bell in the steeple of the Spring Garden Hall rung for all fires, as a large number of firemen have to depend entirely on that bell to give them the alarm.

To the members of the Select and Common Councils, I return thanks for the aid extended me in my efforts to discharge the duties assigned me, and particularly to the Committee on Trusts and Fire Department, who have manifested so much interest in the welfare of the department.

With sentiments of esteem,

I remain yours respectfully,

BENJAMIN A. SHOEMAKER,

Chief Engineer of the Fire Department.

APPENDIX No. 57.

REPORT OF SPECIAL COMMITTEE ON RULES.

To the President and Members of the Common Council of the City of Philadelphia:

GENTLEMEN:—Your Special Committee appointed to draft rules for the government of your Chamber, respectfully submit the following:

RULE I. The President, or, in his absence, a member chosen to preside during the meeting, shall call the members to order at 3 o'clock P. M., and upon its being apparent that a quorum is present, shall cause the Journal of the last meeting to be read, and corrected as the Council shall determine.

He shall decide all questions of order, and his decisions shall be submitted to without debate, unless two members require an appeal to Council, which appeal shall be debatable.

He shall appoint all Committees, unless otherwise determined by Council.

He shall call special meetings of Council upon request of fifteen members; but when such meeting shall be called, the Clerk shall be directed to insert in the notices to members the import of the business on which they are to convene; and no other business shall be transacted at such meeting.

RULE II. The Clerk shall keep a Journal of all the transactions of Council with an index to the same, and present all messages to Select Council.

He shall cause the messengers to serve notices of special meetings upon all the members, at least one day previous thereto.

He shall, in the absence of the President, call special meetings when requested to do so by fifteen members.

He shall keep a book to be called the Committee Book, in which he shall enter in columns, under appropriate heads, the time of the appointment of all Committees, and the names of the members thereof; a brief title of the subject committed, and the

time at which the Committee reported and were discharged.

He shall also keep a book, in which he shall enter in proper columns, a brief title of such bills, resolutions or other papers as may have been read a first time and laid on the table at any former meeting, but not yet referred to Committees, or otherwise disposed of; the time of their being first read, and of their disposal; and shall lay these books before the President at each meeting, for information of Council.

He shall furnish the Chairman of every Committee with a copy of the resolution under which they are appointed, together with all papers and documents connected with the subject referred.

RULE III. If a quorum of the members do not attend within half an hour after the time appointed for the meeting, the members present may then adjourn, the Clerk inserting their names on the Journal; but if a quorum attend, the order of business shall be as follows:

1. Petitions, Remonstrances and Communications may be presented and referred, for which purpose the Wards shall be called in their numerical order.

2. Reports of Committees may be made.

First. From Standing Committees.

Second. From Select Committees.

3. Original Resolutions may be offered, and items of unfinished business may be referred.

4. Bills may be read in place.

5. Bills on third reading.

6. Reports and Resolutions may, on motion, be considered.

7. Of Bills.

First. Those on which the Chamber had made progress on second reading.

Second. Bills on which no order had been taken.

RULE IV. Reports, Resolutions and Bills shall not be considered on the same day or sitting on which they are made, offered or reported, without the consent of two-thirds of the members present.

RULE V. Every member presenting a paper to the

Chair shall first endorse thereon its general import; and every member who shall make a motion shall rise and address the Chair.

RULE VI. No debate shall be entered into on any motion, unless that motion be seconded, and stated from the Chair; and all motions shall, if requested by two members, or by the President, be reduced to writing. No member shall speak longer than five minutes, nor oftener than twice, upon any one question, without leave of Council.

RULE VII. While a subject is under consideration, no motion shall be made except to amend, divide, commit or postpone it, and no amendment which tends to destroy the general sense of the clause, or motion shall be entertained.

RULE VIII. Every bill shall receive three several readings in the Chamber, one of which shall be at length, previously to its passage.

RULE IX. A motion to reconsider any former resolution or vote, can only be made or seconded by a member who voted with the majority and at the same meeting, or at the stated meeting next ensuing.

RULE X. No rule of Council shall be suspended without the concurrence of two-thirds of the members present.

RULE XI. Council may resolve itself into a committee of the Whole, and while so sitting, shall be governed by the rules applicable to the Committee of the Whole of the House of Representatives of Pennsylvania.

RULE XII. All reports of Committees shall be in writing, and signed by all the members agreeing thereto.

RULE XIII. None but members of Select Council, their officers, the Mayor of the City and Heads of Departments, ex-members of Council, Judges of the Courts, members of Congress and of the State Legislature, shall be permitted to come on the floor of the Chamber during the session.

Your Committee have also had under consideration two messages from Select Council, one of which con-

tains a proposition for this Chamber to appoint a Committee of conference upon the question of the Standing Committees; and the other, containing an Ordinance constituting the Committee on Finance a joint Committee.

With respect to the first message, your Committee beg leave to submit a detailed statement of the action of this Chamber in the premises. At the second meeting of the present Council, a resolution was passed directing the President to appoint the Standing Committees of this Chamber in accordance with the views of a majority of the members. The objection made to the passage of this Resolution was, that the mode of appointing these committees had been already determined by an Ordinance passed in 1854. After full debate, however, the Resolution was passed by a large majority, on the ground that previous Councils could not prescribe a mode of organization for subsequent Councils. At the same meeting, from a sense of courtesy to the other Chamber, an Ordinance was passed repealing that of 1854, whereby the Committees were appointed jointly. The Select Chamber refused to concur. Notwithstanding this refusal, confident of your right, the Committees were appointed as provided for by the Resolution already referred to, since which time your Committees have held regular meetings and acted promptly upon all matters referred to them. Some of the Committees of Select Council have demanded the right to meet jointly with yours; this demand has been refused, not from any disrespect to the gentlemen constituting them, nor to the Select Council, but from a deliberate conviction of the advantages of separate Committees. Thus the matter stands.

It will be observed that the appointment of a Committee of Conference would be a virtual yielding of the right for which this Chamber has hitherto contended. It is, therefore, deemed inexpedient.

Nevertheless, it being apparent that for certain purposes, it is proper that the Committees should meet jointly, your Committee recommend the following compromise, to wit: That after the other Chamber

shall repeal the Ordinance of 1854, a "Committee of Conference" shall be appointed with the power to act on the following basis. To propose a joint rule making it obligatory upon the Committees to meet jointly whenever called together in such capacity by the Chairmen of both Committees.

With respect to the other message, your Committee suggests that it is inexpedient to concur in the Ordinance, inasmuch as provision has already been made to attend to the business which the jointure of Committees on Finance contemplates in this Ordinance, a joint Standing Committee having been appointed to examine the Treasurer's account, and for other purposes.

RESOLUTIONS.

Resolved, That the Department of Surveys be, and they are hereby directed to prepare a plan of the Township line road or Wissahickon street, from Nicetown lane to Carpenter street, in the Twenty-first and Twenty-second Wards, the width of said street to be fixed at fifty feet, the increase of width to be taken equally from each side; and further,

Resolved, That the width of the footways on the north-west and south-west sides of Wayne street, as laid out upon the confirmed plan of the late borough of Germantown, be fixed at twenty feet.

APPENDIX No. 66.

REPORT OF COMMITTEE ON PRINTING.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Printing and Stationery beg leave to report, that in compliance with the 26th Section of the recent Supplement to the Act of Consolidation, which reads as follows:—"That hereafter, all goods, merchandise, and other articles of any kind, and labor and service, required for the City of Philadelphia in any Department thereof, shall be purchased or contracted for only in such manner as shall be prescribed by Ordinance, and for that purpose the Councils of said City are hereby required to direct by Ordinance, manner and time of making the yearly estimates by the several Departments of said City; and of receiving sealed proposals for such supplies as

aforesaid, which proposals shall be preceded by advertisement, and no contract shall be awarded to any but the lowest bidder, who shall give the requisite security therefor."

Therefore your Committee submit the following annexed Ordinance for your consideration, and ask its passage, believing it to be the only fair and equitable mode for the City to procure the public Printing and Stationery, and that an annual saving to the City of several thousands of dollars will be effected thereby, as the appropriations for Printing and Stationery exceed the sum of fifty thousand dollars per annum.

AN ORDINANCE

Directing the manner of procuring the Printing, Binding, and Stationery, for the City of Philadelphia.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That upon the passage of this Ordinance, and in the month of June annually hereafter, the Clerks of each Council and the Heads of the various Departments, shall advertise for three weeks in three daily newspapers published in the City of Philadelphia, for sealed proposals for supplying respectively, the Select and Common Councils, and the various Departments of the City with the necessary Printing, Binding, Blank Forms, Books and Stationery, for each Council and Department, which advertisement shall describe the kind of Printing, Binding, Blank Forms, Books and Stationery; the quality of the paper required, as near as may be, in the execution of the work; and the proposals received shall divide and classify the Printing, Binding, &c., as follows:—

- 1st. Printing, furnishing the paper, and binding the Journal, and Bills of Select Council.
- 2d. Printing, furnishing the paper, and binding the Journal and Bills of Common Council.
- 3d. Printing, furnishing the paper, and binding the Appendix, and Ordinances, Documents, Reports, Blank Books, Notices, and Stationery, for the Select and Common Councils.
- 4th. Printing, Binding, Blank Books, Blanks, and Stationery, for the use of the Departments of Highways, Water, Police, and City Property.
- 5th. Printing, Binding, Blanks, Blank Books, Stationery, Assessors' Lists, and Sheriff's Proclamations, for the use of the City Commissioners.
- 6th. Printing, Binding, Blanks, Blank Books, and Stationery, for the use of the City Treasury, Receiver of Taxes, Law and Controllers Departments.

Each class to be provided for by separate contract. And the Clerks of Councils, and the Heads of the Departments aforesaid, shall provide suitable samples of the Printing, Binding, Blank Forms, Books and Stationery required, and of the paper and books of which the same are to be executed, to be kept in their respective offices, at least twenty days before the time of receiving proposals shall expire, open to the inspection of all persons desiring to make proposals for the Printing, Binding, Blank Forms, Books, and Stationery aforesaid, notice whereof shall be contained in said advertisement.

SEC. 2. That at a stated meeting in August next, and at the third stated meeting in July, annually thereafter, the Select and Common Councils shall meet in Convention, and the President thereof, shall open the said proposals for executing the Printing, Binding and Stationery for Councils and the Departments aforesaid, for one year. The proposals shall specify the rate per thousand ems for composition, the rate per token for presswork, and the rate per copy for the Journals, Appendix, Ordinances, &c., and the

rate per page for Bills and Resolutions, (including paper, presswork, and folding, each full page to contain not less than thirty lines of pica, exclusive of blank lines, and for blanks the rate per ream or quire, the rate for blank books per quire, the rate per ream for Note and Writing paper, the rate as per samples for Stationery, &c). Which proposals shall be sealed and endorsed "Proposals for Printing, Binding and Stationery," to be accompanied with the names of their securities, and shall be directed to said Presidents, and delivered to one or both of them, to be opened and announced in presence of said Convention as aforesaid, and not otherwise.

And the President shall immediately award each class of Printing, Binding, and Stationery to the lowest bidder, who shall furnish satisfactory evidence of his practical skill and his ability to do the work, and who shall offer good and sufficient security for the faithful execution of the contracts undertaken by him.

And thereupon the Presidents shall proceed to take bonds, with good and sufficient security for the faithful performance of the contracts.

SEC. 3. That a Committee consisting of five members of Select Council, and five members of Common Council, shall be appointed by their respective Chambers, which shall constitute a Committee on Printing and Stationery, which shall have power to adopt such measures as may be deemed necessary to remedy any neglect or delay on the part of the contractor to execute the work ordered by Councils or the Departments, and to make a pro rata reduction in the compensation allowed, or to refuse the work altogether, should it be inferior to the standard; and in all cases the contractor and his securities shall be responsible for any increased expenditure consequent upon the non-performance of the contract.

The Committee shall examine all accounts for Printing, Binding, and Stationery, and report to Councils, if necessary; but no bill shall be acted upon for work that is not actually executed and delivered, and which

they may require to be properly examined and authenticated.

SEC. 4. That so much of any Ordinance or Resolution which is inconsistent herewith, be and the same is hereby repealed.

APPENDIX No. 67.

REPORT OF COMMITTEE ON CLAIMS.

To the President and Members of the Common Council.

APPENDIX No. 73.

REPORT OF COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance, to whom was referred the application from the Board of Controllers of the Public Schools, for an appropriation to pay for certain heating apparatus, respectfully report, That they have had the subject under consideration, and find the facts to be as follows:—On the 29th of May, 1855, a contract was entered into between the Board of Controllers of the Public Schools, and Morris, Tasker & Morris, for certain hot water heating apparatus, for the Hancock and James Pollock School Houses, which apparatus was erected during the summer vacation of the Schools, in 1855. The conditions of the contract were, that Morris, Tasker & Morris should receive \$4,035 for the work, “allowing until the 15th of January, 1856, for the testing of the apparatus, at which time, if found satisfactory, the same to be paid for.”

Your Committee are of opinion that this whole transaction has been irregular, and calls for, in some way, the censure of Councils. They have arrived at this conclusion for the following reasons:—By the 39th section of the Act of Consolidation, it is made the duty of the Board of Controllers, “To furnish the City Councils, on or before the first day of March in

every year, an estimate of the amount that in their judgment will be necessary for the support of Public Schools, for the current year." According to the contract with Morris, Tasker & Morris, the work in question was agreed to be paid for on the 15th of January, 1856. The Board of Controllers being aware of this fact, it became their duty to include the amount in their annual estimates for the "current year," having between the 15th of January and 1st of March, abundant time to do so.

By the 20th Section of the Supplement to the Act Consolidating the City, passed April 21st, 1855, it is provided, "That no contract shall be made by the Head of any Department, for work or materials, for the City, unless for objects authorized by Councils, and if for new work, the contract and sureties be approved by the City Solicitor and Councils, and the supervision of Councils shall extend to adjudge the character of all work and materials done and furnished for the City, and to the scrutiny of the accounts and vouchers therefor."

It appears to your Committee that the requirements of the Acts of Assembly quoted above, have been entirely neglected and disregarded by the Board of Controllers. It is of vital importance to the interests and good government of the City, that every Department should be confined within the limits of the annual appropriation allotted to it, and that strict obedience should be paid to the Act of Assembly, which forbids contracts to be made by any Department, unless for objects authorized by Councils.

The citizens of Philadelphia are anxiously looking to Councils for certain salutary reforms. There can be no measure of reform of greater importance than that of enforcing on all the Departments a strict compliance with the above Acts of Assembly. Without this, there can be no certain or successful arrangement of the financial affairs of the City. If the different Departments are allowed to make contracts, or to disburse large sums of money, without the knowledge or

consent of Councils—or if, after the annual estimates are sent in, the taxes so laid, and the income so arranged, as to meet the amounts asked for, continual applications are made and granted, for additional appropriations, it must necessarily tend to the confusion and derangement of the finances, and place the City in that disreputable, if not dishonest, position of her expenses exceeding her income, forcing her to borrow money to pay current expenses, or else compelling her to put off the payment of her just debts, continuing that disgraceful state of affairs, now and for some time back in existence, in which the City is daily sued before the Magistrates in petty sums justly due, the Solicitor and Treasury daily called on to defend these suits and enter security for stay of execution; a state of things that your Committee believe, in a very great measure, flows, and will continue to flow, from a neglect of the sound and wise laws before referred to.

Your Committee are of opinion that the success of the financial arrangements for the present year, and the accomplishment of that great desideratum of keeping the expenses of the City within its income, requires great caution in granting new appropriations, and that they should, except in urgent cases, be withheld until the amount asked for be placed in the annual Estimates and General Appropriation Bill for 1857.

Your Committee regret that the respectable firm of Morris, Tasker & Morris should be deprived for a moment of their claim; they are also willing to concede to the apparatus erected by them, all the usefulness and utility claimed for it, but a stern sense of duty to the City constrains your Committee to recommend that the application of the Board of Controllers of the Public Schools for an appropriation of \$4035 be not granted; the whole amount of the School Tax for 1856 having been already appropriated, and there being no fund against which this sum is properly chargeable.

Your Committee respectfully report the following Resolution, and ask its adoption:

Resolved, That the Committee on Finance be discharged from the further consideration of the subject.

APPENDIX No. 81.

REPORT OF THE COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance, to whom was referred the application of the Board of Guardians of the Poor, for an appropriation of \$19,860, respectfully report, That in the general Appropriation Bill for the year 1856, there was appropriated to the Board of Guardians of the Poor, in the item "For out-door relief, including Salaries of Officers connected therewith," \$53,950, which sum was considered by the late Councils, after mature deliberation, to be amply sufficient for the purposes of that item for the entire year of 1856; and which, together with the amounts appropriated to that Department in the other items, composed the whole amount of the poor tax levied for the year.

The Board of Guardians of the Poor now apply to Councils for an additional appropriation of \$19,860, and in the application state, "That this Board have learned that to July the 7th, 1856, bills have been passed on account of the item for out-door relief, including salaries of officers connected therewith, amounting to \$54,754 57," showing that the amount appropriated by Councils to this item for the entire year, was not only exhausted in six months and seven days, but that the Board had actually "passed bills" for \$804 57, in excess of the appropriation.

Your Committee cannot refrain from expressing their astonishment at this state of things, and also the opinion, that to precisely such modes of conducting the public affairs by different departments, are the citizens of Philadelphia, in a very great measure, indebted for the present high rate of taxation and the disorganized and disgraceful state of the City finances.

It seems to your Committee, that if such a course of action can be allowed or sustained, there is little use for all the checks and guards provided in the different

Acts of Assembly and Ordinances applicable to the subject, and for all practical purposes these might as well be erased from the Statute Book.

In the opinion of your Committee, the late Board of Guardians of the Poor, under whose administration these things occurred, and whose term of office expired on the 7th of July, were neglectful of the interests of the City, and the common and ordinary rules of business transactions that in private life would render any one so acting liable to the severest animadversion, an observance of the simplest of these rules, would have caused the Board—knowing that there was a certain sum to expend in a given time, to have parceled it out to the different months or seasons of the year, placing to the credit of each month its proper proportion—having of course a due regard to the greater demand of one season over the other; but to expend the appropriation for the whole year in six months, leaving the item utterly destitute for the remainder of the year, was a careless mode of doing business that cannot be justified.

If such a system as this is to prevail in the different Departments, or if such uncalculated and unexpected drafts on the Treasury are to be continually made for expenditures not anticipated at the time of the annual arrangement of revenue and expenses of the City, it will be in vain to attempt to bring the finances into any decent order.

The Board of Guardians of the Poor ask for an appropriation for the item referred to of \$19,860. One of two things is evident, either this is to be followed up by further applications—or if it is intended to be sufficient for the present half year, it places in bold relief the fact of a most extraordinary expenditure in the first half of the year.

If the appropriation asked for be made, there are no funds in the Treasury to meet it; the effect must necessarily be to swell the already large amount of warrants and evidences of City debt floating about unpaid in every direction, to the disgrace of the City.

Your Committee are of the opinion that these facts, and all others of a similar nature, should be laid plainly and distinctly before the people, that they may see where the faults lay and apply the corrective. Such a course will doubtless bring to the aid of Councils a sound and wholesome public opinion in all efforts made to check these monstrous irregularities and abuses in future. As an effectual mode of accomplishing this desirable end, as well as for the reasons before stated, your Committee recommend that the application of the Board of Guardians of the Poor for an appropriation of \$19,860 be not granted, respectfully report the following Resolution, and ask its adoption:

Resolved, That the Committee on Finance be discharged from the further consideration of the subject.

APPENDIX No. 84.

REPORT OF THE COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance of Common Council, to whom was referred an Ordinance read in place, to make an appropriation for the payment to William Rice, proprietor of The Pennsylvanian newspaper, of \$639, for publishing the extra assessment list of 1855, respectfully report, That they have carefully considered the subject, the circumstances of which are as follows:

In October, 1855, the Department of City Commissioners, without any authority of law, acting entirely on their own motion, procured to be published in three daily newspapers, viz.: the Pennsylvanian, Evening Bulletin, and Daily Sun, the extra assessment list for 1855. The bills rendered for these advertisements are \$639 each, making a total of \$1917. One of these

bills, that of William Rice, has been referred to your Committee, in the shape of an Ordinance, read in place, to make an appropriation for its payment.

In the opinion of your Committee, there is a highly important principle involved in this matter, the neglect of which has heretofore led to much abuse—to heavy and unjust drafts on the City Treasury,—a principle that your Committee recommend Councils to establish and adhere to in future, that hereafter they will recognize or pay no debt contracted without the sanction or authority of law, by any of the Departments or employees of the city. If a different course were suffered to prevail, if the Departments, without any authority of law, are allowed to incur debts, and send the claimants into Councils to operate on the sympathies of members for the purpose of procuring payment of them, it will be, as it has heretofore been, attended with incalculable mischief and large drains on the Treasury.

It is evident that there is no legal or moral obligation to pay any such claims; on the contrary, it is a question whether Councils acting for their constituents, the citizens of Philadelphia, have the legal or moral right to appropriate their money for the payment of debts contracted, not only without authority, but in clear violation of the spirit and meaning of the law.

It is argued that it is a hard case when persons have rendered service to the City that they should not be paid. Your Committee concede this, and regret that it should be so; but it is in a great measure their own fault; before contracting with any one on account of the City, they should, in their own defence, first ascertain if those they contract with have the power to make the contract and bind the City for payment. This is nothing more than an every day affair among business men; no prudent merchant sells his merchandise to another through a third party, without first satisfying himself that the third party has the authority to make the purchase, and binds his principal for the payment of the bill.

If the parties having claims of the character referred

to, should consider themselves aggrieved by any action of Councils, the courts of justice are open to them, where, if their claims are just, they can be recovered.

These are some of the reasons that influence your Committee in the course they are about to recommend, which they believe covers the whole ground, and are sufficient for all claims of this character. The particular case before them, however, is peculiar, and the views taken by your Committee, greatly strengthened by the fact of the following notice, (a copy of which is on record at the Controller's Office,) having been officially served on the City Commissioners when it was known that they were about to publish the list referred to, viz.:

PHILADELPHIA, September 29, 1855.

To Messrs. Allen, Smith, and Much:

GENTLEMEN:—I am instructed by the Finance Committee to inform you that on account of the present state of finances, and in the absence of authority, you are requested not to publish the Extra Assessment, and if such publication is made, the expense of the same will not be paid for by the City of Philadelphia.

Yours respectfully,

JOHN N. HENDERSON,

City Controller.

Under all these circumstances, your Committee have no hesitation in recommending that the Ordinance to make an appropriation of \$639 for the payment of William Rice, be not passed. They therefore report the following Resolution, and ask its adoption:

Resolved, That the Committee on Finance be discharged from the further consideration of the subject.

APPENDIX No. 85.

REPORT OF THE COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance of Common Council have had under consideration the adoption of some better mode of making out the Tax Duplicates, and of proper preservation of the same, and after a careful investigation of matters connected therewith, beg leave to make the following report:

That they believe gross injustice has been perpetrated by many officers under the City government, which needs correction, and without intending to convey the idea that the Department of City Commissioners would knowingly commit any act with a view to defraud the City, still they do insist that proper economy has not been used, and they, the Commissioners, fall back upon precedent to justify their proceedings. Your Committee, therefore, deem it proper to point out avenues through which abuses can be resorted to, with a view to correct them. The Act of Consolidation gives the power to the City Councils to control each Department; it therefore becomes their duty to enact salutary laws for their government, and insist upon their enforcement. The City Commissioners are gentlemen elected by the people to conduct the business of one of the Departments, with definite duties, but at the same time they are under the control or should be amenable to Councils; taking this for granted, your Committee would call attention to the fact, that the Commissioners have been in the habit (without any question as to their right to do so) of giving out the tax books to parties hanging about offices of this description, without any reference to their qualification to perform the duties devolving upon them, consequently the work, in many cases, is done in a blundering manner, and your Committee are sorry to reiterate, without any reference to economy. The Finance Committee of the late Councils reported a bill appropriating six thousand dollars to defray the

expenses of duplicating and indexing these books, which was ample, indeed liberal, and no excuse can be tolerated for exceeding that amount; but what is the state of the case? The whole amount has been expended, and they are now asking you to make an additional appropriation of five thousand five or six hundred dollars more.

Your Committee would also call the attention of Common Council to another matter connected with this Department that needs correction immediately. Tax payers are in the habit of congregating in the Commissioners' Office about the time the Assessors return the books, and take them down from the shelves from time to time, without being under the eye of any officer of the Department, subject, as a matter of course, to be altered and obliterated as they in their cupidity may resort to; and with a view to correct these abuses, your Committee have with care prepared an Ordinance hereunto annexed, which they submit to your scrutiny, and ask its adoption.

AN ORDINANCE

For the better preservation of the Records in the Office of the City Commissioners, and to limit the expenses of making out Tax Duplicates, and to make an appropriation for the same.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That no books of assessment, or other records, shall be removed from the Office of the City Commissioners, for the purpose of making out tax duplicates; and no such books or records shall be used or inspected in said office by others than those therein employed, except in the presence of one of the City Commissioners, or a clerk in said office.

SECTION 2. All clerks to make out tax duplicates in

the City of Philadelphia, shall be nominated by the City Commissioners and approved by Select Council. Said clerks shall make out said tax duplicates, including indexes, calculations, and all other matters necessary to complete the same within forty-five days from the time of said approval.

SEC. 3. The compensation to be allowed, or paid, for making out said tax duplicates, including indexes, calculations, and all other matters necessary to complete the same, shall not exceed for the respective Wards, the sums hereinafter mentioned, to wit :

For the First Ward, two hundred dollars.

For the Second Ward, one hundred and ninety dollars.

For the Third Ward, one hundred and twenty-eight dollars.

For the Fourth Ward, one hundred and sixty-two dollars.

For the Fifth Ward, one hundred and ten dollars.

For the Sixth Ward, one hundred and sixty-three dollars.

For the Seventh Ward, one hundred and seventy-five dollars.

For the Eighth Ward, one hundred and fifty dollars.

For the Ninth Ward, one hundred and twenty-eight dollars.

For the Tenth Ward, one hundred and sixty dollars.

For the Eleventh Ward, one hundred dollars.

For the Twelfth Ward, one hundred and fifteen dollars.

For the Thirteenth Ward, one hundred and seventy-five dollars.

For the Fourteenth Ward, one hundred and seventy-five dollars.

REPORT OF THE COMMITTEE ON WATER WORKS.

To the Common Council of the City of Philadelphia.

The Committee on Water Works beg leave to report, That in company with the Chief Engineer they

visited the Dam, at Fairmount, and received from him a full description of the repairs needed, as stated in his communication to Councils, of August 7, 1856, which was referred to the Committee. The eastern portion of the Dam has settled, and the stones originally employed in what is termed "rip rapping," at that point being too small, are washed out from time to time, until a large mass of them have already accumulated in the river.

Repairs are also needed to the ice breaker, and the Dam requires sheathing. The Committee are of opinion, that the repairs recommended by the Chief Engineer should at once be commenced, as further delay might result in more serious injury, and the low stage of the water is favorable to the prosecution of the work, which should be completed before winter. The estimate made by the Chief Engineer for that purpose, is \$5,000, and the Committee report an Ordinance appropriating that amount for the repairs thus indicated.

AN ORDINANCE

To make an appropriation to the Department for supplying the City with Water, for repairs to the Dam at Fairmount.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the sum of Five thousand dollars be, and the same is hereby appropriated for repairs to the Dam at Fairmount, to be expended under the superintendence and direction of the Chief Engineer of the Water Works.

SEC. 2. Warrants for the payment of the said appropriation shall be drawn by the Chief Engineer of the Water Works.

DEPARTMENT FOR SUPPLYING THE CITY WITH WATER. }
 August 7th, 1856. }

To the Select and Common Councils of the City of Philadelphia:

GENTLEMEN:—It is my duty to communicate to Councils a statement in regard to the recent and the present condition of the Delaware Works.

On the 21st of July, complaints of the impure character of the water supplied from that source, induced a close examination of the basins: the dock on the north line of the works owned by the Lehigh Coal and Navigation Company, and the trunk through which the water is conveyed from the river to the pumps. They were all found to be in bad condition. The dock is resorted to by the fishermen of the vicinity as a depot for cleaning and preparing their fish for market, and the offal thrown overboard by them had, with other filthy sediment, accumulated to the depth of several feet, which has been cleaned by order of the Board of Health. The wooden trunk along which the water is drawn, passes across a sluice leading from this dock, and at the point of junction the trunk was found to be so defective and leaky as to give free access to the water from the sluice. The water in the basins was found to be so foul that any further use of it would have seriously threatened the public health. On this point, I submit a note from Professor Booth, of which the following is a copy:

PHILADELPHIA, July 29, 1856.

Dear Sir,—The water from the Kensington Water Works, abounding with scum and sediment, is so foul from putrifying organic matter, apparently of animal origin, that a chemical examination of it would be useless.

I would not be willing personally to use the water from which the sample was drawn, nor even water which had a remote connection with it, believing it to be injurious to health.

Respectfully yours,

JAMES C. BOOTH.

To Mr. Ogden, Superintendent of Water Works,
 Philadelphia.

The facts thus developed made it necessary to suspend temporarily the use of the Delaware Works, for the purpose of thoroughly cleansing the basins. It was clear that this was the only efficient remedy. Accordingly on the 22d day of July the water was drawn off; a competent body of men was set to work, and by their labors continued night and day, the south basin was thoroughly cleansed. Two large leaks in its southern bank were substantially repaired, and the works made ready for the use of the City by the 28th of July. During the operation of cleaning out this basin, about two thousand yards of sedimentary deposit, composed largely of putrid organic matter, were removed. The leaks in the trunk at the river have been stopped, and it has been made as effective as its faulty character will admit. Heretofore the mouth of the distributing main has been on a level with the bottom of the reservoir. This error of construction has been corrected, by raising walls which lift the mouth of the main several feet, so as to leave it as free as possible from the impurities which always settle towards the bottom of a body of water.

The total expense attending the cleansing of the south basin, with the repairs, will not exceed five hundred dollars. The work on the north basin will cost still less, as it is effected without resorting to night work, which is expensive. Since this general overhauling of the Delaware Works, they are in very fair order, and the water now supplied from them is believed to be as pure as can be had from that source.

The condition of that "part of the Fairmount Dam, near the eastern stone pier where the water is deepest," has been several times brought to the attention of Councils, by my predecessor, and more recently in a communication dated 10th of July last. Since that time I have made examination of the dam, and particularly at the point indicated, and although there is but little reason to apprehend immediate danger, I concur in opinion with Mr. Graff, that some precautionary measures should be adopted, to guard against the possibility of accident to that vital feature of the Fair-

mount Works. The work which at this time appears to be advisable, will include the sheathing of the dam up to its proper level, repairs to the ice-breaker, and "rip-rapping" with heavy stone in the deep water at the eastern end of the dam. This may all be done at an expense not exceeding five thousand dollars. I may suggest that the low stage of water at this period of the year, presents a favorable opportunity for the prosecution of the work.

Very respectfully,

Your Obedient Servant,

SAMUEL OGDEN,
Chief Engineer of Water Works.

REPORT OF THE POLICE COMMITTEE.

To the Common Council of the City of Philadelphia.

The Committee on the Department of Police, to whom was referred a bill from Select Council, entitled an "Ordinance to effect uniformity in numbering houses," respectfully report, That they have given the matter their careful consideration, and believe that if the provisions of the bill be strictly carried into effect a very desirable reform in the system of numbering houses will result. They, therefore, respectfully report back the bill as committed, and ask its adoption.

Figure 1 consists of two maps of the Delaware River. The left map is a plan view showing the river's course from the top to the bottom. It includes sampling stations 1 through 12 and 15 through 16. The right map is a cross-section view showing the river's width and depth. It includes sampling stations 1 through 12 and 15 through 16. Both maps show the river's course and the locations of sampling stations relative to the river banks and the Delaware River.

duty of the Chief Commissioner of Highways, within six months after the passage of this Act, through the Supervisors, to furnish each owner or occupant of any house or property, situated upon any Street, Lane, or Alley, of the City of Philadelphia, a written copy of the correct number to which such house is entitled; and that each owner shall, within sixty days after such notice, cause a painted, carved or cast copy of such number to be placed in a conspicuous place upon such house or property, in a permanent and durable manner. And that such owner or occupant shall, for every neglect in having said house or property numbered, in the manner and within the time herein specified, forfeit and pay the sum of five dollars, to be recoverable as debts of like amount are now recoverable by law, to be appropriated to the use of the City.

SECTION 2. It shall be the duty of the Lieutenants of the Police to report to the Police Magistrate of his Police District, all owners or occupants of property who shall have failed to comply with the requirements of Section first of this Ordinance, and it shall be the duty of the said Police Magistrate to collect the said sum of five dollars for each and every offence, and pay the same over to the City Treasurer, and make report to the City Controller, under oath or affirmation, weekly. He shall also be required, in case no collections are made in any one week, to file in the office of the City Controller, his oath or affirmation to the fact.

SECTION 3. The Chief Commissioner of Highways, in making out the proper numbers of said houses, shall be governed by the subjoined plan or diagram, that is, the initial or starting point shall be at Market Street and the river Delaware, respectively, allowing one hundred numbers to each square of 350 or more feet in length, and commencing with an even hundred at the commencement of each square as aforesaid, and in all respects adhering to the decimal system of enumeration. Also, in all streets running at right angles, but not extending to the initial points, the same order of enumeration shall be observed, as though such street did actually extend to such point. *Provided*, That the

Commissioner shall use his own judgment as to the time and system, when and how the houses situated within the First, Eighteenth, Nineteenth, Twenty-first, Twenty-second, Twenty-third and Twenty-fourth Wards, shall be numbered, and that the penalty named in Section first shall not be exacted within the same.

SECTION 4. That hereafter no place or row of houses shall be designated by a distinct name or by a distinct numbering of the houses situated in such place or row.

SECTION 5. That so much of any former Ordinance or Ordinances, relating to the numbering of houses, as may be inconsistent herewith, be and the same is hereby repealed.

PHILADELPHIA, July 19, 1856.

To Geo. Northrop, Esq., Chairman of Committee on Surveys, Common Council,

Dear Sir:—The petition of property holders on Second street, between Newlin's Brewery and Arch street, which was referred to the Chief Engineer and Surveyor, has received attention, and beg leave to state, that the summit of the street is so situated that by a very slight change in the position of the gutter stone, the drainage from the Brewery can be made to pass either to Arch or Race street. The old arrangement was such as to divide it, throwing a portion each way—this (by what authority I cannot ascertain) has been changed, so that the entire flow from the Brewery passes to Race street.

The water that passes from the Brewery is clean, and therefore is of value in preventing the gutters in that neighborhood—or on its line of flow rather, becoming foul. I would therefore deem it advisable that the gutter be reinstated, so that the flow shall pass each way—its cost will be a mere trifle, as a half hour's work of a couple of men would complete it.

I have called the attention of the Chief Commissioner of Highways to the matter, who will doubtless have it attended to, yet a Resolution of Councils would ensure it.

Very respectfully,
STRICKLAND KNEASS,
Chief Engineer and Surveyor.

COMMUNICATION FROM CHIEF COMMISSIONER OF HIGHWAYS.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The undersigned Chief Commissioner of Highway Department, feels it incumbent upon him at this time, to present the annexed statement, showing the actual condition of the Finances of this Department as shown by the receipts for Warrants drawn up to July 16th last, at which time I entered upon the discharge of my duties. It will be seen that several of the items are very largely drawn upon; and the balance remaining but small, as compared with the amount of labor to be done, and materials furnished for the remainder of the year.

I would especially call your attention to Item 2, repairing street, Item 4, repairing road, Item 8, cleaning city, Item 9, cleaning unpaved streets, Item 16, print-

ing, stationery, &c., Item 18, Index boards, Item 19, office expenses.

In addition to the amount expended, as shown by warrants drawn, bills to a very large amount have been presented to this office, for labor done and materials furnished up to that time, and chargeable to the above items.

To that of Item No. 2, Repairing Streets, the bills already presented, and properly chargeable to it, amount in the aggregate to \$5,600, leaving a balance to the credit of that item, to meet the expenditures for the remaining portion of the year, of but \$30,740 04, being a fraction over one-third of the appropriation made for the entire year.

Some of the Items, it will be seen, are very largely drawn upon, and in two instances, entirely exhausted.

All of which is respectfully submitted.

JOHN McCARTHY,
Chief Commissioner of Highways.

REPORT OF THE COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance, to whom was referred the application of the President and Directors of the Sunbury and Erie Railroad Company, for further aid in constructing the Road, respectfully report, That as a preliminary measure to taking the subject into consideration, and before any other action, it was considered necessary to obtain the opinion of the City Solicitor as to the power and authority of Councils to grant the aid asked for. This opinion was promptly furnished by the Solicitor and also sent by him into Councils, in advance of any action or report of your Committee. The Solicitor arrives at the conclusion that Councils do not possess the power referred to, which renders any further action by your Committee unnecessary, they therefore respectfully report the following Resolution, and ask its adoption :

OPINION

Of the City Solicitor on the proposition made to the Select and Common Councils, by the Sunbury and Erie Railroad Company.

CITY SOLICITOR'S OFFICE, }
Philadelphia, Aug. 2, 1856. }

I have been requested to give my opinion on the question contained in the following Resolution, prepared by the Committee on Finance: "*Resolved*, That the Chairman request the City Solicitor to ascertain whether the Sunbury and Erie Railroad Company have authority to create such a mortgage as is proposed in their memorial, and whether the sale under such a mortgage would vest a perfect title in the purchaser."

The proposition referred to is set forth in the memorial in these terms: "As a means of raising the money, your memorialists submit that they can upon their own bonds, to mature in two years, obtain the use of the funds at fair rates, provided these bonds are secured in an adequate manner, and they therefore propose to your Honorable Bodies to place [that is, that Councils shall place] in the hands of Trustees of your own selection, *thirty thousand shares* of the Stock of the Pennsylvania Railroad Company, to be held for the security of the bonds so to be issued by the Sunbury and Erie Railroad Company; and that this Company execute a mortgage for the par value of said stock, either to the same Trustees or to the City direct, to secure a return of the same to the City at the maturity of said bonds."

On the second question contained in the Resolution, I observe that if the power to mortgage existed, a judicial sale under the mortgage would vest a perfect title in the purchaser. Such instruments have, within a few years, become common. In the cases which have heretofore occurred, they have been made under the authority of special Acts of Legislation, for the reason that the mortgagors generally own not the fee simple, but the right of way, and desire to mortgage

some species of personal property not allowed by the general law. The act of 18th April, 1853, imparts to this Company the only right it possesses to create a mortgage. It authorizes the Company "to borrow money and to issue their bonds (in sums of not less than one thousand dollars each) at such rates of interest and on such terms as may be determined by the Board of Managers, and to secure the payment of said bonds by executing and delivering to such trustee or trustees as they may select, a mortgage or mortgages of all or any part of their estate, real and personal rights, liberties and franchises." The substance is, that they may borrow money, issue bonds therefor, and create a mortgage to secure the payment of *said bonds*. This is plain language. By all the decisions, it must be literally construed, and the power it conveys strictly pursued. It contains no authority to create a mortgage to secure the loan of any thing but money. The mortgage now proposed should recite not a loan of money but of *Railroad Stocks*. This would be notice to every purchaser of the mortgaged premises that the Company had done what the Legislature never authorized; and although the distinction may appear slight in the eye of any but a lawyer, I am firmly of opinion that it would invalidate the whole proceeding, and that a sale under such a mortgage would convey no title.—It may be observed further, that the acceptance of such a mortgage would lead to novel consequences. If accepted, the City must necessarily be a purchaser at a sale made under it, or lose the whole of it. If the Road were purchased, the City ought to be able to run it, or be at the mercy of contractors and jobbers. We should thus have a corporation chartered for the purpose of opening and sweeping streets, lighting lamps, regulating matters of police, and performing other acts of a municipal character,—engaged in managing a railroad in a distant part of the State, or on the same principle, in a distant foreign state. Why may she not also start a line of steamers or speculate in Western lands?

The other question is one of even more importance.

In *Sharpless vs. The Mayor of Philadelphia*, 21 Penna. State Reports, 147, which involved the constitutionality of an Act of Assembly, authorizing municipal subscriptions to stock in a railroad, the Supreme Court pronounce it "beyond all comparison, the most important cause that has ever been in this Court since the formation of the government." The present question is not less so, for there an Act of Assembly authorized the subscription, and here it is proposed to attain the very same end without an Act. Stript of the words in which it has been clothed, the proposition now made is to pledge the personal property of the City of Philadelphia for a debt which a third party is about to create. Can she do so? I have considered this question with a care proportioned to the magnitude of the amount it involves.

The very best aspect in which the advocates of this measure can place it, is that of a new subscription of a *million and a half of dollars* to the Sunbury and Erie Railroad Company. It has all the consequences of such a subscription. If money is not actually advanced, its equivalent is. If not paid absolutely, it is placed where it may all be lost, for it is proposed to pledge the borrowed stock, where the creditors of the Company may sweep it off, and without this, the advance would be of no use. If this were the true view of the subject, the measure would be a legal one, for the first section of the Act of Assembly reviving the Company, authorizes municipal bodies to subscribe to its stock, and in the case of *Sharpless vs. The Mayor*, the Supreme Court pronounced such an Act constitutional. If therefore, the proposition came in this shape, it would simply present to Councils the question, whether in the present or any other financial condition of the City, an outlay of such an amount of property would be reasonable and right, and whether the present Councils would be justified in making it. But this is not the question. In the communication of the President of the Company, he says with entire candor, "I am not about to suggest a further subscription on the part of the City, for I do not believe

such a course politic in her present financial condition, but I propose a temporary loan of assets in the control of the City, upon security which will ensure its prompt return and save harmless under any circumstances the present investment." Stripping the proposition again of its mere phraseology, and of the favorable effects it is expected to produce and with which my department has nothing to do, it simply presents the question already indicated, whether the City of Philadelphia can pledge its personal property, with or without security, for a debt which another and entirely different corporation is about to create. It is not even the question whether she can pledge this property as it now stands for her own debt, but whether she can do it for a debt which she has not created, which she is to have no hand in creating, and which is properly the obligation of an entirely distinct and independent corporate body. It is not the question whether she can sell the property and then lend away the proceeds of it, or whether she can sell it and take as security a mortgage on which others are unwilling to lend money. These would make interesting subjects of discussion. But can she pledge it for a third party to secure a debt contracted or to be contracted in the manner I have stated?

Where is the authority? We have the right in a matter of such importance to ask for clear and unquestionable authority. If there is any one thing to be deduced from the scope of the transcendently able discussion to which Sharpless vs. The Mayor was subjected, it is that powers of this nature are to be strictly construed. In that case, the sole inquiry was, the constitutionality of the Act authorizing the subscription. It was never once hinted that without such an Act, such a subscription could be made by a municipal body; and since the decision of that case, you are perhaps aware that an Amendment to the State Constitution has been proposed, and passed by one Legislature, which takes away from the Legislature itself the right to pass such an Act,—a fair index of the professional and popular sentiment of the commu-

nity on the general subject. In *Brown vs. The County Commissioners of Philadelphia*, 21 Penna. State Reports, 40, we have direct authority on the point under discussion. "It is not pretended," say the Court, "and if it were, it could not be believed for a single moment, that the Commissioners of a County can pledge the property of their constituents for money to be invested in the stock of a Railroad Corporation, unless it be done in pursuance of some special Statute. The general law of the land forbids that money shall be borrowed on the faith of the County for such a purpose, or that public funds already in the treasury, shall be so appropriated." Where then is the special Statute thus setting aside the law of the land? I know of no Act, except that of February 10th, 1852, which provides "that it shall be competent for the corporate or constituted authorities of any municipal or other corporation, in the Commonwealth, to subscribe for shares in the capital stock in the Sunbury and Erie Railroad Company, and to borrow money therefor." For the purpose which it was intended to effect, this Act is plain and strong enough. Will it be pretended that on any principle of construction, strict or loose, this language authorizes a pledge? Does not the very memorial of the Company by repudiating all idea of a new subscription and asking for a pledge, recognize in unmistakable terms the difference between the two things? That difference is well founded. A subscription to the stock of such a Company creates only a conditional obligation. The act of the Company may relieve a subscriber. A material alteration in its charter or a wilful breach of its privileges on the part of the corporation may discharge him. On the other hand, the hypothecation of property which is here asked is an absolute contract. The City places it at once beyond its own control. The lenders of money to the Company obtain a firm legal hold of it. If it were not so, the whole arrangement would end in nothing, for no money would be lent.

It is urged that such an arrangement would benefit

the City by affording in the end security for the large amount heretofore invested in this Company and now believed to be worthless. Whether this result would follow, I am unable and unauthorized to predict; but if mere pecuniary benefit were the test of her corporate power, she might have ample scope for investment. Why not advance on merchandize, on receiving the security into her own hands, and thus turn commission merchant? Why not purchase stocks and turn broker? Why not in times of pressure assist her banks and thus preserve commercial credit? Why not turn benefactor in general and lend her property to the merchant who may fall into embarrassment? In a word, once open the door to this principle, and who shall set bounds to its operation? The answer to the whole doctrine is—what everybody has seen and what nobody ought to be required to prove,—that however much such expedients may benefit herself or may benefit others, she never was incorporated for any such purposes, and that without express authority, she is powerless to do anything of the kind.

But there is a more conclusive view of the subject. On the 29th of January, 1855, an Ordinance was passed which provided “That the real estate belonging to the City of Philadelphia which the said corporation are authorized or may be authorized to sell, without being required to appropriate the proceeds specifically by the power allowing such sale: ALL STOCK IN RAILROAD, canal, plank, or other corporations, and all mortgages owned by the same; and all monies which belonged or were owing to the sinking funds of any of the corporations, which by the Act of Assembly, approved February 2, 1854, were consolidated into the corporation of the City of Philadelphia, *be and they are hereby pledged for the payment of the funded debt of the said Corporation.*” When the Act of Consolidation went into effect, the debt of the City as nearly as it can be computed, was \$18,741,841 38. This debt was and is held almost over the world and by every species of persons natural and artificial. Since the passage of the Ordinance I have quoted,

it has continued to be transferred from hand to hand. Every day has produced a new owner of it. But this is not all. Soon after the passage of the Ordinance, a new loan of a *million of dollars* was projected, and authorized by Councils on the 11th of December, 1855. The whole of this loan, or the whole of it except a few dollars, has been taken, and portions of it are now sold from day to day in the market. The case therefore stands thus: The City of Philadelphia says to her citizens and the community, if you will lend your money to me, or buy my obligations now outstanding, I will hold the property which I possess as a solemn pledge for the payment of the money; and in that pledge she includes in express terms the very Railroad Stocks which the Sunbury and Erie Railroad Company desire to borrow. Can she lend them? Let the principle be tested by its application to the affairs of private life. One merchant says to another, if you will lend me a thousand dollars, I will hold these promissory notes, or these stocks, or this merchandize as a pledge for its repayment. He obtains the money, and on the next day he hands over notes, stocks, and merchandize, to secure another loan from another lender, or to procure some other advantage to himself. Can he do so? Does not every man feel that the act is immoral, and that if the law failed to lay its firmest grasp upon the transaction, it would be as a science, so far below the best philosophy of morals as to be worthy of contempt? My opinion therefore is, that the City of Philadelphia cannot lay a finger on that stock, with the view of lending it to any other party. By the Ordinance of January, she created a contract with those who afterwards took her loan, if not with those who held it before, which neither she nor any other power on earth but the parties who made it, can dissolve. There never has been a code of morals which would have sanctioned such an act; there never has been a civilized state whose jurisprudence would have permitted it; and there never has been a Court since the days of James the Second which would have justified it.

There is a point which I ought to touch in conclusion, and on which I trust I shall not be misunderstood. It is barely possible that Councils may differ with me on this subject. In that event, a grave question would arise. I am not the Solicitor of Councils, but of the City of Philadelphia, and my first duty is to her citizens,—my constituents. The question arises whether as at present advised, I should not be bound to employ the power of this Department in preventing any transfer or other similar disposition of this stock. One mode of testing the proposed Ordinance would be an action on the official bond of the Treasurer, to recover the value of any stock, illegally transferred by him,—a course which that officer, if he be as cautious as I suppose him, will take care to avoid. A more efficient proceeding would be an application for an injunction to prevent any disposition of the stock whatever. I merely suggest this point now, because it seems one of candor, and because it may prevent surprise hereafter.

City Solicitor.

COMMUNICATION FROM CHIEF COMMISSIONER OF HIGHWAYS.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—I beg leave most respectfully to call your attention to the fact that the contracts for cleaning the First, Third, Fourth and Fifth Districts, will expire by limitation on the first of October.

The Second District is not now under contract.

If it is the intention of Councils to continue the contract system, in the districts named, or to make it general over the entire City, it is important that speedy action should be had, in order that sufficient time may be allowed to parties disposing to contract with the City, to make proposals for the same.

In the opinion of the undersigned, the public interests would be promoted by allowing at least one month to contractors to make the necessary inquiries, and calculations incident to the work.

JOHN McCARTHY,
Chief Commissioner of Highways.

Aug. 12, 1856.

To the Common Council of the City of Philadelphia.

The Committee on Highways, to whom was referred the communication of the Chief Commissioner of Highways, informing Councils that the contracts for cleaning the First, Third, Fourth, and Fifth Districts would expire on the first day of October next, have after careful consideration agreed upon the Resolution hereto annexed, and respectfully recommend its early adoption by Councils.

REPORT OF THE COMMITTEE ON LAW.

To the Common Council of the City of Philadelphia.

The Committtee on Law respectfully report, That they have examined the petition of Morton McMichael and others, asking for a repeal of the Second Section of the Supplement passed Feb. 16th, 1856, to an Ordinance passed Jan. 19th, 1856, regulating Pawnbrokers, that by the original Ordinance, Pawnbrokers were authorized to charge six per cent. per annum for loans, and two per cent. per month for storage and other expenses, and by the supplement the latter was increased to five per cent. per month, that as the law now stands Pawnbrokers can charge six per cent. per annum on all loans, and an additional five per cent. per month for storage and other expenses, making in all sixty-six per cent. per annum on all loans—that in the opinion of the Committee this amount is excessive and calculated to oppress the parties who need small loans, and that the original allowance of two per cent. per month, making in all thirty per cent. per annum, is sufficient, they report therefore an Ordinance repealing said Second Section of the Supplement passed Feb. 16th, 1856.

AN ORDINANCE

Making an appropriation for the purpose of repairing the City Ice Boat.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the Trustees of the City Ice Boat cause the said Boat to be thoroughly repaired and placed in condition for efficient service, such repairs to be made as economically as may be consistent with a due regard to the efficiency of the boat. *Provided*, That the cost thereof shall not exceed fifteen thousand dollars.

SEC. 2. That the sum of fifteen thousand dollars in addition to previous appropriations is hereby made for the use of the Trustees of the City Ice Boat, the

same to be applied to the necessary repairs of said boat, exclusive of the sum now standing to the credit of the Trustees.

SEC. 3. Warrants for the payment of the amount hereby appropriated shall be drawn by the said Trustees, in the usual form.

APPENDIX No. 112.

REPORT OF SPECIAL COMMITTEE.

To the Common Council of the City of Philadelphia.

GENTLEMEN :—The Special Committee appointed to divide the Fourth Division of the Nineteenth Ward, beg leave to submit the accompanying report :

The present boundaries of the Fourth Division of the Nineteenth Ward, extend from Norris street on the south, to Lehigh Avenue on the north, and from the Frankford Road on the east, to the Germantown Road on the west, and in extent about half the size of the old city proper, and contains between four and five thousand inhabitants.

At the October election in 1855, there were five hundred and thirteen votes polled, at the municipal election in May, 1856, four hundred and fifty-eight votes were polled ; at the last election the voters were subjected to much inconvenience and loss of valuable time, as one hour from the opening of the polls until the closing of the same, there was a continuous line of from fifty to seventy-five voters, occupying two hours for each voter to deposit his vote ; at the hour prescribed by law for the polls to close, upwards of sixty voters were in the line, and were disfranchised to all intents for that election. To guard against this flagrant wrong and annoyance to the citizens of all parties, the third section of the Act of Consolidation makes the following wise provision :

“If at any election thereafter there shall be more than four hundred votes polled in any one of the said

divisions, then at some period at least forty days previous to the next succeeding election, the said City Councils shall re-arrange the divisions of the Wards wherein such votes have been polled, and *increase the number*, if necessary."

Your Committee therefore report in favor of making a new Division in said Ward, and in view of the above facts, and in accordance with the Act of Assembly, offer the following Ordinance.

AN ORDINANCE

To change the boundary lines of the Fourth Division of the Nineteenth Ward; to create an additional Division in said Ward, and to establish a place of voting in said additional Division.

WHEREAS, The Fourth Division of the Nineteenth Ward, in the City of Philadelphia, contains about two hundred more voters than any election division was contemplated to have, by the Act of February 2d, 1854, therefore,

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the Fourth Division of the Nineteenth Ward, shall hereafter be bounded as follows:

Beginning at the north-west corner of Frankford Road and Norris street, thence along the Frankford Road to Lehigh Avenue, thence along the Lehigh Avenue to Second street, thence along Second street to Norris street, thence along Norris street to the place of beginning.

SEC. 2. That a new Election Division, to be called the Ninth Division, be, and the same is hereby created in said Nineteenth Ward, to be bounded as follows:

Beginning at the north-west corner of Second and Diamond streets, thence along Second street to Lehigh Avenue, thence along Lehigh Avenue to the Germantown Road, thence along the Germantown Road to Diamond street, thence along Diamond street to the place of beginning; and that the voters of the said Ninth Division shall vote at the house of Michael Masterson, at the corner of Second and York streets.

APPENDIX No. 113.

REPORT OF SPECIAL COMMITTEE.

To the Common Council of the City of Philadelphia.

The Committee appointed to re-arrange the election divisions of Second Ward, beg leave to report, That they have had the matter under consideration, and find that the Third, Seventh, and Ninth Division, each have more than the number of voters required by law, and the excess in the Seventh and Ninth Divisions being greater than can be added to the adjoining ones, without increasing their vote too largely, your Committee therefore recommend the creation of an additional division from parts of the Seventh and Ninth, and such alteration in the Third, as to meet the requirements of the law, your Committee therefore submit the following joint Resolutions, and ask their adoption.

Aug. 28, 1856.

A further supplement to the joint resolutions, approved March 19th, 1855, entitled "Joint Resolutions relative to changing the Election Divisions of the Second Ward, and places of holding the elections."

Resolved, That the boundaries of the election divisions of the Second Ward hereinafter mentioned, shall be as follows, viz. :

The First Division shall include so much of the said Ward as is comprised within the following limits, viz. :

Commencing at Second and Wharton streets, thence along Second to Marion street, along Marion to Jefferson Avenue, along Jefferson Avenue to Washington street, along Washington to the river Delaware, along the river Delaware to Wharton street, and along the latter to the place of beginning.

Third Division.—So much of said Ward as is comprised within the following limits, viz. :

Commencing at Second and Wharton streets, along Second to Marion, along Marion to Jefferson Avenue, along Jefferson Avenue to Carpenter street, along Carpenter street to Fourth, along Fourth to Wharton, and along the latter to the place of beginning.

Seventh Division.—So much of said Ward as is comprised within the following limits, viz. :

Commencing at Washington, or Prime street, and Sixth, along Sixth to Christian, along Christian to Eighth street, along Eighth street to Washington or Prime street, and along the latter to the place of beginning.

Ninth Division.—So much of said Ward as is comprised within the following limits, viz. :

Commencing at Eighth and Christian streets, along Eighth to Washington or Prime streets, along the latter to Ninth, along Ninth to Little Washington street, along the latter to Eleventh, along Eleventh to Carpenter, along Carpenter to Ninth, along Ninth to Christian, along the latter to the place of beginning.

Eleventh Division.—So much of said Ward as is comprised within the following limits, viz. :

Commencing at Ninth and Christian streets, along Christian to Eleventh street, along Eleventh to Carpenter street, along the latter to Ninth street, along Ninth to the place of beginning.

Resolved, That the place of holding the election in the Eleventh Division, shall be at the house of Michael

McMenemen, south-east corner of Tenth and Hall streets.

Resolved, That so much of any law or resolution inconsistent herewith, be and the same is hereby repealed.

APPENDIX No. 119.

REPORT OF COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance, to whom was referred a bill amounting to nine hundred dollars, for two fire-proof safes, purchased by the late Law Department, April 7, 1856, respectfully report,

That they have ascertained this claim to be of the same character of those they have heretofore recommended Councils not to recognise or pay, the safes in question having been purchased by the Law Department without authority, or any appropriation having been previously made by Councils to pay for them.

Your Committee again respectfully urge on Councils the necessity of resisting the payment of all such claims, and adhering firmly to the principle of recognising no debt contracted without authority, by any of the departments or employees of the City, sending all the parties having such claims into the Courts of Justice for their adjudication. This mode of proceeding may appear harsh, but it is not so; and is in reality a simple affair of every day occurrence. An individual is called on to pay a debt contracted by one of his employees, the payment of which he resists, on the ground that he never authorized his employee to contract it. The claimant has his remedy; he resorts to a Court of Justice, where the matter of responsibility is fully tested and decided.

In private life, an agent of another who would disburse the money of his employer in the payment of

debts of a doubtful character, and which he knew his employer never authorized to be made, would be pronounced by all an unfaithful agent. Councils are but the agents of the citizens of Philadelphia, bound by the same moral rules that control all other agents; and there is no reason why the City should be placed in a different position from the individual who employs another to transact his business.

The necessity of adopting the course of action recommended by your Committee, will plainly appear on an examination of the Journals and other records of Councils which show that many thousands of dollars have been unjustly extracted from the Treasury, in payment of debts contracted for purposes of doubtful utility by the Departments, without any authority of law, or direction of Councils: and it is even publicly asserted that parties, without orders from any one connected with the City government, have taken upon themselves to do jobs for the city, depending entirely on their ability and power, by various contrivances, to pass their claim through Councils.

It is urged that the safes in question, were highly useful and necessary for the safe-keeping of the important papers and documents belonging to the City, and that the amount charged for them was small, in consideration of their usefulness. All this is cheerfully admitted, and had the Law Department represented these facts to the Councils before assuming to make the purchase, doubtless the authority would have been given, and an appropriation promptly made. The sum charged being small does not alter the principle. The same reasons and arguments that justify the improper expenditure of one dollar would apply equally if it were for one hundred thousand dollars.

It is evident that all the checks and guards provided in the different Acts of Assembly, and Ordinances in reference to the appropriation and expenditure of money, have not been sufficient to check these irregularities. A firm adherence to the course recommended will, it is believed, effectually put a stop to them in future, by placing every citizen who may have dealings

with the Department on his guard, letting him know distinctly, that just so far these Departments can go, and no farther. Your Committee offer the following resolution, and ask its adoption.

Resolved, That the Committee on Finance be discharged from the further consideration of the subject.

APPENDIX No. 120.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee of Highways, to whom were referred several communications representing the bad condition of Ninth street, at the intersection of Morris street, in the First Ward, respectfully report,

That Ninth street has been graded and paved southward to Morris street, and there is a row of good three story brick houses on the east side of Ninth street, extending from Morris street northward.

The grade on Ninth street for several squares northward descends towards Morris street, and at the intersection thereof the regulated grade of Ninth street is about three feet below the original surface of the ground on Morris street, and the consequence is that at every rain Ninth street is overflowed, and the cellars of the adjoining houses filled with water.

The proper and only remedy for this evil is to grade Morris street. A resolution has passed Councils directing Morris street to be paved, and, therefore, now is the proper time to have it graded.

Your Committee, therefore, submit the following resolution, and recommend its early adoption by Councils.

RESOLUTION

To authorize the grading of Morris street, from Sixth to Tenth street, in the First Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, that the Chief Commissioner of Highways is hereby authorized to proceed with the grading, either by contract or otherwise of the causeway of Morris street from Sixth to Tenth street, in the First Ward, preparatory to paving the same.

RESOLUTION

To authorize the paving and grading of Barlow street, in the First Ward, and Centre street, in the Fifteenth Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, that the owners of property

or a majority thereof fronting on Barlow street, extending from Wharton southward to Reed street, between Fifth and Sixth streets in the First Ward, and on Centre street between Twenty-second and Twenty-third streets, in the Fifteenth Ward, are hereby authorized to pave the same, provided that the City shall be at no expense for the said paving, except at the intersections, and the same shall be done under the supervision of the Highway Department; and provided that the contractors doing said paving, shall enter into an obligation to keep the same in good repair for the space of one year from the time the same is finished, and that the water pipe shall be laid in the said streets before the paving is begun.

Resolved, That whenever the said paving is ready to be proceeded with, the Highway Department is authorized to grade said streets to a level with the curbstone.

APPENDIX No. 122.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways have had under consideration the petition presented some time since, asking for the paving of Lancaster Avenue, in the Twenty-fourth Ward, and thereupon respectfully report,

That Lancaster Avenue was, some three or four years ago, paved from its intersection with Market street westward to the east line of Cramond street, and, at the same time, there was paved another portion of it commencing about five hundred feet further west, at the east line of Morris street, and extending about three hundred and fifty feet.

This last mentioned portion having been laid before the regulated grades of that locality were fixed, is now found to be about two and a half feet above the proper grade, and above the present grade of the Avenue

both east and west of this pavement, which presents an obstacle to the free passage of the street, and has been the cause of two other accidents to travelers.

The owners of property fronting on the street, having paid for this pavement, it is now the duty of the City to lower it, and put it at the regulated grade. And your Committee, therefore, submit the following resolutions, and recommend their adoption.

RESOLUTIONS

To authorize the paving and repairing of portions of Lancaster Avenue in the Twenty-fourth Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, that the owners of property, or a majority thereof, fronting on Lancaster Avenue, between the end of the pebble pavement, at or near the east line of Cramond street or Twenty-third street, and the east line of Moore or Thirty-fourth street, and between the line of the pebble pavement, about two hundred feet east of the intersection of Arch street, and the east line of Margaret or Thirty-sixth street, are hereby authorized to pave the same, provided that the City shall be at no expense for the said paving except at the intersections of streets; and the same shall be done under the supervision of the Highway Department. And provided that the contractors for doing the said paving shall enter into an obligation to keep the same in good repairs for the space of one year from the time the same is finished, and that the water pipe shall be laid in the said street before the paving is begun.

Resolved, That the Highway Department is hereby authorized to re-pave that portion of the said Lancaster

Avenue commencing at the east line of Moore or Thirty-fourth street, and extending westward the distance of about three hundred and fifty feet, where the same has been hitherto paved at too high a grade.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., have had under consideration the foregoing petition, asking that Ninth street from Fitzwater to Catharine, may be repaired, and thereupon respectfully report, That the said street in the locality referred to, has been examined by the Highway Department, and the Chief Commissioner reports that the pavement is in too bad a condition to be repaired, and that nothing short of re-paving will be of any essential service.

The Department also report, that Second street from Queen to Christian street, is in a very bad condition, and requires re-paving.

Your Committee therefore submit the following Resolution, and ask its adoption by Councils.

RESOLUTION

To authorize the re-paving of Ninth street and Second street in the Third Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Highway Department is hereby authorized to proceed, by contract, with the re-paving of Second street, from Queen to Christian

streets, and of Ninth street from Fitzwater to Catharine street, in the Third Ward.

APPENDIX No. 124.

REPORT OF THE COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., have had under consideration the petition of numerous citizens, asking for the grading of Spruce street from Till westward to Mill Creek, in the Twenty-fourth Ward, and there-upon they respectfully report, That Spruce street from Till street westward to Mill Creek, which was opened two or three years since by the owners of property fronting upon it without charge to the County.

It is on a line with and a continuation of Spruce street, east of the Schuylkill.

The owners of property in the vicinity have recently erected at their own expense, a wooden bridge over Mill Creek, so as to have access to the lands to the westward, and there is a petition now before Councils, asking that Spruce street may be opened westward from Mill Creek, a distance of over a mile.

The grading on the space between Till street and Mill Creek, was begun in the Spring of the present year, by the Highway Department, and was broken off by the passage of the Ordinance in May last, ordering all such work to be discontinued.

The distance yet to be graded does not exceed four hundred feet, and according to an estimate made and

submitted by the Surveyor of that District, the whole expense required to put the street in good traveling order, will not exceed three hundred dollars.

The Committee therefore recommend that Councils adopt the following Resolution.

ANDREW MILLER, *Chairman*,
THOS. J. ROBERTS,
WM. ELLIOTT,
JOHN M. FORD.

Aug. 28, 1856.

RESOLUTION

To authorize the grading of Spruce from Till street westward to Mill Creek, in the Twenty-fourth Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Highway Department is hereby authorized to resume and finish the grading of Spruce street from Till street westward to Mill Creek, in the Twenty-fourth Ward, so that the same be placed in good traveling condition for vehicles. Provided the cost shall not exceed \$300.

APPENDIX No. 125.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., to whom was referred the petition of sundry citizens asking for the grading of Union street, in the Twenty-fourth Ward, respectfully report, That the regulated grade of Union street, between Moore and Cramond street, is in some places from two to three feet below the present surface of the ground, and in time of heavy rains the sidewalks which have been dug down, are overflowed, and the cellars of the houses fronting on the street filled with water.

The remedy is to grade the cartway of Union street, so that the water will pass along it into Cramond street, and thence across Market street, into the culvert or drain made along the channel of Beaver Run.

The Commissioner of Highways for that District, estimates that the whole cost of the grading necessary to be done will not exceed two hundred and fifty dollars.

The Committee therefore submit the following Resolution, and recommend its adoption.

ANDREW MILLER, *Chairman*,
JOHN M. FORD,
WM. ELLIOTT,
THOMAS POTTER.

Aug. 28, 1856.

RESOLUTION

To authorize the grading of Union street, between Moore street and Cramond, in the Twenty-fourth Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Department of Highways, &c., is hereby authorized to grade the cartway of Union street, between Moore street and Cramond street, in the Twenty-fourth Ward, to an extent sufficient to permit the water to flow freely over and along the same into and across Market street; Provided, the cost shall not exceed \$250.

APPENDIX No. 126.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., to whom was referred the petition of a number of citizens of the late borough of Manayunk, asking to be protected from the damage caused by frequent overflows of water along Levering street, respectfully report, That the

town of Manayunk being built at the foot and upon the side of a steep hill, will always be in danger of an overflow of water during heavy rains, and will require great care in fixing the grades of its streets, so that the water will be spread and scattered as much as possible on its way down to the Schuylkill.

The overflow complained of in the petition in this case, appears to be caused by closing up the natural channel of a brook or stream which formerly passed over the ground now forming the intersection of Levering and Tower streets. The water being thus thrown out of its ancient and natural channel finds its way down and along Levering street, filling and overflowing cellars; and causing great damage at and during every heavy fall of rain.

The remedy is to construct a culvert or drain, diagonally across the intersection of Levering and Tower streets, of sufficient size to pass the volume of water which accumulates on the hills above Tower street, along its former course into its natural channel, between Levering and Grape streets, and it will thus find its way into the Schuylkill without doing damage to any one.

The Committee estimate that the cost of this culvert or drain will not exceed two hundred dollars and they therefore recommend that Councils adopt the following Resolution.

AND. MILLER, *Chairman*,
WM. ELLIOTT,
JOHN M. FORD,
THOS. J. ROBERTS.

Aug. 28, 1856.

RESOLUTION

To authorize the construction of a culvert or drain across the intersection of Levering and Tower streets, in Manayunk.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Department of Highways are hereby authorized to construct, by contract, a culvert or drain at the intersection of Levering and Tower streets, in Manayunk, in the Twenty-first

Ward. Provided, that the Chief Engineer and Surveyor shall fix and determine the size of the said culvert, and approve of the contract for its construction, if any contract be made, providing the cost shall not exceed \$200.

APPENDIX No. 127.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways have had under consideration the subject of grading Parke street in the north-western portion of the Twenty-second Ward, and therefore they respectfully report, That there has been promised and submitted to the Committee, a certificate from Reuben Lands, Supervisor of the District in which the said Parke street is located, that the same can be graded and made a good passable road for the sum specified in the Resolution which has hitherto passed Councils, viz :

Six hundred and fifty dollars, and this is supported by a certificate from Wm. Lightfoot, Surveyor of that District, wherein he says :

“I fully concur with you that the street can be opened and put in good passable order for \$650, both of which papers are hereunto annexed.”

This is a road that has been opened by regular proceedings in Court, and the owners of the ground over which it passes, surrendered their property without cost to the City for damages.

Under the former rural township government which existed prior to the passage of the Consolidation law this road would long since have been opened by means of the ordinary township taxes. The people in the vicinity of the road pay the full City tax—the same as paid by the built-up portions of the City, and it must become a serious annoyance to them if they cannot with these greatly advanced taxes have such improve-

ments made and such roads opened as they could have had by means of the much smaller tax of their former rural government.

Your Committee therefore recommend the adoption of the following resolution.

RESOLUTION

To construe the Resolution authorizing the grading of Parke street, in the Twenty-second Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia. That the Resolution entitled a Resolution to continue the grading of Parke street in the Twenty-second Ward, approved August 15th, 1856, shall be construed to authorize the Highway Department to proceed with the said grading, and make the said street or road passable for horses and vehicles, and to expend the sum of six hundred and fifty dollars, in the said work.

APPENDIX No. 128.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways to whom was referred the foregoing petitions, asking for the opening of certain streets in the Twenty-fourth Ward, have had the same under consideration, and thereupon respectfully report, That by the seventh section of the first supplement to the Consolidation Law, it is enacted,

That whenever Councils shall deem the public exigency to demand it, they may order by Ordinance any street laid upon any of the public plans of the City to be opened, giving three months notice thereof to the owner, &c.

It is evident from the language of this law, that it was the design and intention of those who made it, that its aid should be invoked in opening streets only in cases of public exigency or emergency.

The danger of using it in all cases, when it is desired to open streets is, that in such proceedings Councils are left entirely in the dark, as to the value of the property to be taken, and damages may be done to an amount beyond the ability of the City Treasury to pay.

The ordinary mode of opening streets, is first to pe-

tion the Court of Quarter Sessions for a jury of view, who inquire and determine that the convenience of the neighborhood and the advanced state of the improvements require that the street should be opened, and when the report of the jury is confirmed by the Court, there follows a petition for injury to assess the damage caused by the opening.

And when the report of the jury to assess the damage is confirmed by the Court, and the moneys to pay the same appropriated by Councils, and the amount paid, the street can be opened and put in traveling order by the Department of Highways.

The advantages of this mode are, that if there be any adverse parties whose claim for damages will be heavy and they see but little prospect of obtaining them, or from any other cause, they get notice of all the proceedings, and can present their objections as well to the jury of view as to the Court, and prevent the opening if they make it appear to either the Court or jury that the proceedings are premature.

But in the proceedings under the law, the aid of which the petitioners in this case seek to invoke, owing to the multifarious duties of the Highway Department, it is very uncertain whether any of the parties interested will get any notice, and an Ordinance may be passed directing a street to be opened, taking away the houses and grounds of owners who have no knowledge or information of any proceedings until they find their property taken and applied to public use.

And it is evident that a jury coming to assess damage for property taken in this way, would be disposed to award a larger amount than in the ordinary cases, where the owner had full notice of the proceedings, for the argument of the owner would be, the city has taken my property, and applied it to public use without my consent, and without giving me any notice of their intention to do so. The City has taken it for her own benefit and advantage, and not for mine; therefore, they ought to pay its full value.

These petitions are numerously signed. That for Spruce street represents that they are the owners of

the property through which the street will pass. If they mean by this that they are *all* the owners, they have no occasion to apply any where to have the street opened, for they can open it themselves, whenever they please, through their own grounds.

That for Fifty-second street, sets forth that the petitioners represent three-fourths of the property through which the said street will pass, and is signed by forty-nine citizens.

But there is nothing in the petitions, or in the facts that have been communicated to the Committee, or in any of the circumstances connected with the streets which they ask shall be opened, that in the opinion of your Committee would warrant them in assuring Councils, that such opening is required by any public exigency.

And inasmuch as it is the express provision of the law in question, that Councils may pass Ordinances directing streets to be opened, only in cases wherein they "shall deem the public exigency to demand it," your Committee recommend the adoption of the following resolution.

Resolved, That the Committee on Highways be discharged from the further consideration of the petitions for opening Spruce street and Fifty-second street in the Twenty-fourth Ward, and that the petitioners be recommended to adopt the usual and ordinary proceedings in Court to open the same.

ANDREW MILLER, *Chairman*,

APPENDIX No. 129.

REPORT OF THE COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways have had under con-

sideration the foregoing Ordinance, entitled "An Ordinance to provide for the opening of certain streets," which passed Select Council on the 17th day of July, and was referred to your Committee on the same day, and they respectfully suggest the following amendments:

1st. Amend the title so that it shall read "An Ordinance to provide for the opening of McKean street, and other streets in the First Ward."

They suggest this because there are several ordinances bearing the same title, and it will be difficult hereafter to find in the books the precise one sought for.

2. Strike out of the second line of Section 1, the words "Fifth street from McKean to Mifflin street."

It is notorious that Fifth street has been opened, and in use for many years at this point, and the Committee suppose this has been introduced by mistake.

3. Add in the fourth line of the first Section after the word "street," the words "in the first ward."

4. Insert in the beginning of the second Section the words "As soon as the owners of lands, over which the said streets will pass, will release and surrender all claims upon the City for damages."

5. Strike out all after the word "grade," in the third line of Section 2d, and add the words "Fifth street from Moore street southward to the Moyamensing road, preparatory to paving the same."

The City ought not to become liable to pay any damage for opening these streets, because it is done at the request of the owners of the land there, who must be benefitted by the opening, or they would not request it.

And a resolution has passed Councils authorizing the paving of Fifth street over the space designated to be graded, and that is about as much grading as the City can afford to do in that locality, at the present time.

With these amendments, the Committee recommend the passage of the Ordinance.

AN ORDINANCE

To provide for the opening of McKean street, and other streets in the First Ward.

Whereas, by authority of a Resolution of Councils approved September 20, 1855, entitled "A Resolution to authorize notice to be given of the intended opening of certain streets," notice was given on the 12th of November, 1855, to the owners of the ground through and over which Fifth street from McKean to Mifflin street, Sixth street from Moore to McKean street, McKean street from Fifth to Sixth street, Mifflin street from Fifth to Sixth street, as the same are laid down on the plan of the Southern part of Moyamensing, dated June 24, 1842, that at the expiration of three months from said notice, Council would order the said streets within the said limits to be opened for public use: and the said time having elapsed, Therefore,

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That Sixth street from Moore to McKean street, McKean street from Fifth to Sixth street, Mifflin street from Fifth to Sixth street, in the First Ward, as the same are laid down on the plan of the Southern part of Moyamensing, dated June 24, 1842, be and the same are hereby declared to be opened for public use, as streets or highways.

SEC. 2. As soon as the owners of lands over which the said streets will pass, will release and surrender all claims for damages, the Department of Highways, Bridges, Sewers and Cleansing the City, is hereby authorized to cause all obstructions within the limits of the said streets to be removed, and to grade Fifth street from Moore street southward to Moyamensing road, preparatory to paving the same.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., to whom was referred the petition asking for the grading of Manatawna street, in the Twenty-first Ward, have considered the same, and thereupon respectfully report, That this is a new road opened across a portion of the upper part of the Twenty-first Ward by regular proceedings in Court, and was being graded under the orders of the Highway Department until the work was stopped by the passage of the Ordinance of May 17, 1856.

It is proposed to grade it to the extent only to make it passable for vehicles, as country roads usually are graded; and the said Committee that made the examination estimate that the whole sum required to finish the work will not exceed three hundred dollars. The

Committee, therefore, recommend to Councils the adoption of the following Resolution.

RESOLUTION.

Resolved, By the Select and Common Councils of the City of Philadelphia, that the Highway Department is hereby authorized to proceed with, continue and finish the grading on Manatawna street, in the upper part of the Twenty-first Ward, so that the same be made passable for horses and vehicles; the sum to be expended not to exceed three hundred dollars.

APPENDIX No. 139.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee of Highways, &c., have had under consideration petitions for re-paving Mechanic street, in the Sixteenth Ward, Relief street, in the Fifth Ward, and Stanley street in the Fourth Ward, and therefore, they respectfully report, That the cartway of each of the said streets is only of sufficient width to admit the passage of one vehicle, and because of the wheels always running in the same track, the pavements are soon worn out, and almost constant repairing is required.

And the Committee are, therefore, of the opinion that economy suggests that all such streets should be paved with tramways in each gutter. This kind of pavement is more costly at first, but its much greater durability renders it far less costly in a period of twenty or twenty-five years, than the ordinary pebble pavement.

The Committee, therefore, recommend to Councils the adoption of the following Resolutions.

Respectfully submitted by

ANDREW MILLER, *Chairman*,
THOMAS POTTER,
J. G. SORVER,
WM. ELLIOTT,
THOS. J. ROBERTS.

Sept. 4, 1856.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Department of Highways is hereby authorized to proceed by contract, to re-pave with tramway gutter stone, Mechanic street from Culvert to George street, in the Sixteenth Ward, Relief street from Front to Second street, in the Fifth Ward, and Stanley street from Third to Fourth street, in the Fourth Ward.

Resolved, That should the said Department deem it necessary in the re-paving of the said streets, they are hereby authorized to reduce the cartway of each of the said streets to such width as they may deem expedient; and in making such reduction, an equal portion shall be taken from each side.

APPENDIX No. 140.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, to whom was referred a Supplimentary Ordinance, passed by Select Council, modifying an Ordinance approved May 17th, 1856, report, That they have given the subject a careful examination, and have agreed for reasons as follows, to report a supplement in place of the supplement of Select Council, which they think more full and expressive.

The Ordinance of the seventeenth of May, 1856, was intended to prevent labor being done, or materials being purchased for any of the Departments, unless the authority to contract for such labor and materials

was given by Ordinance of Council ; except the labor and materials necessary to make such repairs as was rendered necessary by accident or unforeseen emergency.

There is also a joint Resolution, approved May 31, 1856, intended to explain and enforce the Ordinance which directs the City Controller to withhold his approval from all Warrants drawn by the City Commissioners, and the Department of Highways, for supplies contracted for in violation of the Ordinance of May 17th, 1856.

In obedience to this Resolution, the Controller has refused to approve warrants drawn by the Chief Commissioner on Highways, unless the Chief Commissioner would vouch that the bills were contracted for under an Ordinance of Council, or in consequence of an accident, or an unforeseen emergency.

It was impossible that this could be done in some cases. The late Controller and the late head of the Highway Department had put a different construction on the law ; the Highway Department had assumed to do repairs made necessary by ordinary wear and tear, as well as that made necessary by accident and emergency ; and the late and the present Controller up to a certain date had approved warrants drawn for such repairs.

When the present Chief Commissioner of Highways came into office, he found this construction of the law in practice. He made no change in the practice of the Department in this regard, but continued to make the repairs rendered necessary by ordinary wear and tear, with the approbation of the Committee on Highways, of both Chambers.

The present Controller, however, on a close examination of the law, felt himself called upon to withhold his approval from all warrants drawn by the Chief Commissioner of Highways for repairs made otherwise than where an accident or emergency called for them. This state of things is annoying to the Controller and the Chief Commissioner of Highways, and is making much dissatisfaction on the part of those

who have furnished supplies to the Highway Department; it is to relieve the state of embarrassment occasioned by this state of things that the Supplement annexed is proposed. The Committee believe it will not impair the force of the wise restrictions of the Ordinance in question.

The Department of Highways will still be restricted from doing any new work. It cannot build a bridge or culvert, pave or grade a street, or do any other work but that which is rendered necessary by ordinary wear and tear, or by accident or emergency. Prompt repairs to bridges, culverts, and highways of the City, are indispensable; and this promptness of repairs can only be secured by leaving it in charge of the Highway Department.

If the action of Councils be required before repairs can be made to bridges, sewers and highways, the public interests will suffer, for much time must necessarily elapse before the concurrent action of Councils can be had.

The proper time to repair a highway is before its broken condition renders it unfit for public travel; the proper time to make a repair to a culvert is previous to a break in it, occasioning an overflow, doing damage to private property; and the proper time to make a repair to a bridge is before its rotten planks have plunged the horse and rider into the stream.

The Chief Commissioner of Highways should be a man of intelligence and strict integrity; undue restraint is unnecessary. When such men are at the head of Departments they are a law to themselves. Undue restraint is not only unnecessary in such cases, it is annoying and embarrassing, and will prove detrimental to the public service.

It is also an obstruction in the way of procuring the best men for these positions; a man with a nice sense of honor will not put himself forward for a situation where he is trammelled by being watched and goaded; the unscrupulous who can always find an opportunity to evade the law, and set aside its most stringent requirements, will fill the situations of trust and respon-

sibility where such a system of legislation is adopted.

For these reasons, and others that might be urged, your Committee believe the public interest will be promoted by adopting this Supplement.

A SUPPLEMENT

To an Ordinance entitled "An Ordinance to forbid that any work shall be done without the authority of Councils," approved May 17, 1856.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That so much of the Ordinance to which this is a Supplement, as prohibits the Department of Highways from employing laborers and others, and purchasing the materials required, in order to keep in proper repair all streets, bridges and culverts, or for the cleansing of the streets, or that prohibits said Department from making the necessary purchases and contracts for incidental office expenses be, and the same is hereby repealed, and the said Department shall have authority to employ such laborers and others, and make such purchases as may be necessary to keep in good condition all the streets, bridges and culverts, belonging to the City, whether such repairs, or cleansing, or purchases may be rendered necessary by accident, unforeseen emergency, or by ordinary wear and tear.

SECTION 2. The Controller be, and he is hereby directed to approve all bills for labor or materials furnished for repairs of streets, bridges, or culverts, for the cleansing of streets, or for the incidental office expenses which may be hereafter, or have been contracted since, by the Department of Highways.

REPORT OF COMMITTEE ON HEALTH.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Health, to whom was referred a communication from the Board of Health, under date of August 28th, in reference to the location of the proposed City Hospital, make the following report:

The location of a Hospital is at all times a subject of much interest and consequence to all classes of our citizens, particularly so in the present instance. It is well known that there are and will be objections by the residents of any neighborhood in which it may be desirable to locate it, from the fact that it is regarded by many to be of a pestilential character, the

obnoxious effects of which we hope and think is more in the imagination than real. It should be in a situation, however, as little objectionable on that account as possible. At the same time, proper regard and consideration should also be had for those unfortunate ones for whose especial benefit it is to be erected.

First—As to convenience for the removal of patients thereto, care should be taken to have it as near and as easy of access as prudence will allow.

Secondly—It should be in a healthy and salubrious locality, looking to the recovery and convalescence of its patients, and also to the safety and comfort of all who may have charge of it, or be employed therein; thus making it really what it professedly is and ought to be—an institution of benevolence and usefulness.

In view of the importance of the subject, the Committee beg to offer the following Resolution, and ask its adoption:—

Resolved, That the Committee on Health of each Chamber of Councils, be directed to confer with the Sanitary Committee of the Board of Health, in reference to the selection of a suitable site for the erection of the City Hospital, and report to Councils.

APPENDIX No. 161.

REPORT OF COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance, to whom was referred the application of the President of the "Board of Inspectors of the Philadelphia County Prison," for an additional appropriation of \$20,500 for the current year, respectfully report, That in the application referred to, it is stated "That the present Board of Inspectors, on coming into office, (July, 1856,) found an exhausted treasury, and feel compelled to ask for \$20,500, to carry them through the year." As the late Councils had made an appropriation for the entire year of 1856, which they believed to be sufficient, your Committee conceive it to be their duty to enquire how the treasury became "exhausted" in six months. In the course of their investigations, they discovered what they believe to be one of the causes of this exhaustion, and which they deem it to be their duty to lay before Councils and the public; for this purpose they

have procured at the prison an account, of which the following is a copy, viz :

“The expenses of the Inspectors of the Prison from July 1, 1855, to July 7, 1856.

For Inspector's Table, -	-	-	\$2,413 67
“ Segars and Tobacco, -	-	-	2,422 01
“ Brandy and Wine, -	-	-	447 25
“ Stationery, -	-	-	192 00
“ Omnibus Tickets, -	-	-	1,064 00

\$6,538 93

Of this amount about two thousand dollars were drawn from the City Treasury, and the balance, four thousand, five hundred and thirty-eight dollars and ninety-three cents, from the treasury of the Prison.”

The items composing the above charge of two thousand, four hundred and thirteen dollars and sixty-seven cents, for the Inspectors' table, are curious; among them figure largely soft-shell almonds, ice-cream and all the delicacies of the season. Segars are charged at from thirty dollars to forty dollars per thousand, and the large number paid for, about sixty-five thousand in a year, or twelve hundred and fifty per week, precludes the idea that they were consumed at the prison. The omnibus tickets charged for were not exclusively of the line leading to the prison. In the course of their investigations, your Committee discovered the following bill, paid from the Treasury of the Prison, viz :

Philadelphia, August 21, 1855.

Mr. E. E. Jones, (one of the late Inspectors.)

Bought of Wm. McKeever,	
1 quarter cask O K Brandy, 42 galls., \$7,	\$294 00
Porterage, - - - -	1 25

\$295 25

It appears that this feasting, drinking, and smoking was not confined within the walls of the Prison, for, in addition to the above, there is a considerable amount charged to a celebrated epicurean Eating house on Chestnut street, where it seems these persons were in the habit of resorting and feasting at the

public expense. Your Committee endeavored to obtain the bills for these feasts and banquets, but they were not to be found at the Prison; they, however, succeeded in procuring four of them from another source, of which the following are copies:—

100 Segars, at 6 cents,	6 00
1 Doz. Mineral Water,	1 50
	<hr/> 37,50

Some of these expenditures have occurred since the passage of the Act of Assembly, approved May 13, 1856, the 25th section of which is as follows, viz :

"That it shall not be lawful for any Department or Committee of said City, or the officers thereof, or for the Prison Inspectors, to draw any moneys out of the City Treasury, or to use any savings, or the proceeds of the sales of any work or materials, for or in any office, department or prison, or any revenues whatsoever thereof, for any entertainment, eating, drinking, or smoking, furnished to any members or officers of said City, corporation departments or offices thereof, or of said Prison, but shall pay the whole of the said moneys into the City Treasury," &c.

Under this Act of Assembly it is a question whether the persons guilty of its violation cannot be reached, and made to refund to the City a portion of the sum expended in this profligate and shameful manner.

The present highly respectable Board of Inspectors, eleven in number, were appointed under the Act of Assembly above quoted, by the Supreme and other Courts, and entered on their duties the first Monday of July last. Under their administration, an entirely different order of things prevail. Immediately upon entering on their duties, they commenced the work of reformation, stopped off all feasting, drinking and smoking, and from that time forth there has been no expenditure of the public money for any thing of the kind, and perhaps for the first time in the history of the County Prison, the account settled for the month of August, contains no charge against that mysterious item of appropriation—"Incidentals."

Among other important reforms, the present Board discharged a number of useless officers and employees, who seem to have filled places created merely for their accommodation, by which there will be a saving to

the City, in salaries alone, of near \$4,000, without in the least interfering with the good government and efficiency of the Prison. The President of the Board has expressed the opinion, that there can be saved to the City, annually, from twenty to forty thousand dollars, by judicious management and stopping off the shameful abuses that have heretofore existed.

Your Committee congratulate Councils and the taxpayers of the City, that a new system in the government of the Prison is inaugurated, and that it is now under the charge of gentlemen who would scorn the idea of sponging on that portion of the public purse committed to their care, in a round of frolicking, drinking and smoking. To satisfy Councils and the public on this subject, it is only necessary to state that the following highly respectable citizens compose the present Board of Inspectors, viz:—M. W. Baldwin, John B. Biddle, M. D., Stephen Colwell, Wm. B. Foster, John Foulkrod, Isaac B. Garrigues, Paul B. Goddard, M. D., Wm. B. Johnston, J. Rodman Paul, M. D., Evans Rogers, and Wm. Shippen, M. D. There can be no apprehension that such a Board as this will ever betray or abuse a trust confided to it.

Your Committee, after diligently investigating the subject, have unanimously arrived at the conclusion, that an additional appropriation of \$15,000 for the year 1856, is absolutely necessary. They, therefore, submit an Ordinance for that purpose, and also a Resolution, transferring certain items of appropriation. All of which is respectfully submitted.

AN ORDINANCE

To make an additional appropriation to the Inspectors of the County Prison, for the year one thousand eight hundred and fifty-six.

SECTION 1. The Select and Common Councils of the

City of Philadelphia do ordain, That the sum of Fifteen Thousand Dollars be, and the same is hereby appropriated to the Inspectors of the County Prison, for the purpose of defraying the expenses of the County Prison for the year eighteen hundred and fifty-six, the same to be applied as follows:—

For supplies to the Prison for subsistence of prisoners, and other supplies, the sum of fourteen thousand eight hundred and forty-five dollars.

For fuel, the sum of one hundred and fifty-five dollars.

SECTION 2. Warrants for the payment of the said appropriation shall be drawn in the manner and form, and with the requisites set forth in the second and third Sections of an Ordinance approved September 7th, 1854, entitled “An Ordinance to make an appropriation for the use of the Inspectors of the Prison.”

RESOLUTION

To change certain items of appropriation to the Inspectors of the County Prison.

Resolved, That so much of the appropriation as was made to the Inspectors of the Prison, on the eleventh day of March last, as shall amount to twenty six hundred and fifty dollars, be transferred as follows:

From salaries to fuel account, the sum of fifteen hundred dollars.

From salaries to gas account, the sum of two hundred and fifty dollars.

From clothing and bedding to repairs to Prison buildings, the sum of nine hundred dollars.

REPORT OF COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance, to whom was referred an Ordinance from the Select Council, entitled “An Ordinance to make an appropriation to pay a certain

balance due upon a contract for the construction of the Water Works in West Philadelphia," respectfully report the same as committed, and recommend its adoption.

AN ORDINANCE

To make an appropriation to pay a certain balance due upon a contract for the construction of the Water Works in West Philadelphia.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the sum of sixteen thousand dollars be, and the same is hereby appropriated to the Department for supplying the City with water, for the purpose of paying in full to Messrs. Berkinbine & Trotter the balance due them for the construction of the West Philadelphia Water Works.

SEC. 2. Warrants for the said appropriation shall be drawn by the Chief Engineer of the Water Department in the manner and form, and with the requisites set forth in existing Ordinances, authorizing the drawing of money from the City Treasury.

PHILADELPHIA, Sept. 2, 1856.

Samuel Ogden, Esq., Chief Engineer of Water Works.

DEAR SIR:—In reply to your inquiry, I state that in November, 1855, the Watering Committee, in accordance with the report of Chief Engineer Graeff, to whom the matter had been referred, finally settled the account of Berkinbine & Trotter, finding due to said Berkinbine & Trotter the sum of \$30,587 26, of which the sum of \$14,587 26 was then paid, leaving the sum of \$16,000 to be paid to them at the expiration of the year, during which they were to keep the works running. It appears, by a Resolution passed by the Watering Committee on December 4, 1855, that this year would terminate on September 1, 1856, and I annex

hereto a certificate to the same effect from Frederick Graeff, Esq., the former Chief Engineer, which he has addressed to me.

Very respectfully, &c.

WM. A. PORTER,

City Solicitor.

PHILADELPHIA, Sept. —, 1856.

George L. Ashmead, Esq.,

DEAR SIR:—By the terms of the contract with Messrs. Berkinbine & Trotter, for the construction of Water Works in Twenty-fourth Ward, they were bound to keep the engines in order, supply fuel, &c., and properly supply the Ward with water for a period of one year. A sum of sixteen thousand dollars was to be retained as security for the performance of said work. The engines were started August 22, 1855; but they did not commence fairly to supply the Ward until September 1, 1855. The year during which Messrs. Berkinbine & Trotter were bound to run the engines per contract, therefore, expired September 1, 1856. As they have complied with their part of the contract, they are now entitled to receive the amount retained as security.

Very respectfully,

FREDERICK GRAEFF.

APPENDIX No. 163.

REPORT OF COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance, to whom was referred the following Resolution, to wit:

Resolved, That the Committee on Finance be, and they are hereby directed to take into consideration the present financial condition of the City, and prepare and report as early as possible to this Chamber, some measure by which the present state of the City Finances may be improved. have had the same under

consideration, and submit the following report, That in compliance with the first part of the Resolution, they applied to the City Controller to give them a tabular statement of the finances of the City, up to the 1st of September, 1856, which he cheerfully gave, and which your Committee hereunto append as part of this report; they however deem it proper to state that his statement does not embrace the entire deficit, from the fact that he has not made any allowance or abatement from the taxes to be collected for the years 1854, 1855, and 1856. Neither has he included several items of indebtedness and receipts, the balance of which your Committee think should be provided for, and are hereunto annexed, viz.:

Deficit as per Controller's statement,	\$470,277 64
“ Brown Property,	79,500 00
“ Birkenbine & Trotter's Claim,	16,000 00
“ Judgment Schuylkill Navigation Co.	13,000 00
“ Interest on Outstanding Warrants,	30,000 00
“ In. on Funded Debt not called for,	30,000 00
“ Principal do. do.	38,622 09
“ to meet Old Claims,	10,000 00
“ Loan to erect Chesnut street Bridge, used for City purposes,	100,000 00
“ Allowance for Tax Duplicate, 1854,	125,000 00
“ “ “ 1855,	100,000 00
“ “ “ 1856,	98,000 00

Making a total of \$1,110,399 73

From which your Committee deduct

Amount paid to Sinking
Fund, \$134,276 47

Dividend Penn. R. R. 170,000 00

“ North-Western “ 22,500 00

“ Interest on Gas Loan, 13,500 00

“ In. on new Gas Loan, 7,500 00—\$347,776 47

By adding and subtracting the above

items, the deficit is 762,623 26

This sum your Committee believe will cover the existing indebtedness or floating debt of the City unprovided for; but your Committee are aware that there

are applications now before Councils from the Guardians of the Poor, Inspectors of the County Prison, and others, for additional appropriations, and without expressing any opinion in reference to these extra appropriations, deem it prudent to bring them to your notice, that you may act understandingly in the premises.

With this brief, but we trust comprehensive statement as to the financial condition of the City, your Committee will now proceed to notice the last and most important part of the Resolution; "to report some measure by which the present state of the City finances may be improved;" this is a question of grave import, and one involving careful investigation; your Committee can therefore only suggest the remedy presenting itself to their minds, leaving it to the calm deliberation of Councils to accept or reject their recommendations.

First. Your Committee urge the immediate sale of all the Real Estate belonging to the City that is not required for public use, which by the Act of Assembly of the 21st of April, A. D. 1855, entitled "A Supplement to the Act Consolidating the City," is authorized to be sold to pay debts, and which is demanded by every consideration of wise economy, sound policy and the public good.

Second. Your Committee deem it of the utmost importance, that Councils should scrutinize closely every bill brought before them for additional appropriations, believing as they do, that legislation of this nature has to a great extent caused our present financial condition.

Third and last. Your Committee are of the opinion that no system of finance should be permitted that looks to loans to meet the ordinary expenses of the Government; still, as the deficit is a legacy bequeathed by Consolidation, and matters connected therewith, together with an insufficient rate of taxation the first year after Consolidation, deem it proper to recommend to Councils the propriety of funding the present deficit. They, therefore, submit the following

Ordinance, with a Resolution annexed. All of which is respectfully submitted.

Resolved, That the Clerk be authorized and required to publish in two daily newspapers of this City, daily for four weeks, the Ordinance presented to the Common Council, at a stated meeting thereof held on the 25th day of September, 1856, entitled, "An Ordinance to authorize a Loan to pay claims against the Corporation;" and the said Clerk, at the stated meeting of Councils next after the expiration of four weeks from the first day of said publication, shall present to this Council one of each of the said newspapers for every day in which the same shall have been made.

HENRY J. BOLLER,
ABM. BAKER,
JOSHUA T. OWEN.

Sept. 24, 1856.

AN ORDINANCE

To authorize a Loan to pay Claims against the Corporation.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain. That the Mayor of the City of Philadelphia be, and he hereby is authorized to borrow, at not less than par, on the credit of the city corporation, from time to time, as may be required by the City Treasurer, such sums of money as may be necessary to pay claims now existing against the said corporation, not exceeding in the whole the sum of Eight Hundred Thousand Dollars, for which interest, not to exceed the rate of six per cent. per annum, shall be paid half-yearly, on the first day of January and July, at the office of the City Treasurer. The principal of said loan shall be payable and paid at the expiration of thirty years from the date of the same, and not before, without the consent of the holders thereof, and certificates therefor, in the usual form of certificates of city loan, shall be issued in such

amounts as the lenders may require, but not for any fractional part of one hundred dollars, or, if required, in amounts of five hundred or one thousand dollars; and it shall be expressed in said certificates that the said loan therein mentioned, and the interest thereof, are payable free from all taxes.

SECTION 2. Whenever any loan shall be made by virtue hereof, there shall be, by force of this Ordinance, annually appropriated, out of the income of the corporate estates, and from the sum raised by taxation, a sum sufficient to pay the interest on said certificates, and the further sum of three-tenths of one per centum on the par value of such certificates so issued, shall be appropriated quarterly, out of said income and taxes, to a sinking fund, which fund and its accumulations are hereby specifically pledged for the redemption and payment of said certificates.

REPORT OF THE CITY TREASURER.

To the Common Council of the City of Philadelphia.

DEPARTMENT OF CITY TREASURER, }
Philadelphia, Sept. 25th, 1856. }

GENTLEMEN:—Owing to the misapprehension that exists in the community, and the erroneous reports in circulation, in relation to the financial condition of this Department of the City Government, I deem it my duty to present to your Honorable Body the following statement, showing the total amount of Receipts and Payments of this Department, from January 1st, 1856, to September 22d, 1856, from which you will perceive the balance in my hands, applicable to the payment of the current expenses of the City, to be Twenty-nine hundred and sixteen dollars and twenty cents, (2,916 20,) which sum is entirely inadequate to meet the demands daily presented for liquidation, and I therefore most respectfully request Councils to provide the necessary funds to meet all legal demands presented, as in the embarrassing condition of the Treasury, I find it *utterly impossible* to render satisfaction to the people.

Very respectfully,

I remain, yours, &c.,

F. KNOX MORTON,

City Treasurer.

APPENDIX No. 165.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Highways, &c., to whom was referred the petition of owners of property on Lindsay street, have examined the same, and are of opinion said street should be paved; they would therefore submit the accompanying Resolution, with a recommendation that it be adopted.

Respectfully submitted.

ANDREW MILLER, *Chairman*,
THOMAS POTTER,
THOMAS J. ROBERTS,
WILLIAM ELLIOTT,
J. G. SORVER.

Sept. 25, 1856.

RESOLUTION.

Resolved, That the owners of property or a majority thereof, on Lindsay street, between Shippen and Fitz-

water streets, and Sixteenth and Seventeenth streets, in the First Ward, be and they are hereby authorized to pave the same. *Provided*, Said paving shall be done under the supervision of the Department of Highways, and that the parties contracting to do the same, enter into an agreement to keep said streets in good order, for at least twelve months from the time it is opened to public use. And provided further, That the water pipes be first laid therein, and that the City shall not be at any expense for the paving, except for the intersections.

REPORT OF THE COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways do report the annexed Ordinance to provide for setting the curbstone and paving the footways and gutters of Bridge street, in the late Borough of Bridesburg, in the Twenty-third Ward, and recommend its adoption.

Sept. 25, 1856.

AN ORDINANCE

To provide for setting the curbstone and paving the gutters and footways of Bridge street, in the late Borough of Bridesburg, in the Twenty-third Ward.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the owners of property fronting on Bridge street, in Bridesburg, in the Twenty-third Ward, from the wharf or landing on the Delaware river, westward to the Bridge over Frankford Creek, are hereby required to set curbstone and pave the footways and gutters in front of their respective properties.

SEC. 2. The said curbstone shall be of such character and dimensions as the Board of Surveyors may determine. The said footways shall be paved with brick or flat stone, as each owner may prefer, and shall be of the breadth of at least four feet; the gutters shall be paved with the pebble or cobble stones ordinarily used for paving the cartways of streets, to the breadth of two feet six inches from the outside of the curbstone.

SEC. 3. The Board of Surveyors shall determine the width of the footways of the said Bridge street, and in what part thereof the pavement of four feet in breadth shall be laid; and shall also (if the same has not been

heretofore done) fix and determine the grade of the said street, and the height of the curbstone.

SEC. 4. If any of the owners of property fronting on said Bridge street, shall neglect or refuse to set the curb and pave the footways and gutters in front of his, her or their property, as directed by this Ordinance, for the space of two months after notice from the Highway Department to do so, it shall be lawful for the said Department to direct the same to be done by some competent person, and any person doing such work under the authority of the Highway Department, shall be authorized and empowered to collect and recover from the property or the owners thereof, in front of which such work has been done, the cost and charges of the labor and materials done and used in such work, in like manner and in all respects as if the said curbing and paving had been done by and the cost and charges thereof had enured to the said City.

AN ORDINANCE

For the construction of a certain Drain on Nectarine street.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the Department of Highways be authorized and is hereby directed to

lay a vitrified clay drain pipe or culvert in the line of Nectarine street, from Ninth street, to connect with the sewer on the line of Tenth street, said pipe or culvert to be laid in accordance with lines and levels furnished by the Department of Surveys. *Provided*, The City of Philadelphia shall not be at the expense thereof.

REPORT OF THE COMMITTEE ON SURVEYS.

To the Common Council of the City of Philadelphia.

GENTLEMEN :—The Chief Engineer and Surveyor, to whom was referred the petition of citizens, asking attention to the dangerous condition of the unfinished sewer on Huntingdon street, near to Gunner's Run bridge, has made report hereunto annexed, in accordance with which your Committee respectfully ask the adoption of the following Resolution:—

Resolved, That the Department of Highways be directed to erect a protection fence around the upper end of the unfinished sewer on Huntingdon street, and that its connection with Gunner's Run be kept free to the tide.

SAMUEL P. DUTTON,
SPENCER ROBERTS.

Sept. 25, 1856.

PHILADELPHIA, July 19th, 1856.

George Northrop, Esq., Chairman of Committee on Surveys and Regulations of Common Council,

Dear Sir,—The petition of citizens on Huntingdon street, referred to the Chief Engineer and Surveyor, has been attended to, and beg leave to state, That the culvert complained of has been in statu quo ever since Councils directed the cessation of all public work, not

imperative, which leaves a ditch some fifteen feet wide, ten feet deep, and one hundred and twenty-five feet long, open, upon the edge of which stand two houses, both of which seem to be tenanted—the dirt thrown up from the culvert, has been as far as practicable removed from their entrances—so that the ingress to the houses is not interfered with. There is some water lying in the ditch, but it can be made to flow with the tide with but little attention.

The street there is neither curbed nor paved, and it is but a short distance from the Gunner's Run Bridge, the approach to which is not filled up, the travel therefore is not interfered with—no improvement can be made other than fencing the ditch around and opening the end for tide flow, until directions are given for a continuance of the work, and a fence would require to be renewed daily, in all probability, yet placing it there might prevent any liability on the part of the City for damages for injury, &c., and is worthy your consideration; if so, a Resolution authorizing the Department of Highways to have it erected, and the opening to the Canal cleaned out, so that the ditch may empty at low tide, would be desirable.

Very respectfully,

STRICKLAND KNEASS,
Chief Engineer and Surveyor.

APPENDIX No. 171.

REPORT OF THE COMMITTEE ON SURVEYS.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Department of Surveys having examined the locality named in the annexed petition, make report which is also hereunto annexed,—in conformity with which your Committee respectfully offer the following Resolution, and ask its adoption:

Resolved, That the Highway Department is authorized and hereby directed to lay a vitrified pipe drain,

on the line of Race street, from Sixteenth to Eighteenth street, in accordance with plans and specifications, furnished by the Department of Surveys. *Provided*, Said work shall not be commenced until sufficient amount to cover the expenses thereof, shall be deposited to the credit of the City by those interested therein.

JOSEPH GEISS,
SAMUEL P. DUTTON,
SPENCER ROBERTS.

Sept. 24, 1856.

PHILADELPHIA, August 25, 1856.

To the President and Board of Surveyors:

GENTLEMEN:—Your Committee appointed for the purpose of reporting upon the necessities of a Culvert on Race street from Sixteenth to Eighteenth street, as asked for by petition to Councils, hereby report, That on account of some imperfection of the drainage at Nineteenth and Cherry streets, it is necessary that as much drainage as possible be diverted from that line and carried into the Arch street Sewer through other channels. We therefore recommend the construction of a small lateral culvert on Seventeenth street, from Arch to Race street, by which the flow from ten acres will be diverted, and pipe drains on Race street may be laid each way connecting therewith.

It is very desirable that this, with a number of other lateral culverts, applications for which are before Councils, should be constructed at the earliest moment; but their delay may not preclude the possibility of the petitioners now before us laying the drain asked for, as the levels can be so arranged as to make use of the new culvert on Seventeenth street, when erected, by at least that portion of the intended line east of Seventeenth street. We therefore offer the following Resolution:—

Resolved, That we recommend a vitrified pipe drain be laid on the line of Race street, from Sixteenth to

Eighteenth street, in accordance with plans and levels furnished by the Department of Surveys.

SPENCER BONSALE,

JAMES P. DAVIS.

REPORT OF THE COMMITTEE ON SURVEYS.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Department of Surveys having examined the locality mentioned in the annexed petition, and found that George street, between Nineteenth and Beach streets, requires the drainage petitioned for, respectfully report the following Resolution:

Resolved, That the Highway Department is authorized and hereby directed to construct a Culvert or Drain, in accordance to plans and specifications furnished by the Department of Surveys, along George street, between Nineteenth street and Beach street. *Provided*, Said work shall not be commenced until sufficient amount to cover the expenses thereof shall be deposited to the credit of the City by those interested therein.

PHILADELPHIA, September 13, 1856.

To the President and Board of Surveyors of the City of Philadelphia:

GENTLEMEN:—The undersigned Committee, appointed on the 1st inst., to examine and report upon a petition referred to Board of Surveyors by Councils, asking

for a "drain for water" in George street, between Nineteenth and Beach streets, have examined the locality, and respectfully present the following, That the system of drainage arranged for that locality, intended to carry the flow east of Twenty-second street into the Arch street Sewer, but as the George street drainage is more urgent than that upon either of the north and south streets, a drainage pipe introduced in George street will save one square on each side of the north and south laterals proposed. No water comes from either Chesnut or Walnut street, as stated by the petitioners, and the entire drainage area due to George street, is about five acres. It is a very suitable place for the use of vitrified clay pipes, and hope they may be so recommended by the Board.

(Signed)

SPENCER BONSALE,
THOMAS DALY.

STRICKLAND KNEASS,

Chief Engineer and Surveyor.

RESOLUTION.

Resolved, That we recommend that a vitrified drain pipe be laid on the line of George street, from Beach to Nineteenth street; provided the general plan and specifications shall be approved by the Department of Surveys.

REPORT OF COMMITTEE ON SURVEYS AND REGULATIONS.

To the Common Council of the City of Philadelphia.

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the petition of citizens of the Twenty-fourth Ward, asking attention to the condition of a Culvert in the vicinity of Chesnut and Rose streets, have received the annexed Report upon the subject from the Board of Surveyors—respectfully report the following Resolution, and ask its adoption :

Resolved, That the Highway Department be authorized and it is hereby directed to construct a Wooden Trunk from the end of the present Sewer at Chesnut and Rose streets, in the Twenty-fourth Ward, upon the line of the old water course, to the south line of Chesnut street, and that it shall be so covered with earth or other material, as not to intercept travel; said work to be paid for out of the appropriation for repairs made to said Department for the year 1856. Provided, That the expenses thereof shall not exceed one hundred dollars.

Sept. 20, 1856.

PHILADELPHIA, September 15, 1856.

To the President and Board of Surveyors of the City of Philadelphia:—

Gentlemen:—The Committee to whom was referred the petition for the construction of a Culvert on Chesnut street, west of Rose street, in the Twenty-fourth Ward, respectfully report, That they have examined the locality named, and find that the end of a Sewer is now so situated on Chesnut street, west of Rose street, that the sewage flows in an open channel about one hundred feet before it passes out of the limits of public ground, which open channel intercepts travel and is a very serious annoyance to buildings now erected and being erected; but a permanent and substantial Culvert cannot now be built in the position which may be hereafter adopted, owing to the difficulties of infringing upon private rights, or excavating at heavy expense on line of proposed streets, and herewith offer the following Resolution:

Resolved, That we recommend the construction of a Wooden Trunk from the mouth of the present Culvert, along the old water course to the south line of Chesnut street.

REPORT OF THE COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Committee on Finance, to whom was referred the application of the President of the Sunbury and Erie Railroad Company, for an additional subscription of two million of dollars to the stock of said Company, respectfully report, That your Committee is strongly impressed with the idea that the Corporation of the City of Philadelphia never was designed or created for any other object than the good government of the City; for this purpose its duties are altogether local, simple and obvious, and not until a very short time

since was there any deviation from the simple path originally marked out for it. Our fathers never dreamed that the City should be made a partner in doubtful schemes and speculations—in the expenditure of large sums of money at hundreds of miles distance from the City, for purposes which have no connection whatever with the simple duties of a municipal Corporation. When the Schuylkill Canal—the Lehigh Works and the Reading Railroad were made, all works of peculiar and especial interest to the City, in consideration of their being the avenues through which are brought our supply of coal for domestic and manufacturing uses, it was never seriously asked or thought of making the City a partner in them. The policy of enlisting the municipalities and counties throughout the State in this precarious and dangerous business is entirely of recent date, and to such a frightful extent has it already prevailed, that it has been found necessary to amend the Constitution of the State, (a measure now in progress,) in such a way as shall hereafter prevent any thing of the kind.

The subscriptions heretofore made to different railroad Companies, have largely increased the liabilities of the City: instead of further increasing them by new subscriptions, your Committee respectfully submit that it should be the grand object of Councils, by judicious economy, and husbanding the resources of the City, to decrease them.

Entertaining these views, your Committee recommend that the subscription be not made, and ask the adoption of the following Resolution:—

Resolved, That the Committee on Finance be discharged from the further consideration of the subject.

APPENDIX No. 194.

REPORT OF CHIEF ENGINEER OF THE FIRE DEPARTMENT.

OFFICE OF THE CHIEF ENGINEER OF THE FIRE }
 DEPARTMENT OF THE CITY OF PHILAD'A. }

To the Common Council of the City of Philadelphia.

GENTLEMEN:—In presenting my Sixth and last Quarterly Report of the number of fires occurring, with the loss sustained, for the quarter ending on the thirtieth day of September, 1856, and the condition of the Department at that time, I am much gratified to state, that while it exhibits an increase in the number of fires, it shows a great decrease in the losses sustained. The number of fires that have occurred is 73, the estimated loss on which is \$98,915, and the insurance \$33,793, leaving an uninsured loss of \$65,120. The increase of fires, as compared with the preceding quarter, is 3; the decrease in total loss \$886,195, and the decrease in uninsured loss \$223,065. Since my former report, there have been added to the Department the Good Intent, Hope, Diligent, and West Philadelphia Hose Companies, and the Mount Airy, Washington, and West Philadelphia Engine Companies; making the Department now consist of 43 Engine Companies, 32 Hose Companies, and 5 Hook and Ladder Companies; possessing 46 Engines, 54 Hose Carriages, 11 two-wheeled Tenders, 6 Trucks, 57,523 feet of Hose, and 835 feet of Ladders. To this force can be added the Steam Fire Engine "Young America," which has been in serviceable condition during the quarter, but as the proper means have not been provided by Councils, so as to convey it to fires without great delay, it has not as yet been in service at any fire. I stated in my last report, that to have the Engine conveyed to fires in time for service, horses would have to be bought, and men employed, which would require a large amount of money—an amount much too large for the service which is re-

quired from this Engine, as there are but few fires where it could be placed in service before the present hand Engines would have extinguished, or be able to extinguish without its assistance; and I am of the opinion, that if Councils would be more liberal to the present Volunteer Department, it would be the means of securing the public from fire, much more than to lavish money upon a Steam Engine, which will cost as much for *repairs yearly*, if run to fires, as is now contributed to any three of our fire companies; and for the whole cost of it yearly, by correct calculation, more than any fifteen Engine Companies now receive. It is said that to guarantee the services of this Engine at all fires, the following will be required:

Five large Horses, two Drivers, one Engineer, one Assistant, three Pipe Men.

The cost of the horses will be	\$1000 00	
“ “ harness “	250 00	
	<hr/>	
Making	\$1250 00	
Salary of Drivers, at \$365 each,		\$730 00
“ Engineer,		800 00
(which amount is too small for a good Engineer)		
Salary of Assistant Engineer,		600 00
“ Pipe Men, \$300 each,		900 00
Horses' keep, \$3,50 per week (the lowest rate),		910 00
For repairs for Engine yearly,		1200 00
(a new set of wheels are now required)		
As general incidental expenses, wood for		
Engine, oil, coal for Engine house and		
Engineers' room, shoeing horses, repair-		
ing harness, &c., &c.,		500 00
(which is a very low estimate)		
	<hr/>	
Total, yearly, without horses and harness,	\$5,640 00	
Total, with cost of horses and harness,	\$6,890 00	

Thus showing, without giving any more items, the sum of \$5,640 00, without counting the purchase

money of the horses, \$1000 00, and harness, \$250 00, making in all \$6,890 00, as the first year's expense, and yearly thereafter not less than \$5,640 00. Each item has been carefully calculated, and placed at the lowest figure. The item for repairs for the Engine may seem large, but to run the Engine to all fires, it will not cost less yearly.

I desire to call the attention of Councils to my former Report, which refers to the Thirteenth Section of the Ordinance "reorganizing" the Fire Department, which provides that a large Bell Hall be erected in each Fire District. This has not been done in many of the Districts, and the firemen located in those vicinities are therefore without any proper means of alarm, and I would recommend speedy action in the matter.

It will also be found in my former Report, where I recommend Councils to have the Bell which is in the steeple of the Spring Garden Hall, rung for all fires, as a large number of firemen depend entirely on that bell to give them the alarm in time of fire. This has not been done as yet, and I again ask Councils to have this bell rung for all fires.

Also, to my former Report, where I recommend that it be made the duty of the Night Police to give the alarm, and arouse all firemen who shall so request them, whenever an alarm of fire shall occur during the night.

I have reasons to believe that if the suggestions thus thrown out should meet the approval of your honorable bodies, it would enure much to the public good and welfare of the Department.

I desire to inform Councils that a number of the Fire Companies, last winter, when there was snow on the ground, procured horses to pull their apparatus to fires, at an expense of about fifty dollars each, which I would recommend that Councils pay; and as the companies which dragged their apparatus without horses, at such times, are equally deserving, I would recommend that Councils make a donation to each company

in service at the time, of the sum of fifty dollars each.

The Fire Alarm Telegraph was, in conjunction with the Police Telegraph, put in practical operation on the 19th day of April last, and has already, although laboring under more disadvantages than are usually attendant on innovations, which are in all cases numerous, proved itself an invaluable auxiliary to the Fire Department. The original plan, which proposed one hundred and fifty signal stations or boxes, and which was subsequently reduced to eighty-four, would have been, as experience has proved, preferable to the reduced number. The additional expense would have been trifling. As a substitute for those boxes which were omitted, there is a strong desire felt on the part of the firemen to have alarm signals placed in the houses of the Companies. The value of an early alarm, in case of fire, is well known to every fireman, and the subtle, instantaneous electric flash seems the proper agent to convey the intelligence to the firemen. I would respectfully recommend to the consideration of your honorable bodies, the expediency of placing in the house of each Company in the Fire Department, an alarm box, for receiving the alarm of fire, fully believing that the saving of property, in consequence of the time thus gained, would annually repay the cost of construction four-fold, and would be the means of preventing many false alarms of fire.

In retiring from the office of Chief Engineer, I desire to return my thanks to my Assistant Engineers, and to the firemen composing the Department, for the prompt and efficient manner in which they complied with all requests made by me of them at fires.

I again return thanks to the Select and Common Councils, for the aid extended me in my efforts to discharge the duties assigned me, and particularly to the Committee on Trusts and Fire Department, who have manifested so much interest in the welfare of the Department.

Hoping that the Department may be in as good

condition at the expiration of the term of office of my successor, as I have the pleasure of leaving it now,

I am, with much respect, yours,

B. A. SHIOEMAKER,

Chief Engineer of the Fire Department
of the City of Philadelphia.

APPENDIX No. 195.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways &c. have had under consideration the within petition, and upon an examination of the locality, find that Carlton street is situate one hundred and thirty-one feet three inches south of Callowhill street, has been opened from Eleventh street eastward, to within about one hundred feet of Tenth street, and by extending it from the point to which it is now opened, into Tenth street, there will

be taken the ground that now composes the side yards of two houses fronting on Tenth street. And your Committee are assured that if any damage is awarded, it will be paid by those who are directly interested in having the street opened. They therefore submit to Councils the following Resolution, and recommend its adoption.

Respectfully submitted by

AND. MILLER, *Chairman*,

RESOLUTION

To give notice of the Opening of Carlton street, in the Fourteenth Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Chief Commissioner of Highways is hereby directed to give notice to the owners of the ground through and over which Carlton street, from the point to which it is now opened eastward to and into Tenth street, will pass: that at the expiration of three months from the service of said notice, the said Carlton street will be opened for public use, as authorized by the Seventh Section of the Act of Assembly approved April 21, 1855.

APPENDIX No. 196.

REPORT OF THE COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., have had under consideration various applications and communications from owners of property on Gay street, in the late Borough of Manayunk.

There is a culvert, constructed some years since, running down Gay street, which formerly was conducted directly across the Main street into the Canal of the Schuylkill Navigation Company.

This caused a deposit of gravel and earth into the canal, whereby it was rapidly filled up; and, to avoid this evil, the Navigation Company, with the consent of the proper authorities, constructed a culvert under the bed of the canal into the Schuylkill, into which they conducted the Gay street culvert, by means of a drain which crosses the Main street diagonally. This drain is constructed nearly on a dead level, and at nearly every heavy rain becomes choked up with earth and sand, which causes the water to overflow and run into the cellars of the property on Gay street.

The remedy is to alter this drain across the Main street, so as to give it a more rapid descent, and the Committee submit the following Resolution, and recommend its adoption.

RESOLUTION

To authorize the deepening of a drain from the foot of Gay street across the Main street, in the late Borough of Manayunk.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Department of Highways is hereby authorized to reconstruct and deepen the drain or culvert extending from the foot of Gay street across the Main street, in the late Borough of Manayunk, so as to permit the water to pass freely through the same without obstruction.

RESOLUTION

To authorize the construction of a Culvert across the property of Henry J. Williams, Esq., in the Fifteenth Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Department of Highways is hereby authorized to construct a culvert from the depression in the grade of the Upper Ferry Road, near the Wire Bridge, across the property of Henry J. Williams, Esq., into the Schuylkill, said culvert to be of such dimensions, and at such depth below the surface as the Survey Department may determine.

REPORT OF THE COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., have considered the within petition, and have received the estimate and calculation of Emanuel Street, that the grading of Hancock street, as asked for by the petitioners, will not

cost over one hundred and eighty dollars. And they, therefore, recommend the adoption of the following Resolution.

RESOLUTION

To authorize the grading of Hancock street, in the Nineteenth Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Highway Department is hereby authorized to proceed with the grading of Hancock street, from Susquehanna Avenue, southward to Diamond street, in the Nineteenth Ward, and to expend therefor a sum not exceeding one hundred and eighty dollars.

APPENDIX No. 199.

REPORT OF THE COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., respectfully report, That St. David street, running from Race to Vine street, between Ashton street and the River Schuylkill, was ordered to be paved by a Resolution of Councils, passed early in the present year, and there is some grading to be done upon it before said paving can be commenced. They, therefore, submit the following Resolution.

RESOLUTION

To authorize the grading of St. David street, in the Tenth Ward.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Highway Department are hereby authorized to grade St. David street, from Race to Vine street, in the Tenth Ward, preparatory to paving the same, and to expend in the said work a sum not exceeding eighty dollars.

APPENDIX No. 200.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., have had under consideration the petition for opening Bedford street, and thereupon report, That Bedford street, midway between South and Shippen streets, has been laid out and opened by the owner of the ground some years since, to extend from Fifteenth street eastward, to within about seventy or eighty feet of Broad street, and the same is now compactly built upon on both sides, and the owners of property are anxious that it should be opened across this seventy or eighty feet of ground into Broad street, and their desire seems to your Committee to be a reasonable one; but the Act of Assembly, the aid of which these petitioners seek to invoke, authorizes the action of Councils only in the case of "any street laid upon any of the public plans of the city;" and on inquiring at the Survey office, it was ascertained that the public plan of that locality did not contain any mark or delineation of Bedford street; and therefore, Councils have no jurisdiction in the case.

APPENDIX No. 201.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., have had under consideration the following Resolution, to wit:

Resolved, That the Chief Commissioner of Highways be directed to proceed with the grading of Girard Avenue, east of the Schuylkill, so far as may be necessary to render the Girard Avenue bridge accessible for the purposes of public travel. *Provided*, That the cost thereof shall not exceed the amount of the appropriation already made for that purpose.

—passed by Select Council on the 21st of August last, and also various communications respecting the grading of Girard Avenue, and thereupon, they respectfully report, That the Bridge over the Schuylkill at Girard Avenue, was begun under a contract with the Commissioners of the County of Philadelphia, made several months—probably a year, prior to the passage of the Consolidation law.

It was erected at a point on the river, which was at the time, and still remains totally inaccessible for horses and vehicles. And although it is nearly two years since the Bridge was finished, yet for the reason that there is no road whereby it can be approached, it remains utterly useless and valueless for the purposes for which it was intended. It is not to be wondered at therefore, that persons residing or doing business in the localities adjacent to the bridge, and indeed all who desire to pass from or approach the City by that avenue, should earnestly desire to have a road made whereby it may be devoted to its proper and intended uses.

On the west side of the Schuylkill, the grading has progressed under contracts made with the County Commissioners, in the year 1854, until it is now nearly finished, from the west end of the bridge westward to Belmont Avenue, a distance of about a mile. But

on the eastern side little, if any, grading has been done since the bridge has been in the course of construction, and to have access to it, there must be graded, from Landing Avenue westward to the eastern abutment, the distance of about two thousand two hundred and fifty feet, or not quite half a mile.

To bring the avenue down to the regulated grade, would require deep excavation throughout nearly the whole of this distance, and cost a large sum of money ; but it is not proposed at the present time, to excavate to a greater extent below the present surface than is necessary to make an ordinary road, with such rise and fall as may be passed over with horses and vehicles without difficulty.

Within this space to be graded, passes the Schuylkill branch of the Reading and Pottsville Railroad, and your Committee are of the opinion that the safety of all who travel either by the Railroad or by the avenue, renders it highly necessary that the avenue should pass over the Railroad by a bridge.

To bring the avenue down to the level of the Railroad, would leave on each side an embankment of about thirty feet, so that passengers along the avenue could not see either up or down the Railroad until they were almost upon the track, thus making the danger of frequent collisions very great.

During the summer of last year, it was understood that the Railroad Company were willing to pay half the expense of erecting a bridge over their road at this point, and the Committee suggest that they be empowered to confer with the Company upon the subject of the erection of the said bridge.

The Committee find that before there is any further filling in of earth, immediately at the ends of the bridge, it will be necessary to extend the wing walls on both the east and west ends.

This is necessary in order to prevent the constant washing away of the embankment, and the danger to horses and vehicles thereby.

The Committee, therefore, submit the following

Resolutions, as amendments to that passed by Select Council.

ANDREW MILLER, *Chairman*,

RESOLUTIONS

To authorize the extension of the wing walls of Girard Avenue Bridge, and the grading of Girard Avenue, west of the Schuylkill.

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Department of Highways are hereby authorized to enter into a contract or contracts, with one or more competent Stonemasons for the extension of the wing walls at both ends of the Girard Avenue bridge over the Schuylkill. Said walls to be connected with those already up, and to be of such dimensions and thickness as the Chief Engineer and Surveyor and the Chief Commissioner of Highways may determine. Said contracts to be made with the lowest responsible bidder, and when made, to be approved by the Councils before the same shall be binding on the City.

Resolved, That whenever the extension of the wing walls of the eastern end of the bridge is finished, the Department of Highways is hereby authorized to proceed with the grading of Girard Avenue, commencing at the eastern end of the bridge and proceeding eastward, not regarding the regulated grades, and excavating only to a breadth and depth sufficient to afford proper facilities to public travel, and fixing the elevation on each side of the Reading Railroad, under the direction of the Survey Department, with a view to crossing the same by a bridge.

Resolved, That the Chief Engineer and Surveyor and the Chief Commissioner of Highways, are hereby authorized to confer with the managers of the Reading Railroad Company upon the subject of the erection

of a bridge whereby Girard Avenue may pass over the Railroad, and report the result of their conference to Councils as early as practicable.

APPENDIX No. 204.

REPORT OF COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., have had under consideration the annexed Resolutions passed by Select Council, and report the same with the following amendments:

Strike out of the second resolution all before the words "to cause," and insert "and also," thereby connecting the two so as to make one resolution, and add at the end thereof the words "And to expend on the said work a sum not exceeding two hundred dollars."

With these amendments, the Committee recommend the adoption of the Resolution.

RESOLUTIONS

To authorize the grading of A street, Master street, and Twentieth street, in the Twentieth Ward.

Resolved, By the Select and Common Councils, that the Chief Commissioner of Highways be, and he is hereby authorized and directed, to cause so much of A street from Twenty-second to Twenty-third street, and Master street from Twenty-first to Twenty-third street, to be graded, as will prevent injury to the buildings on said streets, by an overflow of water.

Resolved, That the Chief Commissioner of Highways be and he is hereby authorized and directed to cause Twentieth street, from Ridge avenue to Oxford street, to be placed in a condition fit for public travel, and to expend on the said work a sum not exceeding two hundred dollars.

REPORT OF COMMITTEE ON TRUSTS AND FIRE DEPARTMENT.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Trusts and Fire Department respectfully report, That they have had under consideration a Resolution from Select Council, authorizing the removal of certain fire alarm boxes, and report against said removal.

They have also had under consideration the subject

of an alteration in the mode of striking the fire alarm bells, and would offer the following Resolution :

Resolved, That hereafter the fire alarm bells shall be rung as follows, for all fires occurring in the First, Second, Third, and Fourth Fire Districts, viz.: The signal to indicate the number of the District shall be struck twice, and then the signal formerly used to indicate the direction, shall be struck four times, and so alternately—the District signal twice and the Direction signal four times.

They would also report the following Resolution :

Resolved, That the Superintendent of Police and Fire Alarm Telegraph be instructed to have a Fire Alarm Signal Box placed in the dwelling of the Chief Engineer of the Fire Department.

Respectfully,

W. S. WINSHIP, *Chairman*,

A FURTHER SUPPLEMENT

To an Ordinance, entitled "An Ordinance to provide for the management of John Scott's Legacy," passed September 9, 1841.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the provisions of the first and second sections of the Ordinance to which this is a further supplement, be and the same are hereby revived and continued in full force. *Provided*, However, that the words "Committee on Trusts and Fire

Department," shall be substituted in place of the words "Committee on Legacies and Trusts," wherever they occur in said recited Ordinance.

SEC. 2. It shall be the duty of the Franklin Institute previously to making an award of the Legacy Premiums under the Will of John Scott, to publish in one newspaper of the City of Philadelphia, twice a week for eight weeks, their intentions to make said award, unless satisfactory evidence is produced of the want of novelty in the invention or improvement; and before any payment shall be made for such advertisement, the bill therefor shall be approved by the Managers of the Franklin Institute, at their regular stated meeting, and certified to by their Chairman.

REPORT OF COMMITTEE ON SURVEYS AND REGULATIONS.

To the Common Council of the City of Philadelphia.

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the annexed petition relating to the Bay street Culvert, beg leave to present herewith a Report and Resolution of the Board of Surveyors on the subject, with which they concur, and ask the adoption of the accompanying Ordinance.

Oct. 23, 1856.

PHILADELPHIA, Oct. 18, 1856.

To the President and Board of Surveyors:

Gentlemen,—The Committee appointed on the Bay street Culvert have visited the locality, and find that the small culvert extending eastward, from the Seventh street Sewer, sixty feet, has been imperfectly con-

structed, and requires repair to prevent the percolation of water from the sewer into adjacent privies, and offer the following Resolution :

Resolved, That it be recommended that the Highway Department perform the repairs necessary for the efficiency of the Culvert on Bay street.

SPENCER BONSALE.

AN ORDINANCE

Relative to the repair of Bay street Culvert, in the Fifth Ward.

SECTION 1. The Select and Common Councils of the City of Philadelphia do ordain, That the Department of Highways be authorized and is hereby directed to perform such repairs to the Bay street Culvert in the Fifth Ward, as may be requisite. *Provided*, That the expense thereof shall not exceed one hundred dollars.

REPORT OF COMMITTEE ON SURVEYS AND REGULATIONS.

To the Common Council of the City of Philadelphia.

GENTLEMEN:—The Committee on Surveys and Regulations having had under consideration the annexed Resolution, relating to the construction of a Culvert on Vine street, from Nineteenth street to the River Schuylkill, referred to them by Councils, beg leave to present the accompanying Report from the Board of Surveyors on the subject, and recommend the adoption of the annexed Resolution as committed to them.

RESOLUTION.

Resolved, That the Department of Highways be directed to advertise for proposals for the construction of a Culvert on Vine street from Nineteenth street to the River Schuylkill, said Culvert to be in accordance with plans prepared for the same by the Department of Surveys, and also to advertise for proposals for culverting the Cohocksink Creek from Sixth to Front street, and also for the construction of a Culvert in Christian street, from Fifteenth street to the River Schuylkill.

To the President and Board of Surveyors of the City of Philadelphia:

Gentlemen:—The Ordinance to authorize the construction of a Culvert on the line of Vine street, from Nineteenth street to the Schuylkill River, and referred through the Committee of Surveys and Regulations, to this Board, has received due attention, and the Committee appointed by the Board of Surveyors, upon the said Ordinance, beg leave to offer the following report:

The want of a main line of Sewer upon the line of Vine street, between the points indicated in the Ordinance referred, has been long felt, and in the progress of examination, it has been ascertained that it is advisable that the amount of sewage now flowing through the Nineteenth street Sewer into Arch street, should, whenever opportunity offer to do so, be reduced, and the present case is one through which that end can be reached. We therefore propose and recommend that the Vine street Sewer be constructed from the River Schuylkill to Nineteenth street, connecting at that point with the Sewer which extends northward, draining an area north of Vine street of about 41.2 acres, thereby reducing the amount of drainage now delivered by the Arch street Sewer, (taking the amount of supply as adopted by the Board,) 2472 cubic feet per minute.

The arrangement of gradient on the line of Vine street, placing the Sewer at such depth as to be avail-

able for house drainage, is 0.5 per 100, to centre of Twenty-first street, thence 1.25 feet to River, placing the mouth of Culvert on Warden's line at low water level. The total area drained is 83 acres, and the capacity required for carrying off the supply east of Twenty-first street, will be fully sufficient to carry off the increased supply between that and the River, on account of the increased gradient.

The amount of drainage to pass Nineteenth and Vine streets, will be that due 52 acres, or 3120 cubic feet per minute, which, on a grade of 0.5 per 100 feet, will require an Oviform Culvert 5 feet x 3'.4'', the delivery of which, by calculation, equals 4029.5 cubic feet per minute.

The total amount of drainage for Culvert will be only 4980 cubic feet per minute, while the same sized Culvert on a gradient of 1.25, will deliver, per minute, 6547 cubic feet; but as the difference of cost between that necessary on the 0.5 gradient, and the reduction of size that would be sufficient on the heavy grade, is so small, it is not thought necessary to change the proportions, but continue the same from Nineteenth street to the River. We, therefore, offer the following Resolution.

(Signed) STRICKLAND KNEASS,
JOSEPH H. SIDDALL,
AMOS STILES,
SPENCER BONSALE.

RESOLUTION.

Resolved, That this Board recommend the construction of an Oviform Brick Culvert on the line of Vine street, from Nineteenth street to the River Schuylkill, connecting with the culvert now built on the line of Nineteenth street, delivering into the Arch street Sewer—which shall be 5 feet x 3'.4'' in its proportions.

APPENDIX No. 209.

REPORT OF SPECIAL COMMITTEE.

To the Common Council of the City of Philadelphia.

The Special Committee, to whom were referred the two communications from the Guardians of the Poor, respectfully report, That in the appropriations made March 18th last, to the Guardians of the Poor, there was an especial amount of thirteen thousand one hundred and seven dollars, for supplies to the medical department of the Alms-house, expenses of nurses' table, the salary of moral instructor, and repairs to heating and cooking apparatus, and other repairs. It will thus seem, that the question of repairing the heating apparatus was taken into consideration by Councils when the general appropriation to that department for the year was made. Upon examination, your Committee find a balance due that fund, of two thousand six hundred and thirty-two dollars and twenty-two cents, and no repairing of heaters made. And it is said the above balance will be required for the department other than for said repairs, for the remaining portion of the year. The question may naturally be asked, what has been done with the money? The Committee answer that question by appending to their report a statement of the account kept by the City Controller with that department; thus showing without further comment, the manner in which the same has been expended.

The Committee have examined the heaters in the Alms-house, and found the steam pipes in such a condition that will require renewal of some, and perhaps all, they not being capable of being repaired. Inasmuch as the house is supplied with the necessary heat from this source, and the same not being competent to perform said requirements, your Committee have no alternative other than to report in favor of an appropriation for said repairs.

However much we may regret the necessity of adding additional claims upon the already overburdened

City, it nevertheless becomes the duty of Councils to provide a comfortable home as well as food to those unfortunate persons whom the City is bound to provide for.

The Committee therefore, in consideration of the above facts, report the following Ordinance, and ask its adoption.

REPORT OF COMMITTEE ON FINANCE.

To the Common Council of the City of Philadelphia.

The Finance Committee, to whom was referred the following Resolution, to wit:

Resolved, That the Finance Committee be directed to inquire into the terms under which the City of Philadelphia held or holds the rooms at the north-east corner of Fifth and Chesnut streets, if the lease is cancelled or is now in force, and if the City is responsible for any rent for the said premises, and what arrangement, if any, has been made in relation thereto, who now occupies the same and under what terms.

—have to report, That, on inquiry, they find that the City is under obligations to the owner, Mr. F. Brown, to hold the second story of the building, north-east corner of Chesnut and Fifth streets, until the 1st of March, 1857, at the rate of \$1500 per annum, as per lease, a copy of which is annexed; on the removal of the Law Department to the new building in Fifth street below Walnut, the City Commissioners leased the above room to certain parties for four months, at the rate of seventy-five dollars a month, from the 1st of July, a copy of which is hereto annexed.

Your Committee see no way of vacating the room except by a mutual agreement with the owner, and therefore would recommend the passage of the following Resolution:

Resolved, By the Select and Common Councils of the City of Philadelphia, That the Committee on City Property be directed to ascertain by what mutual arrangement the premises at the north-east corner of Fifth and Chesnut, may be vacated before the 1st of March, 1857, and report the same to Councils.

COPY OF A LEASE FROM FREDERICK BROWN TO CITY OF PHILADELPHIA.

CITY COMMISSIONERS' OFFICE, PHILADELPHIA, }
March 1, 1855. }

This agreement witnesseth, that Frederick Brown doth hereby let unto the City Commissioners of the City of Philadelphia, the second story of the messuage or tenement, situate at the northeast corner of Chesnut and Fifth streets, in the City of Philadelphia, for the term of one year from the date hereof, at the rent of fifteen hundred dollars per annum, payable quarterly unto the said Frederick Brown, his heirs, executors, administrators, or assigns; and the said Frederick Brown hereby agrees that the said City Commissioners shall be empowered to make such alterations in said room as will render it suitable for the purposes for which it is to be used, and with this exception: at the expiration of the said term to yield up and surrender the said premises, in the same good order and condition as the same now are, reasonable wear and tear thereof, and accidents happening by fire or other casualties, excepted.

It is hereby further agreed, that if the above mentioned City Commissioners should continue to occupy

the above described premises after the termination of the above contract, then the above contract is to continue in full force for another year, and so on from year to year, until legal notice given for a removal.

In witness whereof, the said Frederick Brown has hereunto set his hand and seal, and the said City Commissioners have affixed their names and attached the common or corporate seal of the County of Philadelphia, this first day of March, A. D. one thousand eight hundred and fifty-five.

REPORT OF THE COMMITTEE ON HIGHWAYS.

To the Common Council of the City of Philadelphia.

The Committee on Highways, &c., have had under consideration the Resolution offered at the last meeting, directing the Department of Highways to grade Hagy's Mill Road, in the Twenty-first Ward, and thereupon they report, That Hagy's Mill Road extends from the road known as Ship Lane, intersecting a new street recently opened, called Manatawna street, thence south-westward to the Montgomery County Line, in the upper end of the Twenty-first Ward, and it is represented by the Supervisor of that District, and by Mr. Crease, a member of the Committee, who resides in the vicinity, that it needs some grading in order to afford proper facilities to the constantly increasing travel over it. And they represent that the work necessary to be done will not cost more than one hundred and fifty dollars.

The Committee therefore report the following Resolution:

Resolved, By the Select and Common Councils, That the Department of Highways be authorized to grade Hagy's Mill Road, between Manatawna street and the Montgomery County Line, in the Twenty-first Ward. *Provided*, The cost thereof shall not exceed one hundred and fifty dollars.

The Select and Common Councils of the City of Philadelphia do ordain, That the sum of two thousand one hundred and twenty-four dollars, be and the same is hereby appropriated to the Department of Highways, Bridges, Sewers, and Cleansing the City, for the purpose of paying, in manner hereinafter mentioned, the following amounts, assessed as damages for injuries sustained by the following named persons by the opening of Swain street, that is to say :

David Ellis, eight hundred and seventy-two dollars and seventy-two cents.

George H. Hart, one thousand two hundred and fifty-one dollars and twenty-eight cents.

SEC. 2. Warrants for the payment of the said appropriation shall be drawn by the Chief Commissioner of Highways. The following sums shall be paid in money, viz.: to David Ellis, seventy-two dollars and seventy-two cents ; and to George H. Hart, fifty-one dollars and twenty-eight cents ; and the balance of the said appropriation shall be paid in certificates of City Debt ; and the warrants to be drawn, as aforesaid, shall express how much of the amount for which they are drawn is payable in money, and how much in said certificates. *Provided*, No warrant shall issue until the usual certificate shall be produced from the Court of Quarter Sessions, that the damages aforesaid have been assessed by a jury, and their report confirmed absolutely, nor until the City Solicitor shall certify that there are no liens against the property, for injury to which the said damages have been awarded.

SEC. 3. When the delivery of any such warrants, countersigned by the Controller, to the City Treasurer, as specify that the payment of the amount therein mentioned, is to be made in certificates of City Debt, the said Treasurer shall deliver to the person in whose favor the same is drawn, or to his order, certificates of City Debt to the amount expressed in such warrant,

which certificates shall be such as are provided for and described in an Ordinance, approved August 23, 1855, entitled "An Ordinance to provide for the issue of Certificates of Debt in payment of Road Damages, and to pay the contract price of the Fire Alarm and Police Telegraph," and the said certificates shall be a portion of those authorized to be issued by the said Ordinance.
